## **Part 2 – Explanation**

Creates a “Mount St. Helens” special license plate to Promote education, stewardship, and science at Mount St. Helens through the Mount St. Helens institute.

### **2.A – Brief Description Of What The Measure Does That Has Fiscal Impact**

Section 1: Amends RCW 46.18.200 to add a Mount St. Helens specialized plate, displaying an image of Mount St. Helens.

Section 2: Amends RCW 46.17.220 by establishing a \$40 initial and \$30 renewal fee for the Mount St. Helens specialized license plate.

Section 3: Amends RCW 46.68.420 Promote education, stewardship, and science at Mount St. Helens through the Mount St. Helens institute.

Sec 4. Creates a new section to Chapter 46.04 RCW to define “Mount St. Helens license plate”.

Sec. 5. Establishes an effective date of November 1, 2023.

### **2.B - Cash receipts Impact**

This bill creates a special license plate and establishes fees of \$40 for an original, \$30 for a renewed plate and establishes the distribution of those fees.

If this bill becomes law, it will allow vehicle owners the option to choose a new type of specialty license plate for their vehicle in lieu of the standard issue plate. There is no information available, and it is not known how many of these new specialty plates might be purchased. The total revenue impact is indeterminate.

However, based on historical purchase data of all special plates, the following revenue estimates below could occur:

#### Original Plates:

FY 25 – 1,198

FY 26 - 670

FY 27 – 651

FY 28 - 481

FY 29 – 326

#### Renewal Plates:

FY 26 – 1,032

FY 27 - 1,461

FY 28 - 1,797

FY 29 - 1,973

## 2.C – Expenditures

RCW 46.18.140 requires special license plate sponsoring organizations to either pay all start-up costs to DOL for deposit to the motor vehicle fund before creating a special license plate series or that DOL may keep all special license plate revenue until such time that DOL’s startup costs are fully reimbursed.

DOL requires a Licensing Service Representative 1 to process plate application requests. It takes approximately 7.5 minutes per plate application to process. Based on estimated plate demand and associated workload factors will require .1 FTE in the first year and .06 FTE on-going.

DOL requires a Licensing Services Specialist 3 to review and approve plate applications and to provide general supervision of staff. Based on estimated plate demand and associated workload factors will require .03 FTE in the first fiscal year .01 FTE on-going.

### Information Services:

The vehicle licensing component of DRIVES modernization was successfully implemented in December 2016. Completed IT system improvements will reduce DOL’s workload related to implementing standard special (non-complex) license plates. DOL has determined that up to five standard special plates can be implemented per legislative session without additional IT costs. However, if DOL is required to implement six or more standard special plates, staff capacity is not sufficient, and it would be necessary to contract required IT system changes out to a vendor at the cost of \$25,200 per special plate.

### Support Services:

Agency Administrative Overhead is included at a rate of 23.4 percent of the direct program costs. This funding received covers agency-wide functions such as vendor payments, contract administration, financial management, mail processing, equipment management, help desk support, and technical assistance to DOL employees.
