## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

#### Section 1 – New

Current safety net application processes are burdensome and may discourage school districts from applying for funding. School districts report that the application process requires individualized education programs (IEP) to be analyzed beyond what is necessary to confirm demonstration of need, and that safety net awards are reduced up to 45 percent for errors. The legislature intends to clarify the responsibilities of the safety net oversight committee and to simplify the application process to reduce administrative barriers and increase funding availability.

#### Section 2; Amends RCW 28A.150.392 and 2023 c 417 s 4

(2)(a) This section adds new criteria for the Safety Net Committee to use when evaluating awards. When determining award eligibility and amounts, the committee shall limit its review to relevant documentation that illustrates adherence to award criteria. The committee shall not make determinations regarding the content of Individualized Education Programs (IEP) beyond confirming documented and quantified services and evidence of corresponding expenditures for which a district seeks reimbursement.

(2)(j) Language is added that Safety Net awards must be adjusted for an unresolved audit findings or exceptions. They may only be adjusted for errors in the Safety Net applications or IEPs that materially affect the demonstration of need.

(4)(b) This subsection is added requiring, by December 1, 2024, OSPI must develop a survey requesting feedback on the Safety Net application process from districts with 3,000 or fewer students. At minimum, the survey must include questions regarding the average amount of time district staff spend gathering Safety Net application data, filling out application forms, and correcting application deficiencies. It must also include questions to help identify which application components are the most challenging and time consuming for districts to complete. By December 1, 2025, OSPI must use this feedback to implement a simplified, standardized Safety Net application for all districts that reduces barriers to funding.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

No impact to cash receipts.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

#### Section 2; Amends RCW 28A.150.392 and 2023 c 417 s 4

This section provides new criteria the Safety Net Committee must use when reviewing and approving Safety Net awards. The committee must adjust awards for any unresolved audit findings or exceptions as well as errors in the applications or IEPs that affect the demonstrated need. OSPI believes the new criteria will result in additional approved funding for Safety Net awards. To estimate this increase, OSPI used the new parameters to reevaluate the 2022-23 applications. OSPI estimates an additional \$579,000 would have been approved to districts. OSPI assumes the projected increase would be ongoing.

(4)(b) This subsection is added requiring, by December 1, 2024, OSPI must develop a survey requesting feedback on the Safety Net application process from districts with 3,000 or fewer students. At minimum, the survey must include questions regarding the average amount of time district staff spend gathering Safety Net application data, filling out application forms, and correcting application deficiencies. It must also include questions to help identify which application components are the

most challenging and time consuming for districts to complete. By December 1, 2025, OSPI must use this feedback to implement a simplified, standardized Safety Net application for all districts that reduces barriers to funding.

OSPI estimates it will require 30 hours of staff time to complete the survey, evaluate the feedback and make modifications to the Safety Net application. The cost of this is \$2,000 in FY25.
