Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill creates the LeMay-America's Car Museum special license plate. It provides funds to promote, encourage, and inspire students and the community to understand the role of automobiles in our culture and economy through education, interpretive programs, and job training. The effective date is October 1, 2023.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Please see attached fiscal note.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Please see attached fiscal note.

Part 2 – Explanation

This bill creates the LeMay-America's Car Museum special license plate. It provides funds to promote, encourage, and inspire students and the community to understand the role of automobiles in our culture and economy through education, interpretive programs, and job training. The effective date is October 1, 2023.

2.A – Brief Description Of What The Measure Does That Has Fiscal Impact

The Department of Licensing makes the following assumptions regarding this bill.

Standard special plate definition/criteria:

- Anyone can buy the specialty plate for use on a vehicle registered to that person.
- Specialty plates can be used on motor vehicles, trailers and motorcycles.
- All customers pay the same specialty plate fee.
- The special plate and vehicle expirations match.
- Specialty plate license fees, minus DOL's portion, go to a single account.
- Specialty plates are renewed annually with the vehicle.
- Specialty plates are transferable.

2.B - Cash receipts Impact

This bill creates a special license plate and establishes fees of \$40 for an original, \$30 for a renewed plate and establishes the distribution of those fees.

If this bill becomes law, it will allow vehicle owners the option to choose a new type of specialty license plate for their vehicle in lieu of the standard issue plate. There is no information available, and it is not known how many of these new specialty plates might be purchased. The total revenue impact is indeterminate.

However, based on historical purchase data of all special plates, the following revenue estimates below could occur:

Original Plates:

FY 25 – 1,198

FY 26 - 670

FY 27 – 651

FY 28 - 481

FY 29 - 326

Renewal Plates:

FY 26 – 1,032

FY 27 - 1,461

FY 28 - 1,797

FY 29 - 1,973

2.C – Expenditures

RCW 46.18.140 requires special license plate sponsoring organizations to either pay all start-up costs to DOL for deposit to the motor vehicle fund before creating a special license plate series or that DOL may keep all special license plate revenue until such time that DOL’s startup costs are fully reimbursed.

Program Costs:

DOL requires a Licensing Services Representative 1 to process plate application requests. It takes approximately 7.5 minutes per plate application to process. Based on estimated plate demand and associated workload factors will require .1 FTE in the first fiscal year and .06 FTE on-going.

DOL requires a Licensing Services Representative 3 to review and approve plate applications and to provide general supervision of staff. Based on estimated plate demand and associated workload factors will require .03 in the first fiscal year .01 FTE on-going.

Information Services:

The vehicle licensing component of DRIVES modernization was successfully implemented in December 2016. Completed IT system improvements will reduce DOL’s workload related to implementing standard special (non-complex) license plates. DOL has determined that up to five standard special plates can be implemented per legislative session without additional IT costs. However, if DOL is required to implement six or more standard special plates, staff capacity is not sufficient, and it would be necessary to contract required IT system changes out to a vendor at the cost of \$25,200 per special plate.

Support Services:

Agency Administrative Overhead is included at a rate of 23.4 percent of the direct program costs. This funding received covers agency-wide functions such as vendor payments, contract administration, financial management, mail processing, equipment management, help desk support, and technical assistance to DOL employees.
