Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached narrative.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

See attached narrative.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

See attached narrative.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

- Requires new rule making, complete Part V.

HCA Fiscal Note

Bill Number: 1956 E2SHB

HCA Request #: 24-152

Title: **Substance Use Prevention Ed.**

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill relates to fentanyl and other substance use prevention education.

As compared to SHB 1956 of this bill, this bill instead:

- Directs the Department of Health (DOH) develop, implemental, and maintain a statewide drug overdose prevention and awareness campaign to address the drug overdose epidemic that meets specified requirements; DOH shall collaborate with HCA if they want to include messaging on substance use disorder and overdose death prevention, resources for addiction treatment and services, and information the Good Samaritan Overdose Law.
- Requires the Office of the Superintendent of Public Instruction (OSPI) in collaboration with HCA and other agencies, to develop, periodically update, and make available school and classroom substance use prevention and awareness materials; and
- Directs the OSPI to adjust the state health and physical education learning standards for middle and high school students to add opioids to the list of drugs included in drug-related education; and
- Provides expiration dates and timelines for developing school materials; and
- Declares an emergency.

New Section 1 An Introductory section explaining why the legislature is proposing this bill. This section includes information on the increase in opioid overdoses at the federal and state level.

New Section 2 requires DOH to develop, implement, and maintain a statewide drug overdose prevention and awareness campaign to address the drug overdose epidemic. The campaign must include outreach to both youth and adults aimed at preventing substance use and overdose deaths. DOH, in consultation with HCA, may also include messaging focused on substance use disorder and overdose death prevention, resources for addiction treatment and services, and information on immunity for people who seek medical assistance in a drug overdose situation pursuant to RCW 69.50.315. The 2024 and 2025 campaign must be focused on fentanyl and other opioids. DOH is required to submit an annual report to the appropriate committees of the Legislature. This section expires July 1, 2029.

New Section 3 requires OSPI, in collaboration with DOH, HCA, other state agencies, and educational service districts to develop age-appropriate substance use prevention and awareness materials for school and classroom uses. These materials must be periodically updated to align with the annual substance use prevention and awareness campaigns.

New Section 4 requires OSPI, in collaboration with DOH, HCA, other state agencies, and educational service districts to develop school and classroom materials on the lethality of fentanyl and other opioids in coordination with the public health campaign created in Section 2 of this act. This section expires July 1, 2026.

New Section 5 declares an emergency.

New Section 6 includes a null and void clause.

HCA Fiscal Note

Bill Number: **1956 E2SHB**

HCA Request #: 24-152

Title: **Substance Use Prevention Ed.**

New Section 7 proclaims this act to be known and cited as the Lucas Petty act.

II. B - Cash Receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

NONE

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

No Fiscal Impact

Effective awareness campaigns and substance use information dissemination in schools and communities can help reinforce drug refusal skills developed through normative and educational efforts. This usually results in the mid- and long-term reduction of treatment and recovery rates, and therefore, in the decrease of patients accessing these benefits through the HCA's healthcare plans. HCA already provides awareness campaigns and information dissemination in some schools and to some target populations. It is difficult to estimate if these items would result in a significant additional decrease in treatment and recovery rates, and therefore, for this analysis, HCA assumes no fiscal impact.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The engrossed second substitute version of this bill adds reporting requirements to section 2(4). This can be done within previous fiscal impact, no change.

Section 2: The Department of Health shall annually develop and deploy a statewide multimedia substance use prevention and awareness campaign that evolves to address the substance or substances with the greatest impact on the health of Washington youth and their families, diverse regions and communities, and the broader public.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 2: Develop and deploy a statewide multimedia substance use prevention and awareness campaign that evolves to address the substance or substances.

Health Services Consultant 3 (HSC3) - FY25: \$144,000 and \$140,000 ongoing; 1.0 FTE ongoing

This position will serve as a health educator managing the health promotion aspects of the Department of Health's (DOH) opioid response. The HSC3 will develop and test educational materials and contribute to planning and implementing health promotion interventions. This will include managing the social marketing and behavior change campaign, and the associated contractors. This position will coordinate with existing internal DOH programs and liaise with the governor's interagency coordinating council on health disparities, the office of the superintendent of public instruction, and other state agencies working on the opioid response, as directed in this bill.

