# **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Reduces the number of days—from 14 to 7—that a temporary total disability must continue to receive workers' compensation time-loss benefits for the first three days following the injury.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Board of Industrial Insurance Appeals has reviewed this bill and determined it will not increase or decrease the number of appeals received by the agency. The BIIA does not anticipate any additional costs associated with this proposed legislative change.

# Part III: Expenditure Detail

III. A - Operating Budget Expenditures

**NONE** 

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

**NONE** 

III. D - Expenditures By Program (optional)

**NONE** 

# Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

**NONE** 

IV. B - Expenditures by Object Or Purpose

**NONE** 

#### IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

**NONE** 

IV. D - Capital FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.

**NONE** 

# Part V: New Rule Making Required Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

# **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached.

## II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

See attached.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

See attached.

**NONE** 

IV. D - Capital FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.

**NONE** 

See attached.

# Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

# Part II: Explanation

This bill relates to reducing the number of days that a worker's temporary total disability must continue to receive industrial insurance compensation for the day of an injury and the three-day period following the injury, amending RCW 51.32.090.

# II. A – Brief Description of What the Measure Does that Has Fiscal Impact

**Section 1(7)** amends RCW 51.32.090 to change the period of disability required for time-loss compensation for the first three days following an injury from fourteen to seven days.

**Section 2(7)** amends RCW 51.32.090 to change the period of disability required for time-loss compensation for the first three days following an injury from fourteen to seven days.

**Section 3** stipulates that section 2 takes effect July 1, 2025.

**Section 4** stipulates that section 1 expires July 1, 2025.

# II. B - Cash Receipt Impact

## Non-Appropriated - State Fund Premiums

As an insurance entity, the Department of Labor and Industries (L&I) premium rates are intended to match premiums to claims cost projections. Therefore, for this fiscal analysis it is assumed that any incremental costs or savings will equal the incremental revenue collected.

#### Non-Appropriated – Premium Impact to Employers

Individual changes to the Accident and Medical Aid fund do not change rate assumptions by themselves. Cost increases are only one of many components in determining rates. The highlevel strategy that is used to determine if a rate change is necessary is as follows:

- Review of liabilities, or costs of the Workers' Comp System.
- Investment earnings.
- Adequate revenue (premiums + investments) based on projected costs (actuarial estimates) will determine need for a premium change.

#### Non-Appropriated – Self-Insured Employers

If an employer chooses to be self-insured, they are responsible to pay for overall claim costs and a portion of administration costs of L&I's Self-Insurance Program and other costs of related support functions. The administrative assessment is an amount per dollar of claim benefit costs. If benefit costs are increased due to the change in the waiting period for time-loss compensation, self-insured employers would be assessed by L&I for their appropriate portion of administrative costs based on the increase. Incremental costs or savings will equal the incremental revenue collected from assessments.

# II. C – Expenditures

#### Non-Appropriated – State Fund Benefits Costs

There is non-appropriated impact to the Accident Account, fund 608. (Non-appropriated costs are not included in the Fiscal Note Summary.) The following assumptions were used to calculate the estimates:

#### Decreasing the retroactive time-loss days threshold

The amounts below estimate the impact of reducing the retroactive time-loss day threshold from fourteen to seven days in RCW 51.32.070 (7). Currently time-loss compensation is not received for the first three days of eligibility unless the injured worker's disability continues for fourteen days or more.

# Additional days of time-loss compensation paid

If the fourteen day threshold is reduced to seven days then those injured workers that currently receive four to thirteen days of time-loss compensation will see an increase of three additional days of time-loss compensation.

To determine number of injured workers receiving time-loss compensation, increased from four to thirteen days, for fiscal year 2025, we utilized fiscal years 2016 and 2017 which reflect stable pre-pandemic claim counts.

For fiscal accident year 2025, a year in which anticipate  $9,593 = 16,491 / 39,540 \times 23,000$  additional days of time-loss compensation.

Also additional days of time-loss results in incentives for additional duration of time-loss compensation. We are anticipating an additional 50 percent of days will also be compensated, some  $4,796 = 9,593 \times 0.50$  days. That gives us a total of 14,389 = 9,593 + 4,796 additional days of time-loss compensation.

