Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 6099 creates the tribal opioid prevention and treatment account and allows the account to retain its earnings from investments.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Under section 2, beginning July 1, 2025, annually the state treasurer is responsible for transferring into the tribal opioid prevention and treatment account from the opioid abatement settlement account an amount equal to the greater of \$7,750,000 or 20 percent of the settlement receipts and moneys deposited into the opioid abatement settlement account over the prior fiscal year.

Assumption: \$7,750,000 will be transferred annually; estimates are included in this fiscal note.

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
