Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill changes provisions that affect studies conducted by the Joint Legislative Audit and Review Committee.

Section 1 extends the expiration date on the statutes defining the sunset review process from June 30, 2025, to June 30, 2035.

Section 2 removes a provision that precludes a JLARC study of the Department of Natural Resources’ sustainable harvest calculation if there is pending or active litigation against the calculation.

Section 3 adds a factor that the committee may consider when developing its biennial workplan. Specifically, it may consider whether a planned review that is part of a mandated, recurring study would provide the legislature with new or additional information.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

There is no fiscal impact. The bill continues work that the agency performs with existing resources.
