Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

An act relating to modifying the community parenting alternative for eligible participants in the residential parenting program at the Department of Corrections (DOC); and amending RCW 9.94A.6551.

Section 1(1)(b) amends RCW 9.94A.6551 to state that incarcerated individuals not sentenced under RCW 9.94A.665, but otherwise eligible under this section who are participating in the residential parenting program, no more than the final 18 months of the incarcerated individual's term of confinement may be served in partial confinement as home detention as part of the parenting program.

Section 1(9)(c) adds new language defining "Residential parenting program" as a correctional nursery program administered by the department that allows pregnant, minimum security incarcerated individuals that meet eligibility criteria established by the department to keep their newborn children with them after giving birth in a designated unit and receive support and education in alliance with skilled early childhood educators.

Effective date is assumed 90 days after adjournment of the session in which this bill is passed.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

We assume this bill will have an indeterminate fiscal impact to Department of Corrections (DOC) less than \$50,000 per Fiscal Year (FY).

Customization of the Offender Management Network Information (OMNI) system is needed to meet the requirements of this legislation. Due to the complexity of completing the development, testing, and implementation of the statutory changes, contracted services are necessary in FY2024.

To implement this legislation, OMNI data tables need to be updated to RCW 9.94A.525 for technical corrections.

Cost Calculation Estimate:

IT Application Developer| \$120 per hour 20 hours = \$2,400

IT Quality Assurance| \$120 per hour 8 hours = \$960

IT Business Analyst| \$120 per hour 20 hours = \$2,400

Total One-Time Costs in FY2024 \$5,760

The proposed bill language expands participation to allow incarcerated individuals not sentenced under RCW 9.94A.655 but are eligible for the residential parenting program, may serve partial confinement as home detention for no more than 12 to 18 months of their final term of confinement. This bill would potentially increase caseloads, albeit a minor increase, as the length of stay in the program would be extended by up to 6 months. The DOC assumes this bill would likely result in an Average Daily Population (ADP) increase, although the impact cannot be reliably estimated.

Therefore, there is a determinate cost of \$5,760 for OMNI Updates. Changes in caseload needs may result in an indeterminate fiscal impact, assumed to be less than \$50,000 per FY.
