## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

HB 1596 creates the intelligent speed assistance device revolving account and allows the account to retain its earnings from investments.

There will be some de-minimis work for OST which can be completed within current practices and resources.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part III: Expenditure Detail

### III. A - Operating Budget Expenditures

NONE

### III. B - Expenditures by Object Or Purpose

NONE

**III. C - Operating FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

### III. D - Expenditures By Program (optional)

NONE

## Part IV: Capital Budget Impact

### IV. A - Capital Budget Expenditures

NONE

### IV. B - Expenditures by Object Or Purpose

NONE

### IV. C - Capital Budget Breakout

*Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.*

NONE

**IV. D - Capital FTE Detail:** *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

## **Part V: New Rule Making Required**

*Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

The proposed legislation has a fiscal impact to the Washington State Patrol (WSP).

This bill sets new requirements and accountability for drivers with suspended licenses.

New Section 2 is added to RCW 46.04 defining excessive speeding as traveling 20 miles per hour or greater than the posted speed limit.

New Section 3 is added to RCW 46.04 RCW defining an intelligent speed assistance device as a technical device designed to be installed in a vehicle to monitor and prevent drivers from exceeding a preset speed limit.

New Section 5 defines who would obtain an intelligent speed restricted license as those with multiple moving violations, one of which is excessive speeding, or reckless driving that includes a conviction for racing.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The proposed legislation will require training to be developed and given to our commissioned officers and cadets regarding speeding. We estimate that it will take 40 hours to research, develop, and review new training and policies. We also estimate that it will take five academy staff about 44 total hours to deliver the training to all commissioned officers and cadets. Each person receiving the training will need an estimated 30 minutes to complete it. We also expect it would take 2 hours of administrative time to verify compliance with training requirements and 2 hour of commander time to communicate compliance requirements and provide oversight of completion. We are authorized 1,120 employees who will need the training, bringing the total amount of hours needed to receive the training to about 560 hours. The total estimated cost to research, develop, review, give, and receive the training required from this proposed legislation is \$75,956.

We base estimated salary expenditures on current levels for the positions requested per published salary schedules, plus proposed increases in ratified collective bargaining agreements and any applicable incentive or assignment pay. We compute estimated benefits expenditures based on federal or state mandated rates plus state provided amounts for health insurance and workers' compensation insurance. We assume that any increases in these rates or amounts will be covered by legislation establishing the increase.

We base our estimate for agency indirect costs on the approved federal indirect cost rate of 31.34%. We apply this indirect cost rate percentage to all categories of expenditures with only two exceptions: capital equipment and the portion of each professional contract in excess of \$25,000. Indirect costs include, but are not limited to, computer and telecommunications support, payroll processing, vendor payments, general accounting, procurement administration, inventory control, and human resource management.

The funding allocation of this proposal uses the results of the Joint Legislative Audit and Review Committee Cost Allocation model approved by both the Transportation and Omnibus Budget Committees in the 2024 Supplemental Budget. The model analyzes costs and relevant activities (hours, transactions, type of enforcement, etc.) of Washington State Patrol (WSP)

organizations funded by two or more sources to ensure a consistent and fair use of state resources.

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 5 outlines eligibility for an Intelligent Speed Restricted Driver's License (ISA license) after suspension due to reckless driving, racing, or excessive speeding convictions. The license is available if the conviction did not result from reduced charges and includes a racing finding or excessive speeding allegation.

Section 6 describes the process for obtaining an ISA license, including eligibility requirements, proof of installation of a functioning ISA device in all vehicles, and maintaining the ISA device for the duration of the license. Includes rules for license renewals, monthly fees, administrative hearings, and cancellation in case of violations or non-compliance.

Section 7 requires a functioning ISA device to be installed and operational for those holding an ISA license. Exceptions are made for employer vehicles, with specific requirements. Provides for out-of-state verification of ISA device installation.

Section 8 gives the Department of Licensing (DOL) authority to issue rules about who is eligible to install, repair, and maintain ISA devices.

Section 9 establishes penalties for tampering with or interfering with the ISA device, treating such actions as a gross misdemeanor. Provides exceptions for safety or mechanical repairs.

Section 11 creates the ISA Device Revolving Account in the State Treasury to handle fees collected from ISA licenses. These funds will support ISA program administration and safety initiatives related to speeding.