# Average time-loss compensation increases by 0.26% annually

At an estimated \$114.48 paid on average per time-loss day, we anticipate an additional \$1,647,000 of paid time-loss benefits, which are 0.26% of the total \$638,590,000 of time-loss benefits paid for fiscal accident year 2025.

|                          | 2024        | HB 1927 Actuarial Impact  |
|--------------------------|-------------|---|
|                          |             | Annual change during Fiscal Accident Year 2025                          |
| (1)                      | 5,497       | Expected claims with 4 to 13 days of time-loss during FAY 2016 and 2017 |
| (2)                      | 3           | Increase in days of time-loss due to 7 day retroactive period           |
| $(3) = (1) \times (2)$   | 16,491      | Increase in total time-loss days for affected claims                    |
| (4)                      | 39,540      | Ultimate non COVID-19 lost-time claims during FAY 2016 and 2017         |
| (5)                      | 23,000      | Ultimate non COVID-19 lost-time claims during FAY 2025                  |
| (6) = (3) / (4) x<br>(5) | 9,593       | Expected increase in time-loss days for FAY 2025                        |
| $(7) = (6) \times 50\%$  | 4,796       | Additional 50% increase due to increased incentive                      |
| (8) = (6) + (7)          | 14,389      | Total increase in time-loss days  |
| (9)                      | \$114.48    | Average daily time-loss/LEP rate during FAY 2025                        |
| $(10) = (8) \times (9)$  | 1,647,000   | Total increase in time-loss benefits                                    |
| (11)                     | 638,590,000 | W/o change annual time-loss/LEP cost FAY 2025                           |
| (12) = (10) / (11)       | 0.26%       | Percentage increase to time-loss/LEP costs                              |

At 0.26% of time-loss and LEP benefits the yearly additional compensation is estimated to be:

| Fiscal    |                            |             |
|-----------|----------------------------|-------------|
| Accident  | w/o change                 | w/change    |
| Year      | Annual Time-loss/LEP costs | Increase    |
| 2025      | \$638,590,000              | \$1,647,000 |
| 2026      | \$677,610,000              | \$1,748,000 |
| 2027      | \$720,880,000              | \$1,859,000 |
| 2028      | \$765,440,000              | \$1,974,000 |
| 2029      | \$810,420,000              | \$2,090,000 |
|           |                            | _           |
| Sub-total | \$3,612,940,000            | \$9,318,000 |
|           |                            | 0.26%       |

#### **Appropriated – Operating Costs**

This bill increases expenditures to the Accident Account, fund 608, and Medical Aid Account, fund 609. The following assumptions were used to estimate the resources requested to implement this bill.

#### **Staffing**

Three (3.0) FTE, Workers' Compensation Adjudicator 2 (WCA2), permanent, beginning July 1, 2024. Duties include review and manage a caseload of level 2 workers' compensation claims in accordance with the industrial insurance laws, case law and department rules and policies; pay compensation benefits; establish wages and entitlement to benefits; high volume telephone interaction with injured workers, medical and vocational providers, attorneys, employers and employer representatives. This is based on the following:

- It is estimated that 14 percent of compensable claims will be impacted by this legislation. (23,000 compensable claims are expected in FY 2025, 14% of which would be 3,220 claims).
- It is estimated that there will be an average increase of 50% in days of time-loss paid due to increased disability duration because of the change in behavior of workers and employers once the retroactive wait period is shortened.
- The cost of additional benefits for the first year is \$1,647,000.
- The workers comp insurance industry uses 25% of benefits in order to manage these claims.
- An addition of 3 WCA2s, for the first year would cost approximately \$109,000 X 3 = \$327,000. This is roughly 20% of benefit costs, which is slightly less than the industry administrative cost.
- These resources are needed to manage the additional 3,220 affected claims with 4,796 additional days of time loss paid annually, along with the portion of claims that will have an increased duration requiring ongoing medical and disability management.

#### **Printing**

\$41,260 is needed during fiscal year 2025 for printing costs for the following:

- Employers Guide to Self-Insurance (F207-079-000).
- A Guide to Workers' Compensation Benefits for Employers of Self-Insured Businesses (F207-085-000).
- Workers' Compensation Benefits: A guide for Injured Workers (F242-104-000).
- Employers' Guide to Workers' Compensation Insurance in Washington State (F101-002-000).

## **Indirect Costs**

The amount included in this fiscal note for indirect is:

| Fund | Name        | FY 2024 | FY 2025  | FY 2026  | FY 2027  | FY 2028  | FY 2029  |
|------|-------------|---------|----------|----------|----------|----------|----------|
| 608  | Accident    | 0       | 9,500    | 9,500    | 9,500    | 9,500    | 9,500    |
| 609  | Medical Aid | 0       | 9,500    | 9,500    | 9,500    | 9,500    | 9,500    |
|      | Total:      | \$0     | \$19,000 | \$19,000 | \$19,000 | \$19,000 | \$19,000 |

The department assesses an indirect rate to cover agency-wide administrative costs. Labor and Industries' indirect rate is applied on salaries, benefits, and standard costs. For fiscal note purposes, the total indirect amount is converted into salary and benefits for partial or full indirect FTEs. Salary and benefits costs are based on a Fiscal Analyst 5 (Range 59, Step G).

# Part IV: Capital Budget Impact

None.

# Part V: New Rule Making Required

None.
