Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

CURRENT LAW:

Counties and cities may impose a 0.5% sales and use taxes for general purposes. Counties must impose the full 0.5% rate; however, cities can levy a rate of up to 0.5%. If the county in which the city resides imposes the tax, the city's rate cannot exceed 0.425%.

Counties and cities may also impose an additional 0.5% sales and use taxes for general purposes. Distributions of the additional taxes to Counties and cities depend on who imposes the tax and whose tax rate is greater.

By agreement, the Department of Revenue (department) administers these taxes for the counties and cities and retains a 1% administration fee for the state as set in a contract.

The city's sales and use taxes rates may be altered as provided in certain government service agreements.

The percentage of a city's sales and use taxes a county receives may be altered by government services agreements.

PROPOSAL:

This bill allows cities to enter into agreements with each other to share a portion of general-purpose sales and use taxes.

The agreement must describe all of the following:

- When the cities will share revenue collection in certain areas. The areas must be specified.
- The amount or portion of sales and use taxes the cities will share.
- The precise mechanism or method used to share the revenues.

EFFECTIVE DATE:

The bill takes effect 90 days after the final adjournment of the session.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This legislation results in no revenue impact on taxes administered by the department.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

-The interlocal revenue sharing will be calculated independently of current tribal revenue sharing and local tax distributions. If the department must adjust tribal sharing or local distribution amounts because of this legislation, our associated costs will be much higher and will require additional system enhancements and implementation time.

FIRST YEAR COSTS:

The department will incur total costs of \$10,900 in fiscal year 2024. These costs include:

Labor Costs – Time and effort equate to 0.09 FTE.

- Create a Special Notice and update information on the department’s website.

SECOND YEAR COSTS:

The department will not incur total costs in fiscal year 2025.

ONGOING COSTS:

There are no ongoing costs.