Section 13 amends the probation period for individuals required to use an ISA device, including penalties for operating a vehicle without the device during probation. Clarifies that using the ISA device does not excuse violations of road rules.

Section 14 amends RCW 46.20.380 to include a reduced application fee for individuals who hold both an ISA restricted license and an ignition interlock driver's license (IID) for violations arising from a single incident.

Section 15 amends RCW 46.20.391 to prohibit applying for an occupational driver's license if suspended for reasons listed in the bill.

Section 16 makes it a gross misdemeanor to violate any restriction of an ISA restricted driver's license.

Section 17 amends RCW 46.61.500 to establish a 180-day probation period after suspension, during which individuals must use an ISA device. Non-compliance results in additional suspension and penalties for traffic infractions.

Section 18 clarifies that the provisions for ISA licenses apply to personal driver's licenses and not to violations involving Commercial Motor Vehicles (CMVs).

Section 23 sets the effective date for Sections 1–19 as January 1, 2026.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

See attached fiscal note

### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Please see attached fiscal note.

NONE

## **Part V: New Rule Making Required**

*Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.*

The following action will be needed to implement this bill:

- DOL adopt rules, in consultation with the administrative office of the courts (AOC), the state patrol (WSP), the Washington association of sheriffs and police chiefs (WASPC), intelligent speed assistance device companies, and any other organization or entity the department deems appropriate, to implement ISA licensing.
- Allow a person to request an administrative hearing, as provided by DOL rule, if they would like to contest DOL's decision (may need to either amend existing Hearings Rules to include ISAs or include them under potential new WAC for ISA licensing).
- Require DOL to adopt rules to provide monetary assistance based on greatest need and funds availability for ISA Device Revolving Account.
- Enable DOL to issue rules regarding the application process and eligibility under this section. DOL will use existing resources for rulemaking.

Request #	1
Bill #	1596 HB

## **Part 2 – Explanation**

This bill establishes the usage of an Intelligent Speed Assistance (ISA) device in the State of Washington. Some of the provisions of this proposal are as follows:

- Establishes the creation of a new type of restricted license, the ISA restricted license, and creates eligibility criteria as well as restrictions.
- Establishes enforcement and compliance criteria for the ISA device and ISA restricted license.
- Establishes the ISA Revolving Account and applicable fees which shall be deposited in the account as well as parameters around expenditures.
- Outlines penalties for violations when an ISA device has been required.

Sections 1 thru 9 are effective January 1, 2026.

### **2.A – Brief Description Of What The Measure Does That Has Fiscal Impact**

Section 5 outlines eligibility for an Intelligent Speed Restricted Driver’s License (ISA license) after suspension due to reckless driving, racing, or excessive speeding convictions. The license is available if the conviction did not result from reduced charges and includes a racing finding or excessive speeding allegation.

Section 6 describes the process for obtaining an ISA license, including eligibility requirements, proof of installation of a functioning ISA device in all vehicles, and maintaining the ISA device for the duration of the license. Includes rules for license renewals, monthly fees, administrative hearings, and cancellation in case of violations or non-compliance.

Section 7 requires a functioning ISA device to be installed and operational for those holding an ISA license. Exceptions are made for employer vehicles, with specific requirements. Provides for out-of-state verification of ISA device installation.

Section 8 gives the Department of Licensing (DOL) authority to issue rules about who is eligible to install, repair, and maintain ISA devices.

Section 9 establishes penalties for tampering with or interfering with the ISA device, treating such actions as a gross misdemeanor. Provides exceptions for safety or mechanical repairs.

Section 11 creates the ISA Device Revolving Account in the State Treasury to handle fees collected from ISA licenses. These funds will support ISA program administration and safety initiatives related to speeding.

Section 13 amends the probation period for individuals required to use an ISA device, including penalties for operating a vehicle without the device during probation. Clarifies that using the ISA device does not excuse violations of road rules.

Section 14 amends RCW 46.20.380 to include a reduced application fee for individuals who hold both an ISA restricted license and an ignition interlock driver’s license (IID) for violations arising from a single incident.

Section 15 amends RCW 46.20.391 to prohibit applying for an occupational driver's license if suspended for reasons listed in the bill.

