Request #	1
Bill #	1370 HB

Part 2 – Explanation

This bill creates a Mount St. Helens license plate. Proceeds from the Mt St. Helens special plate will be used to promote education, stewardship, and science at Mount St. Helens through the Mount St. Helens Institute. Effective date is November 1, 2025.

2.A – Brief Description Of What The Measure Does That Has Fiscal Impact

Sec. 1 – Amends RCW 46.18.200 to require the special plate to display an image of Mount St. Helens.

Sec. 2 – Amends RCW 46.17.220 to create the Mount St. Helens special plate and fees (\$40 for initial and \$30 for renewal).

Sec. 3 – Amends RCW 46.68.420 to add conditions for use of funds for this special plate are to promote education, stewardship, and science at Mount St. Helens through the Mount St. Helens institute.

2.B - Cash receipts Impact

The Department of Licensing makes the following assumptions regarding this bill.

Standard special plate definition/criteria:

- Anyone can buy the specialty plate for use on a vehicle registered to that person.
- Specialty plates can be used on motor vehicles, trailers and motorcycles.
- All customers pay the same specialty plate fee.
- The special plate and vehicle expirations match.
- Specialty plate license fees, minus DOL's portion, go to a single account.
- Specialty plates are renewed annually with the vehicle.
- Specialty plates are transferable.

This bill creates a special license plate and establishes fees of \$40 for an original, \$30 for a renewed plate, and establishes the distribution of those fees.

If this bill becomes law, it will allow vehicle owners the option to choose a new type of specialty license plate for their vehicle in lieu of the standard issue plate. There is no information available, and it is not known how many of these new specialty plates might be purchased. The total revenue impact is indeterminate.

However, based on historical purchase data of all special plates, the following sales estimates below could occur:

	FY26	FY27	FY28	FY29	FY30	FY31
Original Plates	1,198	670	651	481	326	345
Renewal Plates	-	1,032	1,461	1,797	1,973	1,981
Total	1,198	1,702	2,112	2,278	2,299	2,326

2.C – Expenditures

RCW 46.18.140 requires special license plate sponsoring organizations to either pay all start-up costs to DOL for deposit to the motor vehicle fund before creating a special license plate series or that DOL may keep all special license plate revenue until such time that DOL's startup costs are fully reimbursed.

Program Costs:

DOL requires a Licensing Services Representative 1 to process plate application requests. It takes approximately 7.5 minutes per plate application to process. Based on estimated plate demand and associated workload factors will require .14 FTE in the first fiscal year and .07 FTE on-going.

DOL requires a Licensing Services Representative 3 to review and approve plate applications and to provide general supervision of staff. Based on estimated plate demand and associated workload factors will require .03 in the first fiscal year .01 FTE on-going.

Information Services:

The vehicle licensing component of DRIVES modernization was successfully implemented in December 2016. Completed IT system improvements will reduce DOL's workload related to implementing standard special (non-complex) license plates. DOL has determined that up to five standard special plates can be implemented per legislative session without additional IT costs. However, if DOL is required to implement six or more standard special plates, staff capacity is not sufficient, and it would be necessary to contract required IT system changes out to a vendor at the cost of \$21,800 per special plate.

Support Services:

Agency Administrative Overhead is included at a rate of 24.8 percent of the direct program costs. This funding received covers agency-wide functions such as vendor payments, contract administration, financial management, mail processing, equipment management, help desk support, and technical assistance to DOL employees. These indirect costs are shown under object E.
