## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1(1) amends RCW 49.46.210 by limiting the paid sick leave separation payout protections to only construction workers who perform construction work using tools for employers who are described in North American Industry Classification System (NAICS) industry code 23, except 2361 residential building construction. This reduces the number of workers eligible to file complaints for violations of this section with the Department of Labor and Industries (L&I). The reduction in complaints L&I receives is expected to be minimal.

Section 2 states this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Since the reduction in complaints is expected to be minimal, the cash receipt impact on penalties received from complaints is zero.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

L&I will implement this bill with existing resources. Minimal costs are expected related to rule making hearings and translation costs associated with updating existing publications.
