Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SSB 5955 creates the port district equity fund, coupled with the general fund as the recipient of the earnings from investments under RCW 43.84.092(4).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

There may be an impact on the debt service limitation calculation. Changes to the earnings credited to the general fund impacts, by an equal amount, general state revenues.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Note: This fiscal note reflects language in SSB 5955, 2024 Legislative Session.

This fiscal note only addresses section 6(4) of the bill, which impacts the Department of Revenue (department).

COMPARISON OF SUBSTITUTE BILL WITH ORIGINAL BILL:

The substitute bill includes the department working with the Department of Commerce (Commerce) and informing the Economic and Revenue Forecast Council (ERFC) of the amount of state sales tax and Local Cultural Access Program sales tax received from eligible projects during the prior calendar year for appropriation by the Legislature up to \$10 million.

CURRENT LAW:

Under current law, the General Fund receives the state sales tax on any capital construction project at a commercial service airport operating a Noise Mitigation Program.

PROPOSAL:

This bill requires that beginning on February 15, 2025, and each subsequent February 15, the department notify the ERFC of the amount of state sales tax and Local Cultural Access Program sales tax received from eligible projects during the prior calendar year. The department will consult with the Commerce when determining this amount. An eligible project is any capital construction project at a commercial service airport operating a Noise Mitigation Program.

Beginning in fiscal year 2026, the legislature must appropriate from the General Fund to the Port District Equity Fund the amount reported by the department to the ERFC. The appropriated amount may not exceed \$10 million.

EFFECTIVE DATE:

The bill takes effect 90 days after the final adjournment of the session.

However, due to the time, it will take to receive all the excise tax returns, compare them to Commerce data, and determine the amount of relevant sales tax, the department cannot inform the ERFC of the amount until August 1, 2025.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS

- This bill only impacts SeaTac Airport.
- Based on publicly available information about the SeaTac Airport's capital construction plans, the sales tax will reach the annual \$10 million cap for the foreseeable future.
- The legislature will appropriate the necessary funds from the General Fund to the Port District Equity Fund.

DATA SOURCES

- Port of Seattle, public information on SeaTac Airport capital projects

REVENUE ESTIMATES:

This legislation results in no revenue impact on taxes administered by the department.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

- Commerce will provide the information needed for the calculation and report to the ERFC.
- The first notification to the ERFC occurs on August 1, 2025, giving the department six months to implement the notification. The department will incur additional costs if a different implementation date is required.

FIRST YEAR COSTS:

The department will not incur any costs in fiscal year 2024.

SECOND YEAR COSTS:

The department will not incur any costs in fiscal year 2025.

THIRD YEAR COSTS:

The Department will incur total costs of \$14,700 in fiscal year 2026. These costs include:

Labor Costs – Time and effort equate to 0.1 FTE.

- Coordinate with Commerce concerning eligible projects and determine the amount of sales tax received.
- Notify ERFC of the amount of retail sales tax received during the prior calendar year.

Object Costs - \$700.

- Software, training, and travel expense

ONGOING COSTS:

Ongoing costs for fiscal year 2027 equal \$13,500 and include similar activities described in the third-year costs. Time and effort equate to 0.1 FTE.
