Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2 of this bill adds a requirement to include a brief plain language summary of any proposed rule changes on each agencies' rule-making website.

The Office of Lieutenant Governor (LTG) currently maintains rule-making information on its website. LTG will include the rule-making summaries and hearing/procedures information as the bill requires. Section 1 defines what is intended by rule-making websites under this legislation.

Section 2 requires agencies' rule-making websites to include (a) complete text of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months, or include a direct link to the index page on the Washington State Register website, (b) a summary of no more than 100 words in plain language, and (c) the time, date, and place for the rule making hearing and the procedures and timelines for submitting written comments and supporting data must be posted on the website.

The Public Disclosure Commission (PDC) currently maintains rule-making information on its website. PDC will include the rule-making summaries and hearing/procedures information as the bill requires. PDC can absorb the workload within its current capacity with no fiscal impact.

The Washington State Leadership Board (WSLB) currently maintains rule-making information on its website. WSLB will include the rule-making summaries and hearing/procedures information as the bill requires. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Current law requires all agencies to have a link from their homepages to an agency rule-making page. The rule-making page must have the complete text of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months, or a direct link to the index page on the Washington State Register website that contains links to the information.

This bill would require agencies post on their rule-making pages summaries of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

No Fiscal Impact to the Office of the Secretary of State (OSOS).

OSOS engages in approximately 10 rule writing processes per year. The additional workload to prepare a 100 word summary of each action would be minimal, and could be absorbed within existing resources.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5835 requires agency rule-making websites to provide a plain-language description in 100 words or less of all proposed rules, emergency rules, and permanent rules proposed or adopted within the last 12 months.

The cost to the office is negligible, therefore this fiscal note reflects a no fiscal impact.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill requires state agencies to maintain a website containing the Agency's rule-making information. This website would include information on all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months. The Department of Financial Institutions (DFI) currently posts a rulemaking docket on its website that is available to the public. The changes that this legislation proposes would be feasible within existing resources. This bill would have no fiscal impact on DFI.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(1) amends RCW 34.05.270 that within existing resources, each state agency shall maintain a website that contains the agency's rule-making information with a direct link to the rule-making page on the homepage.

Section 1(2) describes the required contents, format and links of the rule-making page.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The activities stated in SB 5835 are already part of the departments normal operating procedures. The department currently meets most of Section 1(2)(b) requirements and may need to reduce the number of words in a few summaries and add additional rules proposed or adopted within the past 12 months. These changes will have minimal fiscal impact.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 would amend RCW 34.05.270 requiring agencies to include a brief plain language summary for any proposed rule changes on their agency website.

The Economic & Revenue Forecast Council (ERFC) currently maintains rule-making information on its website. ERFC will include the rule-making summaries and hearing/procedures information as the bill requires. ERFC can absorb the workload within its current capacity with no fiscal impact because rulemaking is infrequent.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Sec 1 (b) adds the requirement to include a plain language summary in 100 words or less for proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months to an agency's rulemaking website.

OFM can adapt the current website to have a space next to each proposed or adopted rule to include a short summary. Assuming the 100-word summary applies to each instance of rulemaking, and assuming past trends of about ten (10) instances of OFM rulemaking per year continues, this would add about ten (10) hours of additional work. The work can be absorbed within existing resources and therefore there is no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

There is no fiscal impact to the Lottery.

SB 5835 amends RCW 34.05.270 to require each state agency to include on its rule making webpage a summary of no more than 100 words in plain language of all rules proposed or adopted within the last 12 months.

Lottery makes the following assumptions:

- The 100-word limit applies to each rule package, not the aggregate of all rule making within the 12-month period.
- Lottery will have an average of 2-3 rule making packages per year.
- Creation of each summary will take approximately 1 hour by a Management Analyst 4, for a total of 2-3 hours.
- Posting each summary will take approximately .5 hour by a Communications Consultant 5, for a total of 1-1.5 hours.

This work can be completed within existing resources.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill would amend RCW 34.05.270(2) to require agency rule-making websites to also include: “a summary of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months.”

This change does not have a cost impact on the Department of Retirement Systems (DRS) as DRS is already sharing this information in plain language on our DRS Rules Center web page.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Washington State agencies are currently required to maintain a rule-making web page containing the complete text of all proposed rules, emergency rules, and permanent rules proposed or adopted within the last 12 months. This bill would require agencies provide a plain-language description in 100 words or less for each of these rules on this web page.

The State investment Board does not foresee any fiscal impacts related to the proposed legislation.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

No Fiscal Impact: Because the Commission is a non-appropriated, non-allocated agency, all the costs associated with the contemplated legislation connected to the Commission will flow through the Commission's operating funds, therefore the Commission believes it has no fiscal impact on the state's budget.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(2)(b) requires state agency rule-making websites to provide a plain-language description of 100 words or less of all proposed rules, emergency rules, and permanent rules proposed or adopted within the last 12 months.

