Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(2): A biometric age verification system may for the purpose of this title and for the purpose of procuring liquor, be relied upon by any licensee as evidence of legal age of the person using the biometric age verification system, provided the licensee complies with the conditions and procedures prescribed herein and such regulations as may be made by the board.

CHANGES MADE BY THE ESSB VS THE SB:

- Requires a liquor licensee that relies on a biometric age verification system to post a notice near its entrance and visible to the public that an ID card may be presented as evidence of legal age instead of participation in the system or when a liquor sale is separate from a physical point of sale location, the notice must be provided wherever consumers are directed to a biometric age verification system.
- Prohibits use of the data collected in the system for any purpose other than age verification for a liquor purchase, except that the transaction may include other purchases made at the same time with the liquor purchase.
- Provides that the violations of the act are subject to the consumer protection act and may only be enforced by the attorney general.
- Creates a definition section.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill addresses the use of biometric age verification by liquor licensees. The bill enables the use of a biometric age verification system as defined in RCW 19.375.010 for purposes of procuring liquor and outlines the considerations that must be taken into account for the system of verification.

Differences from SB 6179 to ESSB 6179: Changes made in ESSB 6179 do not impact on the Department of Licensing. The bill does not have a fiscal impact on the department.

The bill does not prescribe access to the department’s biometric information, which is used for identity verification purposes during driver’s license and identicard issuance. Therefore, the bill does not have an operational or information technology systems fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
