CURRENT LAW:

Detecting and preventing the illegal inversion and diversion of cannabis and cannabis products into and out of Washington's Regulated Cannabis System (System) is not in the law.

PROPOSAL:

This bill adds to the Uniform Controlled Substances Act (Act).

The addition provides that the Liquor and Cannabis Board (LCB) will audit the data in the cannabis central reporting system to identify outliers or anomalies in data for inconsistencies in reporting, for purposes of identifying locations where either or both of the following activities are occurring in violation of the Act:

- Inversion of cannabis or cannabis products into the System involving a person licensed as a cannabis producer, processor, or retailer, purchasing or obtaining cannabis or cannabis products from an unauthorized person or source.
- Diversion of cannabis or cannabis products out of the System involving a person licensed as a cannabis producer, processor, or retailer, selling or transferring cannabis or cannabis products to an unauthorized person or recipient.

The bill also allows LCB to consider the following:

- The status of a business license issued by the Department of Revenue (department) and whether it is active and valid or has been suspended, revoked, canceled, or otherwise not been active and valid during any applicable time.
- Filings and reports related to taxes or business activity submitted to the Department of Revenue (department).

The Cannabis Central Reporting System" is the system used by LCB for reporting events or information submitted by or on behalf of cannabis licensees and certified laboratories to LCB, as required by LCB.