The Office of Insurance Commissioner does not anticipate a substantial change in how it electronically posts its rule-making descriptions. Therefore, no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The bill adds an element to the type of information each state agency must include on its rule-making website.

Sec. 1. (2)(b) Requires each state agency's rule-making website to also include a summary of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No cash receipt impact.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The bill will have minimal workload impacts on Consolidated Technology Services (WaTech). Sec. 1. (2)(b) Requires each state agency's rule-making website to also include a summary of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months.

There is no fiscal impact from this bill to WaTech. It is assumed WaTech can absorb the costs for this proposed bill in its base budget if the workload of other enacted legislation does not exceed current staffing levels.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 would amend RCW 34.05.270 requiring agencies to include a brief plain language summary for any proposed rule changes on their agency website.

The State Board of Accountancy (BOA) currently maintains rule-making information on its website. BOA will include the rule-making summaries and hearing/procedures information as the bill requires. BOA can absorb the workload within its current capacity with no fiscal impact because rulemaking is infrequent.

II. B - Cash receipts Impact

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 would amend RCW 34.05.270 requiring agencies to include a brief plain language summary for any proposed rule changes on their agency website.

The Forensic Investigation Council (FIC) is a small state agency with no state employees. Council membership is appointed by the Governor from among Washington's various coroners, prosecutors, attorneys, medical examiners, sheriffs, police, pathologists, and city and county legislative authorities. The Council does not currently have a website and does not have staff or monetary resources to maintain a website. In order to comply with the requirements of the bill the agency would need to create and maintain a website.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The FIC does not currently have a website. To come into compliance with this bill would require the agency to build a website and maintain it.

Assuming on-going services could be provided by WaTech, WaTech Small Agency IT Support charges \$1,276 per FTE per month. FIC does not have FTE because they don't have paid staff. For the purposes of the fiscal note, it is assumed the equivalent of 2 FTE will cover WaTech's cost to provide services. $\$1,276 \times 12 \text{ months} \times 2 \text{ FTE} = \$30,624$ per year, ongoing. This includes a comprehensive IT support service to include IT security support, end user equipment (laptop, monitors, etc.), M365 licensing, Infrastructure support (network, endpoint management, identity management, etc.) and IT consulting.

Website software is estimated at \$150 per year, ongoing.

Creation of the website is estimated at \$10,000, one-time.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 amends RCW 34.05.270 and 209 c 93 s 1 by adding Section 1(2)(b) requiring that a summary of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months be posted to the agency's rule-making page on the agency's homepage.

The Department of Enterprise Services (DES) currently posts rule-making activity, including a summary of proposed and adopted rules over the past 12 months, on the agency website (des.wa.gov). The proposed legislation would require DES to modify the State Building Code Counsel website (sbcc.wa.gov) to comply with this new section. The work associated with adding the required summary could be done within existing resources.

There is no fiscal impact to the Department of Enterprise Services.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 would amend RCW 34.05.270 requiring agencies to include a brief plain language summary for any proposed rule changes on their agency website.

The Board of Pilotage Commissioners (BPC) currently maintains rule-making information on its website. BPC will include the rule-making summaries and hearing/procedures information as the bill requires. BPC can absorb the workload within its current capacity with no fiscal impact because rulemaking is infrequent.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Pursuant to RCW 34.05.270, agencies are already required by state law to maintain websites describing their rulemakings over the last 12 months. This bill would require agencies to also provide a concise summary of each rulemaking, in plain English and in 100 words or less, for each rulemaking.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

This would not entail any purchases or expenditures per se, but it would involve a minimal amount of staff time. It is anticipated that this would require a total of approximately 3 hours of time each calendar year for an ALJ to summarize each rulemaking occurring over the last 12 months. This would be a relatively de minimis task. Posting the summaries to the existing rulemaking website and adding space for these summaries are not anticipated to have any material impacts, either.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This measure requires agencies to maintain and update any rulemaking to their website. With the agency involved in limited rulemaking, occasional updates to the website will not have an fiscal impact to FTE's or Operations to the agency.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

There is no fiscal impact from this bill to the Washington State Patrol.

Per Section 1, each agency will add a summary of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months. This must be included on a website that the agencies are already required to maintain within existing resources that contains the agency's rule-making information.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

We are required to maintain the website referenced in the bill within agency resources. There would be a workload impact from this bill, but it is very minimal, perhaps ten minutes for each entry and a small amount of time for a webmaster to post the changes.