Section 16 makes it a gross misdemeanor to violate any restriction of an ISA restricted driver's license.

Section 17 amends RCW 46.61.500 to establish a 180-day probation period after suspension, during which individuals must use an ISA device. Non-compliance results in additional suspension and penalties for traffic infractions.

Section 18 clarifies that the provisions for ISA licenses apply to personal driver's licenses and not to violations involving Commercial Motor Vehicles (CMVs).

Section 23 sets the effective date for Sections 1–19 as January 1, 2026.

## **2.B - Cash receipts Impact**

Cash receipts impacts are indeterminate. This bill establishes enforcement and compliance criteria for the ISA device and ISA restricted license. In addition, the bill establishes the ISA revolving account and will require a new revenue forecast. Revenue impact is positive, but indeterminate due to the lack of data on traffic violation records of excessive speeding and racing.

## **2.C – Expenditures**

This bill is expected to have a fiscal impact on operations. DOL estimates an additional 2 FTE at the Licensing Service Representative 1 to process anticipated number of applications. In addition, a .2 FTE at the Licensing Service Representative 3 level to review a percentage of the applications for quality control. The conclusion on the addition FTEs needed is based on the computations below:

- Computation for 2 LSR FTEs:
  - Restricted License (RESL) applications:
    - Touch time - 7 minutes
    - 19,141 applications per year
    - $7 \times 19,141 = 133,987$  minutes per year
    - $133,987/88,320$  (minutes per year for 1.0 FTE) = 1.5 FTE LSR1
  - Financial assistance applications:
    - Touch time – 7 minutes
    - 4,537 applications per year
    - $7 \times 4,537 = 31,759$  minutes per year
    - $31,759/88,320$  (minutes per year for 1.0 FTE) = 0.5 FTE LSR1
- Computation for the .2 LSR3 FTE:
  - For quality assurance/quality control of applications. This calculation is based on similar bills previously proposed that would require LSR1's to process similar applications.

Other assumed operational impacts include but are not limited to:

- Establish the new ISA RESL process.
- Establish process for verification of eligibility requirements when processing applications.
- Application updates for RESL and financial assistance.

- Updates to forms, letters and webpages.
- Establish a new restricted license credential.
- Updates to abstract driving records (ADR) to reflect the new ISA restricted license as a status and restriction.
- Training for business partners such as courts and law enforcement.
- Establish a new form allowing vendors to submit ISA data manually.
- Establish a waiver process similar to the ignition interlock device.

In addition, since this bill establishes a new revolving account, an additional .2 FTE at the Tax Policy Specialist 2 level was included for DOL’s Forecasting office for monitoring, forecasting and allotment of revenue associated with ISA.

**Information Services:**

The agency will use appropriated funds to hire contract programmers to accomplish this work or to support current staff implementing this legislation within the required timeline. Appropriated funds may also be used to hire agency temporary staff to support permanent staff assigned to this legislative effort.

Any change requires a process to ensure changes are correctly applied to the system. This involves Project Managers that manage the team that completes the update, business analyst that documents and reviews the system changes, architect services that analyzes how the update could have an effect on other systems or DOL processes, developers who create the change, and testers and quality assurance teams that ensure the update is working correctly.

