ΦFM Review:

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact on the Courts

This bill extends required time to keep cases open after child is returned home from six months to 12 months (with mandatory review at that time) for cases in which a parent's substance use contributed to the filing of the dependency or parent was found to be using substances during the life of the case.

II. B - Cash Receipts Impact

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

HB 1891 would extend the time to dismissal of a dependency case from 6 months to 12 months in cases where substance use disorder on the part of a parent contributed to the removal of the child or occurred during the dependency.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Washington State Center for Court Research publishes the Interactive Dependency Timeliness Report (IDTR).

- According to the IDTR, there were 1,240 dependency cases dismissed for a return home in calendar year 2022.
- For those dependency cases, OPD provided 1,984 representations of a parent. (Typically, and on average, each dependency case involves 1.6 parent representations because there are often two parents involved and each parent has the right to counsel.)
- According to the IDTR, in 2022, 45% of dependency cases involved substance abuse.
- The median months to dismissal on a return home currently is 21.5 months.
- Under HB 1891, the median months to dismissal will rise to 27.5 months.
- Under HB 1891, OPD assumes that 45% of its Parent Representation cases (893 cases) will be extended by 6 months.

The extended 6 month time frame for cases under HB 1891 will necessitate additional defense team resources at OPD, as identified at Expenditure Object N, Grants, Benefits, & Client Services.

- 11.16 full-time contracted attorneys at a cost of \$2,243,160 (\$201,000 per full-time contract)
- 3.72 full-time contracted social service workers at a cost of \$325,872 (\$87,600 per full-time contract)

OPD projects annual costs of \$2,569,032 to implement HB 1891.

Part III: Expenditure Detail

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 11 (2)(b)

Extends the period of in-home monitoring from six (6) months to 12 months for cases involving substance use disorder on the part of a parent that contributed to the removal of the child or that occurred during the dependency.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

DCYF receives federal reimbursement of 20% for Title IV-E qualifying child welfare expenditures. \$743,000.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Total expenditure impacted is estimated at \$3,830,000 (\$3,087,000 GF-S).

This bill requires DCYF to extend in-home monitoring from six months to 12 months. There will be staff impact from adding an additional six months of monitoring.

Staffing costs:

- In CY23 there were 1,164 children that were trial return home cases.
- According to OIAA, 40.13% of children are removed from care due to parent drug and/or alcohol use.
- The caseload ratio for SSS3(CFWS social workers) is 1:18.
- 1,164 TRH cases x 40.13% x 0.5 years / 18 caseload ratio = 13.0 additional SSS3 FTEs per year.
- 13 additional SSS3 will require 2.0 SSS5 positions. 13 / 6 staff per SSS5= 2.0 FTE.

DCYF requires 15 FTE to manage the increased workload. \$2,317,000, (GF-S \$1,983,000)

13 Social Service Specialist 3 (SSS3) positions to provide case management, monitoring, and court related services for the additional six (6) months under this bill. 13 X 152,000= \$1,973,000 (GF-S \$1,598,000).

2 Social Service Specialist 5 positions to supervise the increased number of SSS3s. 2 X \$172,000 = \$343,000 (GF-S \$278,000)

Contracted services costs:

DCYF assumes that staff will need to implement a U/A testing schedule for parents when children are on a trial return home where substance use was a reason for removal. An additional 6 months of monitoring the case would double the amount of U/A testing required. DCYF currently tests each parent at least three times per month.

Cost Assumptions

Cost of UA is \$1080 per parent (\$90 per test x 3-month x 6 months = \$1620).

- There are 1,164 TRH cases per year.
- According to OIAA, 40.13% of children are removed from care due to parent drug and/or alcohol use.
- Assume two parents per dependency case.
- The number of individual cases for testing is $467 (1,164 \text{ dependency cases } \times 40.13\% = 467 \text{ cases}).$
- (467 cases x \$1620 for six months of testing X 2 parents = \$1,513,000).

\$1,513,000 (GF-S \$1,211,000)

Part III: Expenditure Detail
