OFM Review:	Amy Hatfield	Phone: (360) 280-7584	Date: 01/14/2025

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Department of Health (DOH) staff provide technical assistance and community support when problem landfills or other covered facilities impact air quality or generate community health concerns. Better regulation may result in fewer problems that require our response which may create cost savings for DOH allowing resources to be directed towards other public health needs.

No fiscal impact for the agency.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

N/A

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

N/A

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Chapter 70A.205 RCW establishes the current statutory framework governing solid waste handling and places primary authority for facility permitting on jurisdictional health departments (JHDs). The existing statute gives the Department of Ecology (Ecology) a consultative role during permitting and gives Ecology authority to appeal the issuance of a permit in certain circumstances. Under current statute, enforcement authority given to JHDs and Ecology is very limited. JHDs typically rely on local ordinances for their solid waste enforcement authority.

This bill would amend chapter 70A.205 RCW to require Ecology approval of proposed solid waste landfilling permits and authorizes Ecology to require amendments by JHDs to proposed permits for solid waste landfilling activities, prior to permit issuance. Ecology's role in permitting of other types of solid waste facilities would remain unchanged. This bill also establishes new authority for JHDs and Ecology to enforce compliance with applicable rules and permit conditions for all types of permitted solid waste facilities.

Section 2 would require every proposed solid waste landfill permit issued by a JHD to require Ecology's review and approval. This bill would not explicitly direct Ecology to conduct any rulemaking; however, Ecology believes that revisions to the rules governing solid waste facility permitting, chapter 173-350 WAC and chapter 173-351 WAC, would be necessary to incorporate the new requirement for Ecology's approval, denial, or amendment of proposed permits for solid waste landfills

Section 5(1)(a) would authorize Ecology to impose civil penalties not to exceed $10,000 per day of non-compliance with the requirements of the statute or the facility's solid waste permit. Sec. 5(3) directs that penalties levied by Ecology would be deposited in the Model Toxics Control Act (MTCA) operating account.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

The cash receipts impact to Ecology under this bill is estimated to be less than $50,000 each fiscal year for revenue that would be collected as specified in section 5.

Section 5 would allow Ecology to impose civil penalties on solid waste handling facilities found to be in violation of the requirements of chapter 70A.205 RCW. Revenue from penalties levied by Ecology must be deposited in the model toxic control operating account (MTCA). Penalty revenue is assumed to be limited, but unknown, and therefore is not estimated in this fiscal note.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The expenditure impact to Ecology under this bill is estimated to be greater than $50,000 in Fiscal Years (FY) 2026 and 2027 to implement the requirements of sections 1 and 2.

Provided the review work on permit issued conducted by Environmental Specialist 5s are currently funded out of Model Toxics Control Operating Account (MTCA), Ecology assumes rulemaking work identified in this fiscal note would also be funded out of MTCA.

Section 1

Section 1 would amend RCW 70A.205.125 and 2016 c 119 s 4 to require that Ecology make an explicit approval, denial, or amendment of a proposed solid waste landfill permit prior to the local health department issuing the permit. Ecology assumes that revisions to the rules governing solid waste facility permitting, chapter 173-350 WAC and chapter 173-351 WAC, would be necessary to incorporate the new requirement for Ecology's approval of proposed permits for solid waste landfills.

The impact to Ecology regional staff workload, which includes correspondence with local health departments conveying Ecology's approval, denial, or direction to amend proposed permits for landfills, as well as the resolution with the JHD of any such amendments that Ecology deems necessary is estimated to be negligible. Ecology regional staff already perform reviews of permit applications and proposed permits, provide local health departments with Ecology's findings regarding proposed permits, and make decisions on whether to appeal the issuance of a permit under the existing regulatory framework, using the same criteria which the bill identifies. Ecology assumes changing the nature of work from appealing and providing feedback on a permit already issued, to reviewing permit applicants for approval, denial or amendment recommendations prior to their issuance would require similar resources and skillsets.

Section 2

Section 2 would amend RCW 70A.205.130 and 2020 c 20 s1173 to require Ecology to review and approve every permit issued by JHD to ensure that the proposed landfill confirms with all applicable laws, approved comprehensive solid waste management plan and minimum functional standards. The particulars of the review and approval process such as the date to review by and the criteria for the minimum functional standards are not specified. Given both WAC 173-350 and WAC 173-351 (Solid Waste Handling Standards and Criteria for Municipal Solid Waste Landfills) would need to be updated, Ecology assumes one rulemaking would be required to establish these details as well as codify penalties into both WACs. Ecology assumes the rulemaking would be moderately complex and generate public interest and input. It would require eighteen months, which includes a three-month active lead time to coordinate the rulemaking schedule with the agency rulemaking unit, prepare a website, and prepare the CR-101 for filing. Ecology assumes we would develop an Environmental Justice Assessment in FY 2026 as required under the HEAL Act, Chapter 70A.02 RCW.

