Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Legislative Contact: Jason Zolle	Phone: 360-786-7124	Date: 03/01/2023
Agency Preparation: Jeff Naas	Phone: (360) 786-6131	Date: 03/02/2023
Agency Approval: Michael Mann	Phone: 360-786-6112	Date: 03/02/2023
OFM Review: Gaius Horton	Phone: (360) 819-3112	Date: 03/06/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 9 requires LEAP to in conjunction with OFM, to create a website updated by August 15 of each year with the following information:

- 1) summaries online of each of the most recently adopted operating, transportation, and capital budgets and supplemental budgets;
- 2) graphical depictions of funds subject to outlook and a data visualization showing total budgeted funds for the state operating budget by functional areas of government for the most recent biennium;
- 3) tables provided by OFM comparing state and local taxes with personal income, and;
- 4) a list of bills generated in coordination with OFM for which I-960 analyses were produced, links to the legislative website for each bill, and instructions on how to find the I-960 analyses.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Indeterminate, but likely nominal costs associated with preparing the graphical depictions and data visualization specified in section 9(2) and the list of bills for which I-960 analyses were produced as specified in section 9(4). LEAP assumes that OFM will identify the bills under section 9(4) and LEAP will post the list on the website.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Changes in ESSB 5082 compared to the previous version (SSB 5082):

SSB 5082 Section 9 was removed, which would have required the Office of Financial Management (OFM) to create a website presentation accessible 24 hours a day beginning October 15th of each even-numbered year containing information about adopted budgets; graphical depictions of funding sources including a pie chart prepared by the legislative evaluation and accountability program; tables provided by OFM comparing state and local expenditures per \$1,000 of personal income; and instructions for voters on how to locate the fiscal impact statements that would have been prepared under section 10 of this act.

A new Section 9 was added, requiring the Legislative Evaluation and Accountability Program (LEAP), in conjunction with OFM, to create a website presentation accessible 24 hour a day beginning August 15th of each year.

SSB 5082 Section 10 was removed, which would have required OFM, in consultation with the Secretary of State, the Attorney General, and others, to prepare a fiscal impact statement for each bill enacted since the previous election that increases or decreased state tax revenue. The statement would have been filed with the Secretary of State no later than the 23rd day of July.

These changes do not impact the Office of the Secretary of State's fiscal impact projection.

Summary of ESSB 5082

The bill removes advisory votes from the ballot and changes voters' pamphlet content requirements.

Section 2

- Repeals the statutes requiring the voters' pamphlet contain two pages of information for each advisory vote.

Section 7

- Repeals the statutes requiring advisory votes on tax legislation.

Section 8

Requires the voters' pamphlet to contain a page providing information about how to access the internet presentation created in section 9.

Section 9

Requires LEAP, in conjunction with OFM, to create a website presentation accessible 24 hours per day beginning August 15th of each year containing a summary of operating, capital, and transportation budget information; graphical depictions of funds subject to outlook; tables provided by OFM comparing state and local expenditures with personal income from the most recent fiscal year; and a list of every bill for which analysis was produced in compliance with RCW 43.135.031 (State Expenditures Limitations).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

This bill removes advisory votes from the ballot. Additionally, the requirement that the Office of the Secretary of State publish information about the advisory votes in general election voters' pamphlet is also removed.

The attached table summarizes the fiscal impacts of this bill.

Section 1 is the Legislative intent and has no fiscal impact.

Section 2 removes the requirement that two pages of information about each advisory vote is included in the general election voters' pamphlet. This section, when viewed in isolation from the rest of the bill, reduces the cost of the voters' pamphlet by approximately \$80,700 for odd-year pamphlets, \$88,500 for even-year pamphlets, and \$78,800 for presidential-year pamphlets by reducing the number of pages printed and mailed by mean of 8.75 pages [(3.875 mean advisory votes * 2 pages per advisory vote) + 1 cover and explanation page). While the same number of advisory vote pages is removed, the composition of the rest of the voters' pamphlet changes with different election years. Because of the non-linear cost structure of certain parts of the voters' pamphlet, the fiscal impact changes year-to-year. The fiscal impact associated with this section is offset by the increase in fiscal impact in section 8, but the additional fiscal impact increases the net cost, as detailed in the analysis for that section.

