Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 – New Section. Findings and intent section.

Section 2 – New Section. Definitions.

Section 3 – New Section. Requires any person selling or installing residential or commercial solar energy systems with a total cost of \$1,000 (labor and materials) to be licensed under RCW 19.28.041 and have a solar energy installation contract with the customer. Provides further requirement for the contents of the solar energy installation contract, including specific provisions. Allows a rescission period and proscribes when payments may be charged. Gives consumers a cause of action for damages sustained if a solar energy contractor, subcontractor, or salesperson fails to comply with this chapter.

Section 4 – New Section. Prohibits deceptive solicitation of solar energy system costs, financing, terms, or conditions of purchase.

Section 5 – New Section. Finding that the practices covered by this chapter impact the public interest for purposes of the consumer protection act in chapter 19.86 RCW. Finds that violations of this chapter are unfair or deceptive acts in trade of commerce and an unfair method of competition for purposes of the consumer protection act.

Section 6 – New Section. Requires any person selling or installing residential or commercial solar energy systems with a total cost of \$1,000 (labor and materials) to be licensed under RCW 19.28.041 and enter into a contract pursuant to Section 3 of this act.

Section 7 – New Section. Sections 1 through 5 constitute a new chapter in Title 19 RCW.

1) The AGO Labor and Industries Division (LNI) has reviewed this bill and determined it will not significantly increase or decrease the division's workload in representing the Department of Labor & Industries (L&I).

The enactment of this bill will not impact the provision of legal services to L&I because while the bill does modify some provisions of RCW 19.28, the AGO reads the language as putting primary enforcement responsibilities on entities outside of L&I. Absent enforcement responsibilities, L&I may need some incidental legal services to adapt any statutory changes but new legal services are nominal and costs are not included in this request.

2) The AGO Administrative Division (ADM) has reviewed this bill and determined it will not significantly increase or decrease the division's workload. New legal services are nominal and costs are not included in this request.

3) The AGO Consumer Protection Division (CPR) has reviewed this bill and determined it will not significantly increase or decrease the division's workload. New legal services are nominal and costs are not included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The proposed bill establishes rules of business practice for solar energy contractors and solar energy salespersons. It adds a new section to Chapter 80.60 RCW (Net Metering of Electricity) and a new chapter to Title 19 RCW (Business Regulations – Miscellaneous).

Section 3(1) states that any person selling or installing residential or commercial systems producing electricity with solar energy for a total cost including labor and materials in excess of \$1,000 must be licensed under RCW 19.28.041. This section does not apply to any person installing residential or commercial solar energy systems on the person's own property who is properly exempted under RCW 19.28.261.

Section 6 states that any person selling or installing residential or commercial systems producing electricity with solar energy for a total cost including labor and materials in excess of \$1,000 must be licensed under RCW 19.28.041.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Indeterminate. This bill could result in an increase in the number of electrical contractor licenses, but the Department of Labor & Industries (L&I) has no way to estimate how many additional people would pursue that license.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

L&I does not anticipate needing additional resources with the potential increase in the number of electrical contractor licenses. No expenditure impacts for L&I.

Part III: Expenditure Detail
