Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(2)(c) requires all insurance companies to minimize the use of directly reported social security numbers, being provided to determine whether a claimant owes a debt being enforced by the Division of Child Support, unless the claimant cannot be identified using the claimant's full name, current physical address, and date of birth.

This bill will not change how the Office of the Insurance Commissioner does business. Therefore, no fiscal impact.

Distinguished between one time and ongoing functions.

II. C - Expenditures

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill relates to restricting the use of social security numbers by insurance companies for the purpose of determining child support debt.

Section 1(2) amends RCW 26.23.037 to require the Division of Child Support (DCS) to minimize the use of directly reported social security numbers unless the claimant cannot be identified using the claimant's full name, current physical address, and date of birth.

As insurance companies are not currently required to provide social security numbers to DCS, this bill does not impact DCS processes or workloads, therefore there is no fiscal impact to the Department of Social and Health Services (DSHS).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates.