Section 3 removes references to advisory votes from a section of law involving the cost of statewide recounts. Because this section of current law says advisory votes are exempt from recounts, the removal of this language has no fiscal impact when looked at in the totality of this bill.

Section 4 removes references to advisory votes from current law; there is no fiscal impact associated with this section.

Section 5, 6, and 7 taken together remove advisory votes from the ballot. The primary fiscal impact associated with these sections is related to the decrease in the weighted percentage of the state share of election costs. The total cost of an election is split among the jurisdictions using one of two methods, which represents how much each jurisdiction contributed to the total cost of the election:

- 1) A method using only the number of registered voters in each jurisdiction; or
- 2) A method that uses the number of offices and issues for each jurisdiction, as well as the number of registered voters in the jurisdiction to calculate a weighted allocation factor representing the extra cost additional offices and issues contribute to the total cost of the election

For the 2019 odd-year election cost reimbursements, which is the last available data, seven counties used method one, while the remaining 32 used method two. Because most counties use method two, which prorates the state share of election costs based on both the number of registered voters and the number of offices and issues on the ballot, a reduction in the number of issues on the ballot will reduce the prorated state share of election costs paid in both odd-year and even-year elections.

Based on historical odd-year election costs and estimates provided by counties for even-year election costs, we estimate the following reductions for the state share of election costs for

- odd-year elections by a mean of \$299,942,
- even-year elections by a mean of \$472,115, and
- Presidential-year elections by a mean of \$737,544.

We based these estimates the on the Monte Carlo simulation model, which uses the probability distributions for the number of advisory votes that may appear in a given year.

Please note, due to a lack of available election cost data from the counties, we were unable to fully model the fiscal impact of removing advisory votes from the ballot. Our assumptions don't necessarily reflect the totality of such a change; such detail as the reduction in ballot printing costs and reduction in staff time to tabulate the advisory votes. It is unknown if such modeling would have a material impact on this analysis.

Section 8 adds a page to the Voters' Pamphlet related to accessing an internet presentation of the information created in section 9.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

OFM Review: Cheri Keller	Phone: (360) 584-2207	Date: 03/07/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 – New Section. Finding and purpose.

Section 2 – Amends RCW 29A.32.070. Deletes language relating to advisory votes.

Section 3 – Amends RCW 29A.64.090. Deletes language relating to advisory votes.

Section 4 – Amends RCW 29A.72.040. Deletes language relating to advisory votes.

Section 5 – Amends RCW 29A.72.250. Deletes language relating to advisory votes.

Section 6 – Amends RCW 29A.72.290, adds what county auditors must print on ballots and deletes language relating to advisory votes.

Section 7 – New Section. Repeals three different statutes.

Section 8 – Amends RCW 29A.32.031. Deletes language relating to advisory votes in voters' pamphlets. Further information regarding budgets and sources of revenue for bills, and other information about legislation.

Section 9 – New section added to chapter 44.48 RCW. Legislative accountability program in conjunction with the Office of Financial Management (OFM) must create a website presentation accessible 24 hours a day, starting August 15 of each year. The Website must contain specified information about the state budget.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

The Attorney General's Office (AGO) assumes cost savings related to the enactment of this bill.

If this bill is enacted, AGO's Solicitor General's Office (SGO) assumes a workload reduction for the legal services provided to the Office of the Secretary of State. This workload reduction represents approximately 100 Deputy Solicitor General FTE (DSG) hours each FY:

AGO AGENCY ASSUMPTIONS:

FY 2024 and each FY thereafter: (\$14,000) for (0.06) DSG and (0.03) Legal Assistant 3 FTE (LA).

