Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The bill promotes the integration of fusion technology within state clean energy policies.

New Section 1 modifies the requirements for the state energy strategy to include consideration of nuclear fusion.

Section 2 requires the interagency siting council, which the Department of Commerce (department) co-chairs, to develop a recommendation on whether to carry out a non-project environmental impact statement on fusion energy projects.

Section 3 designates fusion energy facilities, including facilities that manufacture components, as projects of statewide significance.

There is no fiscal impact to the department. The bill does not modify the work required to produce the state energy strategy; there is no material impact to produce the memorandum that will be developed at a regularly scheduled meeting of the council; and review and determination by the department does not apply when the legislature designates a project by statute as this bill does. [RCW 43.157.030(2)]

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

There is no fiscal impact to the department. The bill does not modify the work required to produce the state energy strategy; there is no material impact to produce the memorandum that will be developed at a regularly scheduled meeting of the council; and review and determination by the department does not apply when the legislature designates a project by statute as this bill does.
