Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

No fiscal impact. The work required does not have significant impact on current operations.

Section 2 directs the Department to engage on a government-to-government basis with the confederated tribes of the Colville reservation for the purpose of seeking to update the 1998 cooperative fish and wildlife management agreement.

The existing management agreement results in annual coordination meetings and indicates a 5-year renewal period. Engaging in a full update may be out of cycle but is not an unusual lift for the department. This bill requires the Department to discuss amendments to the agreement to align the Department's approach to wolf management on the north half with the approach to wolf management taken by the confederated tribes of the Colville reservation within the boundaries of the Colville reservation. While full alignment is not likely achievable due to differing authorities and management objectives, coordination of management and alignment where feasible can be considered in an update to the agreement.

Section 2(2) directs the Department to report to Legislature by June 30, 2025.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
