Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The measure adds a new subparagraph to RCW 80.50.060 (Energy facilities to which chapter applies.) requiring applicants seeking energy facility site certification for an energy facility generating electricity using renewable resources to provide evidence of an adequate water supply for the project, including ongoing operation, management, and maintenance of the facility.

The measure would codify into statute the standard policy and processes that EFSEC currently requires - namely, evidence of an adequate water supply for construction and ongoing operation of the facility.

EFSEC does not foresee any fiscal impact from this measure.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
