Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(2): Before wine may be shipped by a retailer authorized to sell wine at retail in this state or any other state, the retailer must:

- (a) Be licensed to sell wine at retail in this state; or
- (b) If not licensed by this state, obtain a wine retailer shipper's permit under procedures prescribed by the board by rule and pay an annual fee of \$100 to the board.

Section 2(1): An applicant for a wine shipper's permit must provide, on an annual basis to the Board, a copy of its valid license to sell wine at retail by their state from which they operate, and register with the Washington State Department of Revenue.

Section 2(2): Holders of a wine retailer shipper's permit and retailers licensed to sell wine at retail in this state must:

- a) pay Washington state wine tax on all sales of wine to Washington state residents;
- d) Label the outside of all shipping boxes of wine shipped under the permit as follows, "CONTAINS ALCOHOL: SIGNATURE OF PERSON AGE 21 OR OLDER REQUIRED FOR DELIVERY";
- e) Annually report to the board the total amount of wine shipped in Washington under its permit during the preceding calendar year;
 - f) Allow the board to audit the permit holder's shipping records;
- h) Upon delivery of a wine shipment authorized under this section, require an in-person signature from a person with valid identification showing the person is 21 years of age or older

Section 3) The Board may adopt rules to implement this section.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Section 1(2): Before wine may be shipped by a retailer authorized to sell wine at retail in this state or any other state, the retailer must:

- (a) Be licensed to sell wine at retail in this state; or
- (b) If not licensed by this state, obtain a wine retailer shipper's permit under procedures prescribed by the board by rule and pay an annual fee of \$100 to the board.

The agency estimates 400 new applications for a wine retailer shipper's permit in FY25, 100 additional applications in FY26, and 30 new applications each year thereafter.

FY25: 400 x \$100 = \$40,000 FY26: 500 x \$100 = \$50,000 FY27: 530 x \$100 = \$53,000 FY28: 560 x \$100 = \$56,000 FY29: 590 x \$100 = \$59,000

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Before wine may be shipped by a retailer authorized to sell wine at retail in this state or any other state, the retailer must be

licensed to sell wine at retail in this state; or if not licensed by this state, obtain a wine retailer shipper's permit under procedures prescribed by the board by rule and pay an annual fee of \$100 to the board.

The agency estimates 400 new applications for a wine retailer shipper's permit in FY25, 100 additional applications in FY26, and 30 new applications each year thereafter.

FINANCE DIVISION:

As written, there is no fiscal impact to the audit staff, assuming that only shipping records would be audited. In regards to section (2)(f) 'Allow the board to audit the permit holder's shipping records' - any audit conducted to substantiate gallons sold and subsequently taxed as outlined in RCW 66.24.210 would require additional documentation, including but not limited to detailed sales records. In the case that audits would be expected, the law would need to expand on what records are required to be made available. Based on the projected number of licenses expected, it would require .5 FTE at an annual cost of \$50,597 for Audit staff ongoing.

LICENSING DIVISION:

Additional one-time staff will be needed in FY25 to handle the onetime surge in workload. After FY25, the increase in applications can be absorbed within existing staffing levels.

0.2 FTE Licensing Specialist - \$15,874 (\$15,660 salary/benefits, \$214 in associated costs).