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Attorney General's Office (AGO) Agency Assumptions:

Total workload impact in this request includes standard assumption costs for goods & services, travel, and capital outlays for all FTE identified.

Agency administration support FTE are included in the tables. The Management Analyst 5 (MA), is used as a

representative classification. An example ratio is for every 1.0 Deputy Solicitor General FTE (DSG), the AGO includes 0.5 FTE for a Legal Assistant 3 (LA) and 0.25 FTE of an MA.

1. The AGO assumes cost savings related to the enactment of this bill. If this bill is enacted, AGO’s Solicitor General’s Office (SGO) assumes a workload reduction for the legal services provided to the Office of the Secretary of State (OSOS). SGO will no longer be assisting with identifying bills that are subject to advisory votes, preparing the associated materials for the ballot and voter guide, and litigating cases by defending those decisions. This workload reduction represents approximately 100 DSG hours each FY:

FY 2024 and each FY thereafter: (\$14,000) for (0.06) DSG and (0.03) LA.

2. The AGO’s Revenue and Finance Division has reviewed this bill and determined it will not impact the provision of legal services to the Office of Financial Management. New legal services are nominal and costs are not included in this request.

3. The AGO’s Government Compliance and Enforcement Division (GCE) has reviewed this bill and determined it will not significantly increase or decrease the division’s workload. GCE provides certain legal advice to OSOS. This bill is election-related and would repeal advisory votes and add new requirements to include information in the voter’s pamphlet for transparency and fiscal responsibility purposes. Therefore, GCE does not anticipate that this bill would have any impact on the work GCE does for this client. New legal services are nominal and costs are not included in this request.

4. The AGO Financial Services Division (FIS) has reviewed this bill and determined it will not significantly increase or decrease the division’s workload. The enactment of this bill will not impact FIS’ workload. Therefore, costs are not included in this request.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29

Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Changes in this engrossed substitute version compared to the first substitute: This engrossed substitute requires the Legislative Evaluation and Accountability Program (LEAP) to work in conjunction with OFM to complete the activities in Section 9 (see below). With these changes, OFM can complete this work within current resources and staffing, and therefore fiscal impacts identified for OFM in the previous version are removed.

Engrossed Substitute Version:

Part II abolishes advisory votes. This section has no fiscal impact to OFM.

Part III, increases the information that must be included in the voters' pamphlet, and on the Legislative website, to include:

- o Section 9 - A website presentation created by LEAP, in conjunction with OFM, that includes: in even-numbered years, a summary, which much include major sources of revenue and categories of expenditures, of the adopted operating, capital, and transportation budgets, and a list of each bill that was part of the budget and their relative bill information; graphical depictions of funds by functional areas of government; tables provided by OFM comparing state and local expenditures per with personal income for the most recent fiscal year and going back 20 years. OFM would produce this content, in conjunction with LEAP, and can do so within current staffing and resources. Therefore, this section has no fiscal impact to OFM.

- o Section 10 - requires LEAP, in coordination with OFM, to produce a list of every bill for which an analysis was completed in compliance with RCW 43.135.031. OFM captures this information in current fiscal note analysis processes. Providing a list to LEAP can be accomplished within current resources and staffing. Therefore, this section has no fiscal impact to OFM.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

LOCAL GOVERNMENT FISCAL NOTE

Department of Commerce

Bill Number: 5082 E S SB

Title: Advisory votes

Part I: Jurisdiction-Location, type or status of political subdivision defines range of fiscal impacts.

Legislation Impacts:

- Cities: cities participating in elections could experience indeterminate but likely minimal reductions in election costs.
- Counties: same as above. County revenue could decrease in direct proportion to auditors' reduced printing costs.
- Special Districts: special districts participating in elections could experience the same cost savings as cities, likely minimal.
- Specific jurisdictions only:
- Variance occurs due to:

Part II: Estimates

- No fiscal impacts.
- Expenditures represent one-time costs:
- Legislation provides local option:
- Key variables cannot be estimated with certainty at this time: election costs; actual cost savings resulting from no longer printing advisory votes; actual reduction in ballot size and printed pages, if any.

