Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Substitute HB 2320 removes Section 6 of the original bill which impacted the Governor's Office and therefore the substitute has no fiscal impact.

HB2320 enacts evidence-based public policy solutions to address the public health harms associated with high THC products.

Per Section 6 the governor may seek government-to-government consultations with federally recognized Indian tribes regarding raising the minimum legal age of sale of cannabis products identified in RCW 69.50.357(1)(c), in compacts entered into under RCW 43.06.490. The office of the governor shall report to the appropriate committees of the legislature regarding the status of such consultations by December 1, 2025.

The Governor delegated authority to the Washington State Liquor and Cannabis Board for cannabis compacts with the tribes and assume they would implement the requirements in section 6. Based on those consultations, the Office of the Governor would provide a status report to the legislature. The Office estimates this work can be accomplished within current resources and therefore doesn't have a fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
