Total \$	0	0	0	146,000	146,000

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached narrative.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

See attached narrative.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

See attached narrative.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29
001-1	General Fund	State	0	0	0	76,000	76,000
001-2	General Fund	Federal	0	0	0	70,000	70,000
Total \$			0	0	0	146,000	146,000

III. B - Expenditures by Object Or Purpose

	FY 2024	FY 2025	2023-25	2025-27	2027-29

HCA Fiscal Note

Bill Number: **SSB 5815**

HCA Request #: 24-089

Title: **Physician Assistant Compact**

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill supports Physician Assistants (PA) participation in a national compact by adding a new chapter to RCW 18, Businesses and Professions.

As compared to the previous version of this bill an additional section has been added. Section 15 addresses information in documents distributed or created by the Washington Medical Commission and disclosure requirements.

Section 3 requires that a participating state shall grant compact privileges to a holder of a qualifying license in a participating state.

II. B - Cash Receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

The Washington State Health Care Authority (HCA) anticipates that this work will be eligible for Medicaid Administrative cost sharing. For this estimate a federal rate of 47 percent was used.

ACCOUNT	REV SOURCE	FY-2024	FY-2025	FY-2026	FY-2027	FY-2028	FY-2029	2023-25	2025-27	2027-29
General Fund-Medicaid 001-C	0393	-	-	35,000	35,000	35,000	35,000	-	70,000	70,000
REVENUE - TOTAL \$		\$ -	\$ -	\$ 35,000	\$ 35,000	\$ 35,000	\$ 35,000	\$ -	\$ 70,000	\$ 70,000

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

HCA requests \$73,000 (\$35,000 GFS) per year starting in fiscal year 2026 and each year thereafter.

Administrative impacts:

HCA anticipates that additional staff effort will be needed to enroll PAs from compact states that choose to provide services in Washington into the ProviderOne system as a servicing provider. Based on the website for PA Licensure Compact, the licensure compact can take up to 24 months after activation. For this analysis, HCA is assuming an effective date of July 1, 2025.

HCA Fiscal Note

Bill Number: **SSB 5815**

HCA Request #: 24-089

Title: **Physician Assistant Compact**

Goods and services, travel, and equipment are calculated on actual program averages per FTE. Administrative costs are calculated at \$35,000 per 1.0 FTE. This cost is included in Object T and is based on HCA's federally approved cost allocation plan.

HCA assumes the following will be the responsibility of the Washington State Department of Health:

- License participants
- Provide any required data for the commissions data system
- Receive and investigate complaints
- Notify commission of any adverse actions
- Charge fees if appropriate to grant compact privilege

HCA further assumes that any dues or fees levied by the Commission as authorized in Section 7 are not the responsibility of HCA and will be paid the state.

Apple Health Service-related Impacts:

No fiscal impact.

This bill adopts the PA Licensure Compact, which is an interstate occupational licensure compact for physician assistants. Under the Compact, a PA licensed in a Compact member state may obtain authorization to practice in another Compact member state. This could increase the number of PAs who are able to practice within Washington state. An increase in the number of practicing PAs is expected to increase access, which could result in an increase in services billed. However, per the definition of physician assistant outlined in RCW 18.71A.010, the scope of practice for PAs is limited by practice agreements with participating physicians who provide supervision. The number of physicians is not expected to change because of this Compact, and as a result, any increase in utilization is expected to be minimal and is not expected to result in a significant change to Apple Health service-related expenditures.

Public Employees Benefits Board (PEBB) and School Employees Benefits Board (SEBB) program Service-related Impacts:

No fiscal impact.

The Employee Retiree Benefits (ERB) program does not directly contract with providers for the self-insured Uniform Medical Plan (UMP) or fully insured health plans. Therefore, there are no assumed policy, operational or fiscal impacts to the PEBB or SEBB programs resulting from this legislation.

Health Benefits Exchange:

No fiscal impact.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The substitute version of the proposed legislation does not change our fiscal impact.

There is an indeterminate fiscal impact to the Washington State Patrol (WSP).

Section 3(1)(e) requires states that participate in the compact to fully implement a criminal background check requirement for license applicants.

New section 15 was added in the substitute version to exempt certain documents distributed to the Washington medical commission by the compact from disclosure.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

The cash receipts from the proposed legislation are indeterminate due to the effective date being contingent on the seventh state adopting the legislation.

Whenever the seventh state adopts the legislation and the bill goes into effect, the Department of Health (DOH) is estimating 69 new background checks in the first year, 104 in the second year and 138 annually thereafter.