Estimated revenue impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Estimated expenditure impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Part III: Preparation and Approval

OFM Review: Cheri Keller	Phone: (360) 584-2207	Date: 03/07/2023

Part IV: Analysis

A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

CHANGES BETWEEN THIS VERSION AND PREVIOUS BILL VERSION:

The engrossed substitute version of the bill eliminates the obligation to prepare fiscal impact statements. This change does not alter the legislation's fiscal impact on local governments.

SUMMARY OF CURRENT BILL:

Part II

Sec. 2 amends RCW 29A.32.070 and 2016 c 83 s to repeal the requirement that advisory votes for tax increase legislation appear on the ballot and voters' pamphlet.

Sec. 3 removes an exception for recounting statewide advisory votes of the people. The bill would allow the Secretary of State to direct a recount for any statewide advisory vote of the people that was placed on the ballot if the difference between for and against votes meets the conditions outline in section three.

Sec. 6 amends RCW 29A.72.290 and 2022 c 114 s 4 to remove one item from county auditors' current printing requirements. Information on advisory votes would no longer need to be printed by county auditors in the voters' pamphlet.

Part III

Sec. 8 amends RCW 29A.32.031 and 2020 c 208 s 11 to add printing requirements for the Secretary of State. It does not add printing requirements for county auditors.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

CHANGES IN EXPENDITURE IMPACTS BETWEEN THIS VERSION AND PREVIOUS BILL VERSION:

The engrossed substitute version of the bill eliminates the obligation to prepare fiscal impact statements, which eliminates any work county auditors might have contributed to help prepare fiscal impact statements. However, this work was expected to have a de minimis impact on county auditors, so the engrossed substitute version of the bill does not change the minimal but indeterminate expenditure decrease this bill could have on local governments.

EXPENDITURE IMPACTS OF CURRENT BILL:

The legislation could result in minimal, indeterminate cost savings to county auditors, and cities and special purpose districts participating in elections due to reduced printing costs.

County auditors could experience indeterminate but likely minimal cost savings due to reducing the information that must be printed on ballots and in voters' pamphlets. Specifically, the legislation would remove the current requirement to print information on advisory votes for tax legislation in the voters' pamphlet and on ballots. Printing less information would likely result in minimal cost savings due to an overall reduction in ballot size and in printed pages. However, the exact reduction of printed pages cannot be predicted in advance. Therefore, county auditors' cost savings in voters' pamphlets and ballot printing costs are likely minimal, but indeterminate.

Because cities and special purpose districts participating in elections pay their proportionate share of costs to print voters' pamphlets, any cost savings county auditors experience as a result of printing fewer pages would proportionately impact cities and special districts in the same minimal, indeterminate manner.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

CHANGES IN REVENUE IMPACTS BETWEEN THIS VERSION AND PREVIOUS BILL VERSION:

The engrossed substitute version of this bill does not change the minimal but indeterminate decrease in revenue that this bill could have on county auditors.

REVENUE IMPACTS OF CURRENT BILL:

The legislation could result in minimal indeterminate decreases in county revenue directly proportionate to county auditors' reduced costs to print ballots and voters' pamphlets.

The legislation would reduce the information county auditors are required to print on ballots and in voters' pamphlets, potentially reducing election printing costs. Counties bill local jurisdictions participating in the election for each participating jurisdiction's proportionate share of election costs, including costs to print ballots and voters' pamphlets. Therefore, county revenue received from cities and special districts for their proportionate share of election costs would be reduced in direct proportion to county auditors' reduced printing costs.

However, the exact revenue loss cannot be determined in advance. As a result counties will experience an indeterminate, but likely minimal reduction in revenue.
