## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill will have no fiscal impact. The Legislature already participates in shared services, where it makes sense. For the requirement to submit information to the director on proposed information expenditures, we currently prepare documents to present to Legislative Stakeholders. We would share those same documents to meet the needs of this bill.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part III: Expenditure Detail

### III. A - Operating Budget Expenditures

NONE

### III. B - Expenditures by Object Or Purpose

NONE

**III. C - Operating FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

### III. D - Expenditures By Program (optional)

NONE

## Part IV: Capital Budget Impact

### IV. A - Capital Budget Expenditures

NONE

### IV. B - Expenditures by Object Or Purpose

NONE

### IV. C - Capital Budget Breakout

*Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.*

NONE

**IV. D - Capital FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

**Part V: New Rule Making Required**

*Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.*

OFM Review: Val Terre	Phone: (360) 280-3973	Date: 01/08/2024

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1 renames the Consolidated Technology Services to Washington Technology Solutions. OFM will need to update enterprise systems to incorporate the name change for the agency. This will create approximately 60 hours of effort, which can be absorbed and prioritized within existing work. Therefore, this section has no fiscal impact to OFM.

Section 6 (3) gives Washington Technology Solutions authority to require annual certification to its policies and standards. OFM has been voluntarily performing this annual certification already, so the requirement creates no additional impact to OFM.

Section 9 (1) (b) requires OFM to direct that at the suspension or termination of any major project, funds shall be placed in unallotted reserved status. This requirement is aligned with current practices, and therefore has no fiscal impact to OFM.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part III: Expenditure Detail

### III. A - Operating Budget Expenditures

NONE

### III. B - Expenditures by Object Or Purpose

NONE

**III. C - Operating FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

The bill eliminates the Office of the Chief Information Officer (OCIO), changes the agency name from Consolidated Technology Services to Washington Technology Solutions (WaTech), and clarifies the roles and responsibilities of the agency.

Bill Summary:

Sec. 1. Specifies the agency shall also establish clear policies and standards for efficient and acceptable use of technology in state government, providing guidance and leadership to state agencies in deploying technology to meet their business objectives.

Sec. 3. Revises the definition of “agency” to mean “Washington technology solutions” rather than “consolidated technology services agency.” Removes the definition of “office.”

Sec. 4. Reorganizes statutory duties of the OCIO director as duties of the agency director.

Sec. 5. Reorganizes statutory duties of the OCIO as duties of the agency.

Sec. 6. Adds a new requirement for each agency to annually certify compliance with policies and standards.

Sec. 9. Clarifies that projects may be suspended or terminated for failing to meet anticipated performance outcomes (current law), OR the standards/policies established by WaTech (new law). Clarifies the roles of OFM and WaTech related to project funding and allocations.

Sec. 20. Moves the Statewide Interoperability Executive Committee (SIEC) to the Military Department.

Sec. 61. Repeals RCW 43.105.205, which establishes the OCIO.

Sec. 62. Recodifies those duties of administering the SIEC as a responsibility of the Military Department.

Throughout sections:

- Changes references from “consolidated technology services” or “consolidated technology services agency” to “Washington technology solutions.”
- Changes references from “office” to “agency.”

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

This bill has no impact on WaTech’s revenues or cash receipts.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The bill eliminates the Office of the Chief Information Officer, changes the agency name from Consolidated Technology

Services to Washington Technology Solutions, and clarifies the roles and responsibilities of the agency.

There is no fiscal impact to WaTech as a result of this bill. WaTech will need to amend the contracts to change the agency's name from Consolidated Technology Services to Washington Technology Solutions. However, it is assumed that WaTech can absorb the costs for this proposed bill in its base budget if the workload of other enacted legislation does not exceed current staffing levels.

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

HB1947 is aimed at clarifying statutes in current law and reorganizing the structure of Consolidated Technology Services. The bill renames “Consolidated Technology Services” to “Washington Technology Solutions” and clarifies the role and activities of Washington Technology Solutions.

Section 5 includes mentions of institutions for higher education and was assessed for potential impacts to the University of Washington. Based on our assessment, this language recodifies existing law, and thus, we find no fiscal impact to the University of Washington.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1 of this bill establishes that the state's centralized technology agency will be known as "Washington Technology Solutions." This agency will establish clear policies and standards for efficient use technology in state government.

