SSB 5588
RELATING TO THE MENTAL HEALTH SENTENCING
ALTERNATIVE
101 – Caseload Forecast Council
February 7, 2024

SUMMARY

A brief description of what the measure does that has fiscal impact.

Section 1 Amends RCW 9.94A.695, the Mental Health Sentencing Alternative (MHSA), by requiring a diagnosis for the defendant's mental illness be included in the Department of Corrections' (DOC) written report before imposition of a Mental Health Sentencing Alternative, and by removing the requirement of a proposed treatment plan. Additionally allows the court to waive the requirement of a written report by DOC and the treatment provider prior to any progress hearing.

EXPENDITURES

Assumptions.

None.

Impact on the Caseload Forecast Council.

None.

Impact Summary

This bill:

- Amends requirements for the MHSA.

Impact on prison and jail beds.

This bill amends requirements under MHSA. Under the alternative, the court waives the term of confinement and imposes community custody of 12-24 months or 12-36, depending on the midpoint of the standard range sentence.

The Caseload Forecast Council (CFC) has no information if the provisions of the bill will result in increased usage of the alternative. If more MHSA sentences are imposed, it may result in decreased need for jail and prison beds.

Impact on local and Juvenile Rehabilitation (JR) beds.

This bill has no impact on local detention or JR beds.

Impact on Supervision Caseload.

While CFC has no information to know if more MHSA sentences would be imposed under the provisions of the bill, any additional MHSA sentences would result in an increased need for DOC community supervision resources.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Passage of this legislation will not impact the Department of Social and Health Services (DSHS) workload or client benefits. Therefore, there is no fiscal impact to DSHS from this bill. SSB 5588 amends several sections in 9.94A.695 RCW to require the Department of Corrections (DOC) to include a diagnosis for the defendant in a written report when a defendant applies for a Mental Health Sentencing Alternative; and allows courts to waive a requirement for DOC and the treatment provider to provide written reports before a progress hearing.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SSB 5588 amends RCW 9.94A.695, the Mental Health Sentencing Alternative (MHSA), by changing the criteria of the written report for a defendant that applies for a MHSA.

Section 1(3)(a) changes the requirement of Department of Corrections (DOC) from including a mental health proposed treatment to requiring a diagnosis of mental illness to be included in DOC's written report when a defendant applies for a Mental Health Sentencing Alternative.

Section 1(6)(b) Allows the court to waive the requirement of a written report informing the parties of the defendant's progress and compliance with the treatment provider prior to any progress hearing.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The fiscal impact of this bill is indeterminate, assumed to be less than \$50,000 per Fiscal Year (FY).

This bill amends requirements under MHSA. Under the alternative, the court waives the term of confinement and imposes community custody of 12-24 months or 12-36, depending on the midpoint of the standard range sentence.

The Caseload Forecast Council (CFC) has no information if the provisions of the bill will result in increased usage of the alternative. If more MHSA sentences are imposed, it may result in decreased need for jail and prison beds.

While CFC has no information to know if more MHSA sentences would be imposed under the provisions of the bill, any additional MHSA sentences would result in an increased need for DOC community supervision resources.

ASSUMPTIONS

1. The estimated ADP impact to DOC prison facilities/institutions and/or community supervision/violator caseloads is based on projections from CFC.
2. For illustration purposes only, the average annual Community Supervision caseload model is \$6,101 per ADP (not including startup costs), regardless of the supervised risk level based on the workload model. If ADP impacts are applicable to this fiscal note, the calculated rate per community supervision ADP includes direct supervision and ancillary units, such as Hearings, Records, and Training, that are directly affected by supervision population changes. The estimate will vary based on the risk level of the supervised individuals, which requires different staffing levels. The population trend data used is based on the Risk Level Classification tool and provides a risk level of 42.8% high violent, 27.3% high non-violent, 21% moderate, 7.9% low, and 1.0% unclassified. (June – November 2017)
3. The DOC assumes that any increase in community supervision caseload will result in an increased need for violator beds. For illustration, the FY2023 average percentage of supervised individuals who served jail time and were billed by the local jurisdictions for violating their conditions of supervision was a rate of 2.0%. The current average daily cost for jail beds is \$114.43 per day, inclusive of all risk levels and healthcare costs. The rate is an average, and actual rates vary by local correctional facilities.

We assume additional impacts will result when ADP caseload changes in either prison or community and resources will be necessary. The DOC will “true up” our fiscal impact in subsequent budget submittals should the legislation be enacted into session law.
