## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

SHB 2214 is an expansion of the Washington College Grant (WCG) as it will make clients of the Washington Basic Food Program (SNAP) and Washington Food Assistance Program (FAP) categorically income-eligible for the Washington College Grant program without being required to complete a Free Application for Federal Student Aid (FAFSA) or the Washington Application for State Financial Aid (WASFA).

This bill also requires, to the extent allowable under state and federal law, the Department of Social and Health Services (DSHS) to enter into a data-sharing agreement with the Washington Student Achievement Council (WSAC) to provide a list of all individuals receiving benefits under SNAP/FAP. Shared data will be used to confirm students' eligibility for the WCC

WSAC will be tasked with communicating and notifying eligible clients in these two new programs as well as issuing a certificate to high school students in the 10th, 11th, and 12th grade whose families are receiving SNAP/FAP to validate their financial need eligibility for the WCG.

This version differs from the original bill in that it provides for a phased in implementation.

\* Beginning in the 2025-26 academic year (AY), allows students in the 10th, 11th, and 12th grades who receive SNAP/FAP benefits to automatically qualify as income-eligible for the WCG.

\* Beginning in 2027-28 AY, allows individuals who receive SNAP/FAP benefits to automatically qualify as income-eligible for the WCG.

This version requires:

\* WSAC to notify students in any of the public benefits programs under RCW 28B.92.200 of the importance of submitting a FAFSA or a WASFA after their first quarter or semester, and each year thereafter.

\* WSAC will submit a report detailing WCG participation by students whose income eligibility is established through one of the public benefit programs to the appropriate committees of the legislature by December 1, 2026 and each year thereafter.

This version also added Section 3 which requires WSAC to:

\* Facilitate individual-level outreach to those receiving benefits under one of the public assistance programs informing them of their income eligibility for the WCG.

\* Notify individuals receiving one of the public benefits that they may establish eligibility for additional state and federal aid by submitting a FAFSA or a WASFA.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Cash receipts are indeterminate for any financial aid programs administered by the Washington Student Achievement Council (WSAC). Cash receipts would only apply to those individuals who utilize federal and or state financial aid grants. Because the enrollment and utilization rates of those opting to use financial aid grants are unknown, we are unable to anticipate who may owe a repayment of state grants as a result of not meeting satisfactory academic progress and program policy standards.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

SHB 2214 expenditures for student grants are indeterminate as the Washington College Grant (WCG) is a Caseload Forecast Council forecasted program. However, it is assumed that prospective students enrolled in these public benefit programs are already eligible for WCG, as the income requirement for SNAP and FAP are below WCG income requirements. This would not be a newly eligible population. What is unknown is enrollment patterns, selected college sector (type of school), and other financial aid awarded. It is also unknown how many dependents would enroll in the first phase.

The certificate cost, using centralized mail services, would be \$1.65/student (eligible high school students in grade 10 through 12) but the total number and cost is indeterminate.

WSAC will work in partnership with colleges to inform students of the importance of filing a FAFSA/WASFA. WSAC assumes notification will be electronic.

The expenditures cover the necessary costs for staff spread across multiple WSAC functions (1.7 FTE, costing \$325,000 annually) to implement this agency requested legislation and \$48,000 annually for additional goods and services, which would include conducting outreach and for providing certificates to income-eligible high school students.

Staffing costs would be \$325,000 annually ongoing for 1.7 FTE split between several functions at WSAC:

0.4 FTE Assistant Director to support messaging and outreach to newly income eligible SNAP/FAP clients and to support the learning agenda and evaluation of this legislative and programmatic change.

0.2 FTE Software Developer to implement technical systems updates and ongoing maintenance in the WSAC online portal systems.

0.5 FTE Associate Director to train financial aid offices and support ongoing implementation needs for SNAP/FAP clients and conduct annual reporting.

0.2 FTE Director to liaise with DSHS and guide implementation of this change.

0.1 FTE Policy Associate to assist with policy implications related to data sharing and USDA guidelines.

0.3 FTE Program Coordinator to manage the certificate process.

Staff time estimates are rounded to the nearest 0.1 FTE and staff-related and other costs are rounded to the nearest \$1000.