The Office of Independent Investigations (OII) recently hired a rules coordinator to do this work. The work described in this bill will be part of OII's routine process of developing rules.

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Senate Bill 5835 requires a state agency's rule-making websites to provide a plain-language description in 100 words or less of all proposed rules, emergency rules, and permanent rules proposed or adopted within the last 12 months. PERC anticipates no fiscal impact as a result of the SB 5835 requirements.

Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Bill amends RCW by adding language that would require agencies to have a direct link on their homepage that would provide a summary of proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months in no more than 100 plain language words.

This bill has no fiscal impact for the Department of Services for the Blind (DSB). DSBs Communications Manager would carry out this activity within existing resources.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Washington State agencies are currently required to maintain a rule-making web page containing the complete text of all proposed rules, emergency rules, and permanent rules proposed or adopted within the last 12 months. This bill would require agencies provide a plain-language description in 100 words or less for each of these rules on this web page.

This additional work would be performed by the Washington Student Achievement Council (WSAC) using existing resources.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2 of Senate Bill 5835 would require agencies to include a brief plain language summary of any proposed rule changes on the agencies' rule-making websites.

The Law Enforcement and Fire Fighters Plan 2 Board (LEOFF) currently maintains rule-making information on its website. LEOFF will include the rule-making summaries and hearing/procedures information as the bill requires. LEOFF can absorb the workload within its current capacity with no fiscal impact because rulemaking is infrequent.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Summary of SB 5835

Section 1 amends RCW 34.05.270

(1) Within existing resources, state agencies shall maintain a website that contains the agencies rule making information, accessible through a direct link on the agency's homepage.

(2) The rule-making website shall include:

(b) A summary of less than 100 words in plain language of all rules proposed or adopted within the past 12 months.

(c) For rule-making hearings, the time, date, and location must be posted to the website along with procedures and timelines for submitting comments or supporting data.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 1(b) A summary of less than 100 words in plain language of all rules proposed or adopted within the past 12 month:

The bill state in section 1 (1) to use existing resources to maintain the agencies rule making website. However, there would be a fiscal impact to OSPI. The summary updates to the website would require approximately 12 hours of work annually by the Rules Coordinator, costing, \$2,000 per year.

Rules Coordinator annual expense \$185,000

12 hours / 2080 annual hours = .01

$\$185,000 \times .01 = \$1,850$

Part II: Narrative Explanation

The Workforce Board has limited rulemaking activity and can absorb this change within existing duties. No fiscal impact.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2 of this bill adds a requirement to include a brief plain language summary of any proposed rule changes on each agencies' rule-making website.

The Department of Archaeology and Historic Preservation (DAHP) currently maintains rule-making information on its website. DAHP will include the rule-making summaries and hearing/procedures information as the bill requires. DAHP can absorb the workload within its current capacity with no fiscal impact because rulemaking is infrequent.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 concerns transparency in rule-making. It requires a summary of no more than 100 words in plain language be published on the relevant agency's rule-making website for all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months.

The University of Washington (UW) currently maintains a rule-making website. The costs of complying with the new requirements in SB 5835 should be minimal and can be absorbed using existing resources. Therefore, there is no fiscal impact to the UW from this measure.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

WSU does not expect a fiscal impact due to this bill.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5835 requires each state agency to maintain a website that contains the agency's rule-making information and adds a section to RCW 34.05.270 to include the following requirement on the website:

(b) A summary of no more than 100 words in plain language of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months.

It is estimated that minimal time will be needed to maintain this information. As the text is limited to WAC changes (not all policy changes), we estimate this would take 10 hours of time per year, estimated costs of \$1,000 per year.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

AN ACT Relating to transparency in rule making; and amending RCW 34.05.270.

Section 1: Amending RCW 34.05.270 and 2009 c 93 s 1 to read as follows: Separating the paragraph of RCW 34.05.270 into subsections. (2)(b) A summary with a maximum of 100 words in plain/understandable language of all proposed rules, emergency rules, and permanent rule proposed/adopted within the past 12 months will need to be included on the rule-making website.

CWU anticipates a very minimal effort necessary to update language on our website. This effort will be absorbed within existing resources and therefore results in no fiscal impact to comply with this bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5835 relates to transparency in rule making.

Section 1.2(b) requires all state agencies to provide, on their rule-making information web page, a summary of no more than 100 words in plain language of all rules proposed or adopted within the past twelve months.

The other requirements of RCW 34.05.270 would remain the same, although the sections have been reformatted.