Rulemaking would begin October 1, 2025, with the filing of the CR-101, with rule adoption on March 31, 2027, and the rules taking effect 30 days after on April 30, 2027. This type of rulemaking would include two preproposal meetings to gather input from interested parties, and two public hearings to accept comments on the rule proposal.

Rulemaking Administrative Coordinator: A Regulatory Analyst 3 (RA3) would oversee the rulemaking process to comply with the Administrative Procedures Act; coordinate with the rulemaking lead to prepare the rule development and communication plan; coordinate with the agency regulatory staff on the economic and regulatory impact analysis, and support filing the CR-101, CR-102, and the CR-103 for adoption. This would require an estimated workload of 0.15 FTE in FY 2026 and 0.10 FTE in FY 2027.

Rulemaking Lead: An Environmental Planner 4 (EP4) would provide policy expertise and lead the rulemaking effort, draft and revise rule language, lead public meetings and hearings, and work with other program staff as needed to execute the rule development plan, with an estimated workload of 0.50 FTE in FY 2025 and 0.50 FTE in FY 2027.

Rulemaking Technical Support: An Environmental Specialist 4 (ES4) would collect data, support analysis of potential policy outcomes, provide support to the rulemaking lead and subject matter experts, and coordinate with communications staff to provide technical support for public outreach. This includes any needs for regional support. This would require 0.25 FTE in FY 2026 and 0.25 FTE in FY 2027.

Communications and outreach support would be necessary to ensure adequate public engagement in the rulemaking process. The following positions would support public engagement:

Communications Lead: A Communications Consultant 5 (CC5) would coordinate an outreach strategy and media

engagement. This would require 0.08 FTE in FY 2025 and 0.05 FTE in FY 2026.

Environmental Justice Lead: An Environmental Planner 4 (EP4) would review the impacts of rulemaking to equity and environmental justice. This would require 0.20 FTE in FY 2026 and 0.20 FTE in FY 2027.

Website Developer: A Communications Consultant 3 (CC3) would coordinate with the rulemaking lead on a public website for the rulemaking process. This would require 0.08 FTE in FY 2026 and 0.05 FTE in FY 2027.

Rulemaking Outreach Coordinator: A Community Outreach and Environmental Education Specialist 3 (COEES3) would facilitate the pre-proposal and other meetings, manage the rule comments platform, and help with e-mail, website, and public engagement. This would require 0.08 FTE in FY 2026 and 0.10 FTE in FY 2027.

The following positions would complete an economic and regulatory analysis of the rule: Economic Analyst 3, 0.20 FTE in FY 2027; Regulatory Analyst 2, 0.05 FTE in FY 2027.

Ecology would hold two meetings in FY 2026, and two hearings in FY 2027. Facility rental costs are estimated at $1,000 per meeting for $2,000 each year in FY 2026 and FY 2027. Facility rental costs are included in Goods & Services – Object E.

Ecology would hire a third-party facilitator to facilitate the meetings. The rate per meeting is estimated to be $3,000 for a total cost of $6,000 each year in FY 2026 and FY 2027. Third-party facilitator costs are included in Professional Service Contracts – Object C.

Section 5

Section 5 would require Ecology regional staff to conduct enforcement activities when solid waste handling facilities are found out of compliance with chapter 70A.205 RCW. This work would depend on the degree of noncompliance by a facility and the willingness of a local health department to wield its own enforcement authorities under the bill. Punitive work is assumed to be limited, but unknown, and therefore is not estimated in this fiscal note.

SUMMARY: The expenditure impact to Ecology under this bill is as follows:

Rulemaking to update WAC 173-350 and 173-351 is estimated to require:
FY 2026: $232,484 and 1.5 FTEs.
FY 2027: $260,933 and 1.7 FTEs.

THE TOTAL EXPENDITURE IMPACT to Ecology under this bill is estimated to be:
FY 2026: $232,484 and 1.5 FTEs.
FY 2027: $260,933 and 1.7 FTEs.

Notes on costs by object:

Salary estimates are current biennium actual rates at Step L.
Benefits are the agency average of 33.7% of salaries.
Professional Service Contracts are estimated to be $6,000 in FY 2026 and $6,000 in FY 2027. Professional Service Contracts includes third-party meeting facilitation.
Goods and Services are estimated to be $9,439 in FY 2026 and $10,328 in FY 2027. Goods and Services costs include facility rental costs, as well as the agency average of $5,552 per direct program FTE.
Travel is the agency average of $2,398 per direct program FTE.
Equipment is the agency average of $1,074 per direct program FTE.
Agency Administrative Overhead is calculated at the federally approved agency indirect rate of 29.9% of direct program salaries and benefits, and is shown as object 9. Agency Administrative Overhead FTEs are included at 0.15 FTE per direct

program FTE, and are identified as Fiscal Analyst 2 and IT App Development - Journey.

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Section 1 would amend RCW 70A.205.125 and 2016 c 119 s 4 to require that Ecology make an explicit approval, denial, or amendment of a proposed solid waste landfill permit prior to the local health department issuing the permit. Ecology assumes the rules governing solid waste facility permitting, chapter 173-350 WAC and chapter 173-351 WAC, would need to be amended to establish procedures and timelines for Ecology's action under this requirement on proposed permits for solid waste landfills in the permitting process.

LOCAL GOVERNMENT FISCAL NOTE

Department of Commerce

Bill Number: 1154 HB	**Title:** Solid waste handling

Part I: Jurisdiction-Location, type or status of political subdivision defines range of fiscal impacts.

Legislation Impacts:

- [ ] Cities:
- [X] Counties: Jurisdictional health departments
- [ ] Special Districts:
- [ ] Specific jurisdictions only:
- [ ] Variance occurs due to:

Part II: Estimates

- [ ] No fiscal impacts.
- [ ] Expenditures represent one-time costs:
- [ ] Legislation provides local option:
- [X] Key variables cannot be estimated with certainty at this time: decrease in expenditures for appeals due to the removal of JHD in the appeal process; Increase in JHD expenditures due to the legislations new permit violation reporting requirements; increase in JHD revenue because of the expanded permit violation enforcement

Estimated revenue impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Estimated expenditure impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Part III: Preparation and Approval

Leg. Committee Contact: Matt Sterling	Phone: 360-786-7289	Date: 01/08/2025
Agency Approval: Allan Johnson	Phone: 360-725-5033	Date: 01/16/2025
OFM Review: Lisa Borkowski	Phone: (360) 742-2239	Date: 01/18/2025

Part IV: Analysis

A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

Overview: This legislation would require the Washington state Department of Ecology (DOE) to approve any permit that a jurisdictional health department (JHD) find should be issued for the operation of a new or modified solid waste handling facility (SWHF). Additionally, this legislation would expand the current JHD authority on enforcing SWHF permit violations.

Sec. 1 (Amends RCW 70A.205.125)
Adds language to subsection (4) which would require the Washington state Department of Ecology (DOE) to approve any permit that a jurisdictional health department (JHD) find should be issued for the operation of a new or modified solid waste handling facility (SWHF).

Sec. 2 (Amends RCW 70A.205.130)
Adds language that would convert
Adds language to subsection (1) that would make permits issued under subsection (4) exempt from DOE review required by subsection (1).
Adds language which would add a new subsection (4) (a-d), these new subsections would outline the review and approval requirements for DOE approval of proposed landfilling permits issued by a JHD.

Sec. 3 (Amends RCW 70A.205.135)
Adds language to subsection (1) which would exempt SWHF other than landfills from DOE's review and appeal of permits.
Adds language to subsection (1) that would require DOE to review and approve or disapprove the renewal of permits for landfill disposal facilities in accordance with RCW 70A.205.130 (4).

Sec. 4 (Amends RCW 70A.205.140)
Adds language to the section that would allow DOE or the JHD to determine if a site or the operation of a SWHF located on the site are in violation of this chapter, DOE regulations, the rules of the department of agriculture, or local laws and regulations.

Sec. 5 (Adds New Section to RCW 70A.205)
Subsection (1) would allow JHD or DOE to:
(a) Impose a civil penalty of up to $10,000 per day of operating a solid waste handling facility in violation of this chapter or a permit issued under this chapter.
(b) Issue a SWHF operating in violation of this chapter or a permit issued under this chapter an order requiring compliance. A person who fails to take corrective action would be liable for civil penalty in in (a) of this subsection.
Subsection (2) (a) would require DOE to notify JHDs by letter if DOE intends to enforce the SWHF requirements of this chapter.
Subsection (2) (b) would establish that any penalty imposed on a SWHF owner or operator must be reduced by the amount of any prior penalty paid to a different government entity for a violation based on the same incident and conduct.
Subsection (2) (C) would require a SWHF owner or operator to provide the JHD or DOE with the information necessary to determine compliance with the requirements of this chapter upon receipt of an order.
Subsection 2 (D) would require an applicant or permittee must allow the jurisdictional health department and department to conduct inspections and collect samples.
Subsection (4) would allow a person issued an order or incurs a penalty from a JHD or DOE to appeal the order or penalty to the pollution control hearings board.

Sec. 6 (Adds New Section to RCW 70A.205)
This section would require JHD to transmit to DOE a list of any violations of the requirements of this chapter historically or currently identified by the JHD with respect to each solid waste facility that is currently operating in the jurisdiction.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

This legislation would have an indeterminate expenditure impact on jurisdictional health departments (JHD).

There would be an indeterminate increase in JHD expenditures because this legislation would implement new permit violation reporting requirements that JHD would have to train existing staff on. JHDs could expect to see an indeterminable decrease in expenditures due to the legislations removal of JHDs from the permit and permit violation appeal process.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

This legislation would have an indeterminate revenue impact on jurisdictional health departments (JHD).

There would be an indeterminate increase in JHD revenue because this legislation would expand JHD permit violation enforcement. This expanded ability for JHDs to enforce solid waste handling facility (SWHF) permit violations would allow JHDs to impose a $10,000 per day civil penalty on SWHFs that violate the terms of their permit or order for required compliance.
