Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill exempts voluntary renewable power purchases from the definition of a utility's load. The definition of "load" is an electric industry term that means the amount of electricity delivered to end use customers. Utilities will not be required to retire additional renewable energy credits for the exempted load from compliance purposes. Existing law prohibits utilities from counting voluntary renewable energy programs toward Energy Independence Act (EIA) compliance.

The Department of Commerce (department) does not execute or implement the activities stated in this bill. Therefore this legislation does not affect the department and there is no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

There is no fiscal impact to the department. The department does not execute or implement the activities stated in this bill. This bill makes definitional changes to existing law and would have no administrative impact on state agencies.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Sec. 1 expands on the definition for “Load” to say what it does not include and adds the definition of “Voluntary renewable energy purchase.”

Sec. 2 excludes voluntary renewable energy purchases from a qualifying utility’s annual targets.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None at this time.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

This would not fiscally impact the existing analysis and review of filings already performed by the commission.