There would be no fiscal impact to the college, as meeting the new requirement would only require a minor adjustment to the college's rule-making docket, which can be accomplished within existing resources.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. The university will absorb the associated costs to fulfill the requirement of adding a summary to all rules, emergency rules, and permanent rules proposed or adopted within the last 12 months within existing resources and will utilize current agency capabilities for website maintenance in Section 1-2(b).

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill adds a requirement for state agencies to add a short (100 words or less) summary in plain language of all proposed, emergency, or adopted rules on the agency website.

We expect that the work to complete these summaries and post them on the website would be closely aligned to work already being completed by the agency. The agency anticipates no fiscal impact as a result of this bill.

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 would amend RCW 34.05.270 requiring agencies to include a brief plain language summary for any proposed rule changes on their agency website.

The Eastern Washington State Historical Society (EWSHS) currently maintains rule-making information on its website. EWSHS will include the rule-making summaries and hearing/procedures information as the bill requires. EWSHS can absorb the workload within its current capacity with no fiscal impact because rulemaking is infrequent.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Part II: Narrative Explanation

II. A - Brief description of what the measure does that has fiscal impact

Briefly describe by section number (sections that will change WSDOT costs or revenue), the significant provisions of the bill, and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency. List the sections that have fiscal impact to WSDOT only. E.g., "Section 3 directs the Department to ..." No summarizing, no interpreting, and save any background context for the revenue and expenditure parts.

Senate Bill (SB) 5835 proposes to amend RCW 34.05.270 an act relating to transparency in rule making.

Adds Section 1 (2)(b) that directs each state agency to add a plain talk summary of 100 words or less to all rules proposed, emergency, or permanent rules that have been or adopted within the past year required to be listed on the agencies rule making website proposed or adopted within the past year

As written, SB 5835 would have no fiscal impact to the Washington State Department of Transportation because the effect of the bill would be the addition of a plain language summary to the website. The plain language summary is already created during the rulemaking process, so adding it to the website is the only additional work. The time involved for the Business Support Services staff to add it to the website is negligible.

II. B – Cash Receipts Impact

Section-by-section, briefly describe and quantify the cash receipts impact of the legislation on WSDOT. Explain how you calculated the cash receipts and any assumptions. Show only revenues collected by WSDOT that are new to the state, not re-directed from another agency.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5835 would require state agencies to maintain a website that contains the agencies rule-making information, including the complete text of all proposed rules, emergency rules, and permanent rules proposed or adopted within the past 12 months, along with a summary of no more than 100 words for each.

The Washington State Transportation Commission's (WSTC) currently makes this information available on its website, and therefore foresees no fiscal impact to our agency as a result of this legislation.

II. B - Cash receipts Impact

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(2)(b-c) requires a plain language summary of proposed rules proposed or adopted in the last 12 months, along with the time and place of the rule making hearing, and the procedures and timelines for submitting written comments be posted to the Washington State Register website.

There is no fiscal impact from this bill. The Freight Mobility Strategic Investment Board staff will update all Washington Administrative Code (WAC) rules through communication with the Office of the Code Reviser as a matter of routine.

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Currently, under RCW 34.05.270, Ecology must maintain a website that contains information on rulemakings filed within the past 12 months and include the time, date, and place for hearings and procedures relating to proposed rules.

Section 1 of this bill would amend RCW 34.05.270 to require a summary of no more than 100 words in plain language of all proposed, emergency, and permanent rules proposed or adopted within the past 12 months on the rulemaking website.

The additional requirement proposed in this bill would reinforce existing practices and would not require any additional resources to implement. Therefore, there would be no fiscal impact to Ecology.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5835 amends RCW 34.05.270 of the Administrative Procedures Act to add the requirement that agencies post on their rulemaking website a short description written in plain language for all rules for the last 12 months.

This requirement has no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

1. Amends RCW 34.05.270 (Agency Websites for Rule-Making Information) in the correct legislative formatting style.
2. Subsection 2(b) is added to require a summary of no more than one hundred (100) plain language format for proposed rules, emergency rules, and permanent rules proposed within the past twelve (12) months.

The proposed bill was reviewed, and it was determined that it would have minimal workload and fiscal impact for EFSEC. We assume that the need to update the plain language rule-making summary would be relatively infrequent. This is based on the standard timeline of rule-making changes as outlined in RCW 34.05 (Administrative Procedures Act). Additionally, the staff responsible for updating our public website is already trained and could make the necessary edits. We do not foresee any notable fiscal impacts.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The proposed legislation would require agencies to publish on their public facing website a page detailing proposed or adopted rule changes.

Section 1(2)(b) - Requires agencies to post a summary in less than 100 words and in plain language proposed or adopted rule changes in the past 12 months.

Parks has minimal proposed or adopted rules changes. The fiscal impact to Parks would be marginal and easily absorbed with current funding.
