Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Note: This fiscal note reflects language in SHB 1453 as passed in the 2024 Legislative Session.

CURRENT LAW:

The law imposes a cannabis excise tax of 37% of the selling price on each retail sale.

PROPOSAL:

Until June 30, 2029, this bill provides an exemption from the cannabis excise tax for medical cannabis patients.

EFFECTIVE DATE:

The bill takes effect 90 days after the final adjournment of the session.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This legislation results in no revenue impact on taxes administered by the Department of Revenue (department).

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The department will not incur any costs with the implementation of this legislation.

Part III: Expenditure Detail

III. A - Expenditures by Object Or Purpose

NONE

III. B - Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

NONE

III. C - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

Part V: New Rule Making Required

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(2):

- (a) Until June 30th, 2029, the tax levied by RCW 69.50.535 (37% cannabis excise tax) does not apply to sales by a cannabis retailer with a medical cannabis endorsement to qualifying patients or designated providers who have been issued a recognition card, of cannabis concentrates, useable cannabis, or cannabis-infused products, identified by the Department of Health as a compliant cannabis product in chapter 246-70 WAC and tested to the standards in WAC 246-70-040.
- (b) Each seller making exempt sales under this subsection (2) must maintain information establishing eligibility for the exemption in the form and manner required by the board.
- (c) The board must provide a separate tax reporting line on the excise tax form for exemption amounts claimed under this subsection (2).

CHANGES MADE BY THE FLOOR AMENDMENT (PASSED):

Section 1(2a): Expires the cannabis excise tax exemption for medical cannabis patients and designated providers on June 30th, 2029 (rather than January 1, 2034).

Section 2: requires a tax preference performance review by the joint legislative audit and review committee and requires an initial report to the legislature by December 1, 2028 (rather than December 1, 2029).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This bill would exempt qualifying patients, or their designated providers, that have been issued a recognition card, from the 37% cannabis excise tax on purchases of Department of Health (DOH) compliant cannabis products (as defined in WAC 246-70) and tested to the standards in WAC 246-70-040, when purchased at a cannabis retailer with a medical cannabis endorsement. Currently the testing standards set by DOH include testing for pesticides, heavy metals, and mycotoxins. This exemption expires June 30th, 2029.

Current DOH policy states that for purposes of the sales and use tax exemption, any cannabis product purchased by a qualifying patient with a recognition card is "compliant cannabis product." This bill takes that one step further and requires that cannabis products meet the testing standards in WAC 246-70-040 to qualify for the excise tax exemption. In 2022, approximately 12,000 cards were created in the database (this includes both new cards and renewals as the cards need to be renewed each year).

LCB analysis shows about 1% of FY22 sales were retail sales tax exempt (made to cardholders). In fact, the percentage of tax-exempt sales appears to be declining almost every year since 2017. See the attached chart "Sales-tax exempt sales as a percentage of total sales.pdf".

By creating an exemption from the 37% cannabis excise tax, this policy creates an incentive for more customers to obtain a recognition card to take advantage of the savings. Assuming there is a demand for product that meets the DOH testing standards, and the supply meets the demand, then there is the potential that there could be a significant negative impact to cannabis excise tax revenue. For context, cannabis excise tax revenues were \$511.1 million in FY22. If 1% of those sales were products to recognition card holders that met the DOH testing standards, then the revenue loss would be \$5.1 million per year until June 30th, 2029.

That being said, it is unknown how much more cannabis product would be produced that meets the standards of WAC

246-70-040 and how many more patients would take advantage of the excise tax exemption. The potential exists however, for the impact on cannabis excise tax revenues to be significant.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ENFORCEMENT DIVISION:

The Washington State Liquor and Cannabis Board ("Board") keeps detailed statistics on all of its enforcement activities and tracks this activity using a unit of measure called a Field Increment (FI). All direct enforcement activities such as premise checks, inspections and investigations are tracked to determine how many FI's are needed to accomplish each activity. Each FI is equivalent to 1 /10th of an hour (6 minutes). For example, if a tavern premise check takes 2 FI's and two officers, it is anticipated that one check will consume 4 FI's. Using historical data to factor out indirect activities such as driving time, training, office time and leave, it has been determined that officers are available for an average of 4,220 FI's each year.

Please see the attached "1453 SHB.PL Medical Cannabis Tax Enforcement Field Increment Calculator.pdf" for the workload calculations.

Based on 478 cannabis retailers, audits, complaint investigations and support and education would be conducted by the Enforcement Division requiring:

0.2 FTE LCB Enforcement Officer 2 - \$24,571/yr (\$21,399 salary/benefits, \$3,172 in associated costs).

This workload would no longer be required after June 30th, 2029 (the expiration of the tax exemption).

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

| Account | Account Title | Type | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |
