## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Comparison of SHB 1916 to HB 1916

SHB 1916

Adds Section 2 stating this act is null and void if specific funding for the purposes of this act, referenced by bill or chapter number, is not provided by June 30, 2024.

HB 1916

Section 1(2)(c) changes the definition of when a child is receiving early intervention services from: a child is receiving early intervention services if the child has received services within “a month prior to” the monthly count day, to “the same month as” the monthly count day, “which is the last business day of the month.”

### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None.

### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Department of Children, Youth and Families estimates \$4,291,000 GF-S in the 2024 Supplemental.

Direct Client Services:

\$4,291,000 GF-S in FY25, and each fiscal year thereafter to support the increased caseload (estimated at 2.8%) resulting from moving the monthly count day from the first business day of the month (under current DCYF rule) to the last business day of the month. This is the cost of an estimated additional average of 352 cases per year (based on 2.8% of the November 2023 FY25 caseload of 12,556), times the ESIT per capitated spending rate of \$12,195 per case (based on the FY25 Sped BEA Rate of \$10,604 times 1.15).
