Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1: A new section provides definitions for the HB 1892.

Section 2 : A new section creates a program for the Department of Commerce to provide loans to finance housing for low-income households. The Department of Commerce is mandated to contract with the Washington State Housing Finance Commission to administer the program. This section will require the Commerce to provide pass-through funding to the Housing and Finance Commission. Commerce will be responsible for generating the contract, maintaining the Evergreen Sustainable Design Standards and monitoring performance of the contract. Commerce assumes an impact of 1/30 FTE time plus support costs, actual costs may be adjusted to reflect workload after program planning is completed. Although commerce is confident this workload can be handled within current resources, there may be impacts to the department based on how this program is administered by the contracted commission.

Section 3: A new section lays out eligibility requirements for the Washington State Housing Finance Commission to administer the program.

Section 3(10)(c): Requires the Washington State Housing Finance Commission to establish annual reporting for loan recipients.

Section 4: A new section creates a new chapter under RCW 43.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

This bill would result in a pass-through funding contract that will not have a significant impact on Commerce's workload. The responsibilities to draft and monitor the contract will be sufficiently handled by withholding the allowable administrative rate from any capital appropriations. Commerce assumes 1/30 of FTE time will be needed to monitor each contract assigned, this will cost the agency less than \$5,000 per contract.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

No Fiscal Impact: Because the Commission is a non-appropriated, non-allocated agency, all the costs associated with the contemplated legislation connected to the Commission will flow through the Commission's operating funds, therefore the Commission believes it has no fiscal impact on the state's budget.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