Assuming electronic submissions, we will charge \$34.25 for background checks. \$11.25 of that fee is passed to the Federal Bureau of Investigation (FBI), while we retain \$23, leaving total revenue to the Fingerprint Identification Account at \$1,587 in the first year, \$2,392 in the second year, and \$3,174 annually thereafter.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The expenditures from the proposed legislation are indeterminate due to the effective date being contingent on the seventh state adopting the legislation.

Whenever the seventh state adopts the legislation and the bill goes into effect, the DOH is estimating 69 new background checks in the first year, 104 in the second year and 138 annually thereafter. The increased workload from these background checks will take 0.01 FTEs of a Fingerprint Technician 2 in the first year and 0.02 each year thereafter. Based on estimated FY25 pay ranges, the costs associated total \$1,282 in the first year and \$2,564 annually thereafter.

We base estimated salary expenditures on current levels for the positions requested per published salary schedules, plus any applicable incentive or assignment pay. We compute estimated benefits expenditures based on federal or state mandated rates plus state provided amounts for health insurance and workers' compensation insurance. We assume that any increases in these rates or amounts will be covered by legislation establishing the increase.

We base our estimate for agency indirect costs on the approved federal indirect cost rate of 33.41 percent. We apply this indirect cost rate percentage to all categories of expenditure with only two exceptions: capital equipment and expenditures after \$25,000 of each projected contract. Indirect costs include, but are not limited to, computer and telecommunications support, payroll processing, vendor payments, general accounting, procurement administration, inventory control, and human resource management.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

There is no fiscal impact to the Department of Social and Health Services (DSHS). This bill enacts the Physician Assistant Licensure Compact in Washington State which is an agreement between states facilitating the practice of Physician Assistants (PA) across state lines.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The fiscal impact has not changed from the previous bill SB5815. The substitute adds that information distributed to the Washington Medical Commission by the Interstate Physician Assistant Licensure compact is exempt from disclosure. This addition does not create additional work and therefore no change in fiscal impact.

This bill adds a new title to RCW Title 18 Businesses and Professions and Chapter 42.56 RCW (the public records act) which creates Interstate medical licensure compact for physician assistants.

Section 1: Provides the proposed purpose of the compact which is to strengthen access to medical services in participating states allowing for portability while safeguarding patients.

Section 2: Provides definitions for common terms.

Section 3: Outlines the responsibilities of participating state to license PAs, participate in data systems, investigations, adverse actions, implementation of a federal criminal background check, comply with the rules of the national commission, and utilize passage of a recognized national exam.

Section 4: Lists the licensee responsibilities, and obligations for reporting to obtain and retain compact license privileges.

Section 5: Licensees responsibility to declare a primary address which must be in a state participating in the compact and to which all correspondence will be mailed.

Section 6: Declares the participating state in which a licensee is licensed to be the exclusive power to impose adverse actions against a qualifying license as well as recover costs of investigations and dispositions.

Section 7: Establishes a joint government agency and national administrative body known as the Physician Assistant Licensure Compact Commission. The national commission will have one delegate from each participating state who will meet yearly to establish a code of ethics, establish fees, promulgate rules and perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with state regulation of physician assistant licensure and practice. The commission may collect an annual assessment from each participating state and may impose compact privilege fees on licensees of participating states to cover the cost of operations of the commission and its staff.

Section 8: The national commission shall provide for the development, maintenance, operation, and utilization of a coordinated data and reporting system containing licensure, adverse action, and the reporting of the existence of significant investigative information on all licensed physician assistants and applicants denied a license in a participating state.

Section 9: The national commission shall exercise rulemaking authority in order to effectively and efficiently implement and administer this compact within the scope of the purposes of the compact. If a majority of participating states rejects a commission rule it shall become null and void.

Section 10: Establishes the executive and judicial branches of state government as oversight authorities in all participating states. Determines the parameters for state participation, default in performance, termination of participation, compact privileges for licensees in default states, dispute resolution, enforcement, and legal actions.

Section 11: Date of implementation of the Physician Assistant Licensure Compact Commission shall come into effect on the date of which this compact statute is enacted into law in the seventh participating state.

Section 12: Creates the construction and severability of the compact.

Section 13: Establishes that nothing in the legislation prevents the enforcement of any other law of a participating state not inconsistent with the compact.

Section 14: Sections 1 through 13 of this act constitute a new chapter in Title 18 RCW.

