Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

1. The Attorney General's Office (AGO) Criminal Justice Division (CRJ) has reviewed this bill and determined it will not increase or decrease the division's workload in representing Washington State Patrol (WSP). Therefore, no costs are included in this request. The changes contemplated in this legislation are mostly technical changes to switch from local law enforcement agencies conducting firearm background checks to Washington State Patrol Firearms Background Checks program (WSPFBC) conducting them. The substantive work has already been accounted for with prior legislation. It is not anticipated that the report contemplated in Section 7(9) will require AAG support.

2. The AGO Government Compliance & Enforcement Division (GCE) has reviewed this bill and determined it will not increase or decrease the division's workload in representing WSP. Although GCE provides program specific advice and litigation for WSP, GCE does not provide legal support for the WSPFBC program. Therefore, no costs are included in this request.

3. The AGO Licensing & Administrative Law Division (LAL) has reviewed this bill and determined it will not increase or decrease the division's workload in representing the Department of Licensing (DOL). This bill should have little to no impact on DOL's firearms program. Therefore, no costs are included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The substitute version of the proposed legislation does not change our fiscal impact.

There is no fiscal impact to the Washington State Patrol (WSP).

The proposed legislation clarifies the definition of, and language related to, the WSP Firearms Background Check Program. The substitute version also includes a new reporting requirement.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

NONE

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 7 of the substitute version of the proposed legislation adds a requirement for us to submit an annual report to the legislature on the average time between the receipt of request for a background check and final decision. Our Secure Automated Firearms E-check (SAFE) system already produces a similar report for our internal tracking. As a result, we estimate it will take an insignificant amount of time to format the report for distribution to the legislature.