Section 5 (k) (2) of this bill states that in the case of institutions of higher education, the power of the agency extends only to business and administrative applications. They do not apply to: academic and research applications, medical, clinical and health care applications. Institutions of higher education must disclose any proposed academic applications that are enterprise-wide.

HB 1947 Technology Governance would not fiscally impact Washington State University.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

OFM Review: Ramona Nabors	Phone: (360) 742-8948	Date: 01/09/2024

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

HB 1947 concerns the governance of technology services in state government, including eliminating the Office of the Chief Information Officer and renaming the Consolidated Technology Services agency to Washington Technology Solutions. Sections with amendments applicable to higher education are as follows:

- Section 5 amends RCW 43.105.052, specifying that the powers of the agency and provisions of the chapter apply to business and administrative applications of higher education institutions, but do not apply to Academic and research applications as well as medical, clinical and health care applications. Institutions of higher education must disclose to the agency any proposed enterprise-wide academic applications relative to the needs and interests of other institutions of higher education to permit the director to evaluate the proposed expenditures pursuant to RCW 43.88.092(3).

EWU does not utilize or plan to create any multi-institutional systems aside from SBCTS, therefore EWU anticipated no fiscal impact as a result of this bill.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

In sections 1-4 and 6-62 "Consolidated Technology Services" is replaced with "Washington Technology Solutions " and is referred throughout the bill as "the agency".

Section 5 (2) applies to Institutions of Higher Education as summarized below:

Section 5: Amending RCW 43.105.052 and 2015 3rd sp.s. c 1 s 104 as follows: (2) Powers of the agency and the provisions of this chapter apply to business and administrative applications but don't apply to: (a) Academic and research applications; and (b) medical, clinical, and health care applications, including the business and administrative applications for such operations. Institutions must disclose to the agency any proposed academic applications that are enterprise-wide in relation to the needs and interests of other institutions. Will also need to provide the director with sufficient data and information on proposed business and administrative application expenditures to allow the director to evaluate them pursuant to RCW 43.88.092(3).

CWU does not estimate any fiscal impact based on the language of this bill.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

HB 1947 would eliminate the Office of the Chief Information Officer and rename the consolidated technology services agency to "Washington Technology Solutions."

HB 1947 creates no new requirements for higher education, so there is no fiscal impact on the college.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1: Changes the agency responsible for technology governance from “consolidated technology services” (CTS) to “Washington technology solutions” (WTS) and gives authority to set policy and standards for efficient and acceptable use of technology in WA state government. WTS replaces the prior agency name (CTS) throughout subsequent sections.

Section 5(2): For higher education, the agency powers and provisions of this chapter apply to business and administrative applications but not to academic and research applications. However, institutions of higher education must disclose to the agency any proposed academic applications that are enterprise-wide relative to the needs of other institutions.

Institutions of higher education shall provide sufficient data on proposed expenditures on business and administrative applications for evaluation pursuant to RCW 43.88.092(s).

Section 6: Each state agency must annually certify to the agency that it complies the policies and standards developed under this chapter.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. ## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill would eliminate the Office of the Chief Information Officer and rename the Consolidated Technology Services agency to Washington Technology Solutions.

The bill would also specify that, for Institutions of Higher Education, the powers of the agency apply only to business and administrative applications.

#### SECTION 5(2)

In the case of institutions of higher education, the powers of the agency and the provisions of this chapter apply to business and administrative applications but do not apply to: (a) Academic and research applications; and (b) medical, clinical, and health care applications, including the business and administrative applications for such operations. However, institutions of higher education must disclose to the agency any proposed academic applications that are enterprise-wide in nature relative to the needs and interests of other institutions of higher education. Institutions of higher education shall provide to the director sufficient data and information on proposed expenditures on business and administrative applications to permit the director to evaluate the proposed expenditures pursuant to RCW 43.88.092(3).

#### SECTION 6(3)

Each state agency must annually certify to the agency that it is in compliance with the policies and standards developed under this chapter.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

No cash receipts impact.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

No expenditure impact.

Section 5(2) specifies that, for Institutions of Higher Education, the powers of the agency apply only to business and administrative applications.

Section 6(2) states that each state agency must annually certify to the agency that it is in compliance with the policies and standards developed under this chapter.

The language in sections 5(2) and 6(3) clarifies the scope of powers for Washington Technology Solutions. This clarification aligns with current business practices and would not result in an expenditure impact.

## Part III: Expenditure Detail

### III. A - Operating Budget Expenditures

NONE