PRINTING & SHIPPING \$32,054 per FY

The department will print and ship campaign materials to diverse region and communities per section 2(1)(d). The department estimates 100,000 posters there are approximately 3,000 schools in Washington State, which would provide them with 15 posters each (total school quantity 45,000), leaving 55,000 for community distribution and placement at stores, churches, etc. This number can flex if more or fewer posters are desired. The higher the quantity, the better the per-piece cost. The poster can also be made smaller for some cost savings.

CONTRACTS

The department will establish contract(s) for a statewide campaign work targeting "Washington youth and their families, diverse regions and communities, and the broader public." The first fiscal year includes additional money to secure a contractor and develop the campaign, as well as initial placement and monitoring. Developing the campaign includes audience research and concept testing, developing effective messaging and branding for each branch, and designing the ads and content. The additional first-year money also would cover the bulk of the transcreation/translation of the campaign messages and graphics into other languages. Subsequent years are for continuation of the campaign, including placement and monitoring, adjustment of messages as needed, and additional transcreation or translation as needed. An evaluation every other year will show how the campaign is doing and better inform DOH strategies for subsequent years; it will also allow DOH to see the effectiveness of the overall strategy and how it is changing behavior and health in Washington and allow DOH to report the successes to the Legislature. These budget amounts were chosen as they are at the minimum level to have an effective campaign, the budget is in alignment with other statewide behavior change campaigns managed

by DOH and confirmed cost estimates for this topic based on our previous opioid campaign in 2023.

The proposed bill prioritizes sub-populations, this campaign will have one main priority audience, a second priority population, and a general audience. The audience research the contractor would conduct would indicate which audiences are of special concern for this topic beyond that specified within the bill.

DOH historically conducts research evaluations every 2-3 years, however this campaign will require annual reviews in order to focus on the current trends in substance abuse prevention. The cost of those evaluations is included in this fiscal note.

Contractor account management is for contractor staff time and other costs they incur in executing the campaign, such as reporting, invoicing, attending check-ins, and social media monitoring. Campaign development and media buy costs are captured in the amounts listed per audience.

FY 25: \$ 3,229,000

Priority population (youth and families): \$1,325,000

Secondary priority population (under “diverse regions and communities,” to be determined by pre-campaign evaluation and planning): \$450,000

General population: \$750,000

Contractor account management: \$379,000

Audience research (annually, per section 2): \$325,000

Total FY 26: \$3,054,000

Priority population (youth and families): \$850,000

Secondary priority population: \$400,000

General population: \$850,000

Evaluation (once per biennium, even years): \$250,000

Contractor account management: \$379,000

Audience research (annually, per section 2): \$325,000

Total FY 27: \$ 2,804,000

Priority population (youth and families): \$850,000

Secondary priority population: \$400,000

General population: \$850,000

Contractor account management: \$379,000

Audience research (annually, per section 2): \$325,000

Total FY 28: \$3,054,000

Priority population (youth and families): \$850,000

Secondary priority population: \$400,000

General population: \$850,000

Contractor account management: \$379,000

Evaluation (once per biennium, even years): \$250,000

Audience research (annually, per section 2): \$325,000

Total FY 29: \$2,804,000

Priority population (youth and families): \$850,000

Secondary priority population: \$400,000

General population: \$850,000

Contractor account management: \$379,000

Audience research (annually, per section 2): \$325,000

TOTALS

FY2025: \$3,458,000 and 1.8 FTE
 FY2026: \$3,276,000 and 1.7 FTE
 FY2027: \$3,023,000 and 1.7 FTE
 FY2028: \$3,276,000 and 1.7 FTE
 FY2029: \$3,023,000 and 1.7 FTE

Annual totals include agency overhead costs which include services from: accounting, budget, contracts, facilities, HR, IT, and other shared costs.

