Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This resolution amends Article VII, section 2 and Article VIII, section 6 of the Constitution reducing the voter approval from 60% to 55% for school districts to issue general obligation bonds, incur indebtedness beyond certain limitations, and pass school district bond levies to pay such bonds.

This proposed constitutional amendment requires voter approval at the November 2024 general election.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This resolution grants the Legislature the authority to reduce the voter approval from 60% to 55% to pass a school district bond levy. By itself, this resolution has no revenue impact.

An implementing bill's fiscal note will include any impacts.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Department of Revenue will not incur any costs with the implementation of this legislation.