Section 15: Adds a new chapter to 42.56 RCW to exempt information distributed to the Washington Medical Commission by the Interstate Physician Assistant Licensure Compact in Section 8 as exempt from disclosure by the compact. Such information may be requested from the state of origin.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Current law, RCW 43.70.250 (License fees for professions, occupations, and businesses) requires that a business-licensing program be self-supporting and sufficient revenue be collected through fees to fund expenditures. The commission does not anticipate the need to increase licensing fees to support the changes proposed in this bill. The commission will monitor the program fund balance and adjust fees over a six (6) year period to ensure that fees are sufficient to cover all program expenditures.

The commission assumes a fee of \$116 for applications and \$379 for renewals (2-year) which is consistent with the current physician assistant license fees.

Based on the commission's experience, the commission assumes a similar percentage of Physicians Assistants will opt for a compact license as was seen when the Physicians and Surgeons compact went into effect. The percentage was then applied to the current number of PA licensees to arrive at an estimate of potential compact applicants using a gradual increase.

FY 2025 - \$8,000 (69 applications)
FY 2026 - \$12,000 (104 applications)
FY 2027 - \$42,000 (138 applications and 69 renewals)
FY 2028 - \$55,000 (138 applications and 104 renewals)
FY 2029 - \$68,000 (138 applications and 138 renewals)

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

At the time of this writing there are no states that have passed legislation enacting the Physician Assistant compact and seven are required to convene the board.

Credentialing

Sections 3-5: The addition of compact licenses will require staff to update the online application. Due to the lead time necessary for the online application portal development, updates, and deployment, the commission assumes the January 1, 2025, effective date as identified in the bill. The commission will be required to conduct federal background checks on each applicant for the compact by obtaining fingerprints from each applicant, submitting the fingerprints through the WSP to the FBI for a national criminal history background check for use in making multistate licensure decisions.

FY 2025 and ongoing – 0.2 FTE and \$19,000 (02G) each year.

Operations

This bill impacts online or paper applications requiring an update to processing by including compact recognition. Additional work will include but not be limited to e-form development, use case updates, and online testing.

FY 2025 and ongoing - \$5,000 (02G) each year

Total costs to implement this bill:

FY2025: 0.2 FTE and \$24,000 (02G)

FY2026 and ongoing: 0.2 FTE and \$24,000 (02G)

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29

Biennial Totals

Narrative Explanation (Required for Indeterminate Cash Receipts)

Projected cash receipts to the Washington State Patrol (WSP) are indeterminate due to the effective date being indeterminate.

Per section 3(1)(e), member states of the compact are required to implement a criminal background check requirement. Section 11 of the proposed legislation states the does not go into effect until the seventh state adopts the legislation, so we are unable to know exactly when cash receipts will begin, however the Department of Health is able to estimate there will be 69 new federal, fingerprint-based background checks in the first year, 104 in the second year and 138 annually thereafter. Assuming electro submissions, the fingerprint processing fee is \$34.25. Of that \$34.25 fee, \$11.25 covers the Federal Bureau of Investigation's fee while \$23 is deposited into the State Fingerprint Identification Account for covering costs incurred in our Criminal Records Division. Total revenue once the bill is in effect is projected to be \$1,587 in the first y, \$2,392 in the second year, and \$3,174 annually thereafter.

Narrative Explanation (Required for Indeterminate Cash Receipts)

Current law, RCW 43.70.250 (License fees for professions, occupations, and businesses) requires that a business-licensing program be self-supporting and sufficient revenue be collected through fees to fund expenditures. The commission does not anticipate the need to increase licensing fees to support the changes proposed in this. The commission will monitor the program fund balance and adjust fees over a six (6) year period to ensure that fees are sufficient to cover all program expenditures.

The commission assumes a fee of \$116 for applications and \$379 for renewals (2-year) which is consistent with the current physician assistant license fees.

Based on the commission’s experience, the commission assumes a similar percentage of Physicians Assistants will opt for a compact license as was seen when the Physicians and Surgeons compact went into effect. The percentage was then applied to the current number of PA licensees to arrive at an estimate of potential compact applicants using a gradual increase.

FY 2025 - \$8,000 (69 applications)
 FY 2026 - \$12,000 (104 applications)
 FY 2027 - \$42,000 (138 applications and 69 renewals)
 FY 2028 - \$55,000 (138 applications and 104 renewals)
 FY 2029 - \$68,000 (138 applications and 138 renewals)