OFM Review: Carly Kujath	Phone: (360) 790-7909	Date: 02/15/2024

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Comparison of 1956 SHB to 1956 E2SHB:

New Section 4(1) Directs the Office of the Superintendent of Public Instruction (OSPI) to adjust the state health and physical education learning standards for middle and high school students to add opioids to the list of drugs included in drug-related education.

New Section 4(2) Changes the date that OSPI must have the education materials available for schools from December 1, 2024 to December 1, 2025.

New Section 4(3) provides an expiration date of July 1, 2026.

New Section 5 add an emergency clause, taking effect immediately.

New section 6 adds a null and void clause making the bill null and void if specific funding is not provided by June 20, 2024 in the omnibus appropriations act.

New Section 7 names the law as the Lucas Petty Act.

These changes do not change the indeterminate impact to The Department of Children, Youth and Families (DCYF).

1956 SHB

New section 2 requires the Department of Health (DOH) to annually develop and deploy a statewide multimedia substance use prevention and awareness campaign.

New section 3 requires the OSPI to collaborate with the DOH develop age-appropriate substance use prevention and awareness materials for school and classroom use. These materials must be periodically updated to align with the annual substance use prevention and awareness campaign in section 2.

The substitute bill shifts the requirement to develop and annually deploy statewide substance use prevention education materials from OSPI to the DOH.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

No fiscal impact to the Department of Children, Youth and Families (DCYF).

The bill does not directly name DCYF as a contributor to the campaign that the DOH and the OSPI must create. However, DCYF may be asked by these departments to help with knowledge and material concerning substance use prevention and treatment concerning opioids and synthetic opioids like fentanyl.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Summary of E2SHB 1956

Changes compared to SHB 1956

E2SHB 1956 updates language in section 2 to address the development of the drug overdose prevention campaign by the department. Section 3 adds collaborators for developing substance use prevention materials in schools. Adds new section 4-7, section 4 directs OSPI to collaborate and update health and physical education learning standards in middle and high schools. Section 5 highlights the emergent need and makes it effective immediately.

Section 2 – A new section is added to RCW 43.70

Revised language to include more information on the statewide drug overdose campaign developed by the department. Beginning June 30, 2025, the department must submit a report to the appropriate committees to summarize the message and mediums of the campaign.

Section 3 – A new section is added to RCW 28A.300.

(1) Updated language, the office of the superintendent of public instruction (OSPI) will collaborate with the department of health (DOH), the health care authority (HCA), other state agencies, and education service districts (ESDs) to develop substance use prevention materials.

Section 4 – New section

(1) OSPI shall collaborate with DOH, HCA, other state agencies and ESDs to develop classroom materials on the lethality of fentanyl in coordination with the public health campaign created in section 2. OSPI will make the materials available to school districts and public school.

(2) By December 1, 2025, OSPI shall adjust the state learning standards for health and physical education to add opioids to the list of drugs included in drug-related education. OSPI must make these materials available to school districts.

(3) This section expires July 1, 2026.

Section 5 – New section

This act is necessary and take effect immediately.

Section 6 – New section

If specific funding is not provided by June 30, 2024 in the omnibus appropriations act, this act is null and void.

Section 7 – New section

This act may be known and cited as the Lucas Petty act.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No impact to cash receipts. OSPI assumes the fiscal impact to school districts will be minimal, as OSPI is providing the materials and resources to be incorporated into current health education and drug prevention programs for students and families.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 3 – No fiscal impact to school districts. OSPI will develop materials for school and classroom use. OSPI will distribute the materials to school districts and strongly encourage districts to incorporate the materials into classroom learning.

Section 4 – No fiscal impact to school districts. OSPI will develop classroom materials on the lethality of fentanyl and make the materials available to school districts. OSPI will adjust the state health and physical educational learning standards for middle and high schoolers to include opioids in drug-related education. OSPI must make these materials available to school districts.

OSPI assumes the fiscal impact to school districts will be minimal, as OSPI is providing the materials and resources to be incorporated into current health education and drug prevention programs for students and families.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

No impact to capital.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.