Cost Category	Description	Rate	2026	2027	2028	2029	2030	2031	Total Cost
TESTER	Test to verify individual components meet requirements; ensure that other business transactions have not been impacted.	\$ 27,144	637,900	-	-	-	-	-	637,900
BUSINESS ANALYST	Determine business requirements; translate requirements into what changes are needed to various systems including account codes, inventory codes, testing considerations, etc.	\$ 19,836	125,000	-	-	-	-	-	125,000
PROJECT MANAGER	Manage schedule and contracts	\$ 35,037	476,500	-	-	-	-	-	476,500
QUALITY ASSURANCE	Plan and carry out activities to assure project deliverables; e.g. preventative defect activities, align quality measures and business objectives.	\$ 31,842	433,100	-	-	-	-	-	433,100
SECURITY AND ARCHITECT SERVICES	Create the conceptual model that defines the structure, behavior and framework of a computerized system including a breakdown of the system into components, the component interactions and interfaces (including with the environment, especially the user), and the technologies and resources to be used in the design.	\$ 19,836	63,500	-	-	-	-	-	63,500
SERVER & NETWORK SUPPORT	Services such as network infrastructure, cloud infrastructure, firewall and load balancing. Installations, maintenance, troubleshooting of server systems, and management of Windows-based systems to ensure reliability for clients.	\$ 19,836	-	2,000	2,000	2,000	2,000	2,000	10,000
DEVELOPERS	Modify programming and coding to all major systems	\$ 22,968	29,900	-	-	-	-	-	29,900
CONTRACTED FAST DEVELOPER/TESTER	Updates to the DRIVES system will require additional vendor hours outside of the contracted maintenance to make system updates to implement this bill.	\$ 38,454	1,157,500	7,700	7,700	7,700	7,700	7,700	1,196,000
TRAINER	Trains business partners and employees in new system processes and capabilities.	\$ 27,144	171,000	-	-	-	-	-	171,000
ORGANIZATIONAL CHANGE MANAGEMENT	Prepares stakeholders for the change and develops strategies to ensure the changes are fully adopted.	\$ 31,842	433,100	-	-	-	-	-	433,100
PROJECT CONTINGENCY	Office of the Chief Information Officer designated rate of 10%	\$ 27,394	352,800	1,000	1,000	1,000	1,000	1,000	357,800
<b>Totals</b>			<b>3,880,300</b>	<b>10,700</b>	<b>10,700</b>	<b>10,700</b>	<b>10,700</b>	<b>10,700</b>	<b>3,933,800</b>

What DOL will implement:

- Control: New logic and validations for intelligent speed assistance device program that includes:
  - New user interface to view device installation details.
  - Require probation of the driver following the suspension.
  - Add an additional suspension for violation during the probation period.
- Issuance: Modify the system to allow issuance on a restricted license when a customer has met all requirements which includes:
  - If a driver has paid the fee for the same offense and a different restriction license, they only need to pay the fee one-time.
- New case for customer requesting issuance of an intelligent speed assistance device restricted license which includes:
  - New logic to identify customer eligibility and meeting requirements based on the driver record.
  - Require payment of application fee.
  - Identify when there is a speeding, racing and reckless violation code to determine eligibility.
  - Do not allow issuance for commercial driving offenses.
  - New batch process to issue an intelligent speed assistance restricted license once the case is reviewed and approved.
  - Ability to waive the requirements under certain conditions for out of state residents.
- Modify online system to require speed details on ALL Washington speeding codes.
- Vendors:
  - New service for vendors who install intelligent speed assistance devices that includes status.
  - New billing option for vendors to submit funds to DOL.
  - Manual process to allow entry of device installation outside of the webservice.
  - New jobs, cases and letters for application and renewal, and report for approving and maintaining vendors eligible to install intelligent speed assistance devices.
- Interface testing:
  - Central Issuance System.
  - Washington State Patrol.
  - Administrator of the Courts.
  - Data brokers.
- Law table updates to add new violations to perform required cancellation, suspension or revocation activities.
- Modify or add new indigency case for customers requesting financial assistance for intelligent speed assistance device installation.
- New and updated letters.
  - Indigency case approval/denial.
  - Restricted license application.
  - Approval/denial for restricted license.
  - Cancellation letter for restricted license.
  - Withdrawal letter.
- Create a new report.

#### Ongoing Maintenance

- Ongoing monthly maintenance for new service will be required.

Security Assessment

- Security assessment for new service will be required.

**Support Services:**

Agency Administrative Overhead is included at a rate of 24.8 percent of the direct program costs. This funding received covers agency-wide functions such as vendor payments, contract administration, financial management, mail processing, equipment management, help desk support, and technical assistance to DOL employees. These indirect costs are shown under object E.

**Part 3 – Expenditure Detail**

**3.A – Operating Budget Expenditures**

Operating Expenditures	Fund	FY 26	FY 27	25-27 Total	27-29 Total	29-31 Total
ISA Revolving Account	NW1	4,169,000	300,000	4,469,000	600,000	600,000

<b>Total FTE</b>		<b>2.4</b>	<b>2.4</b>	<b>2.4</b>	<b>2.4</b>	<b>2.4</b>

**Part 4 – Capital Budget Impact**

None.

**Part 5 – New Rule Making Required**

The following action will be needed to implement this bill:

- DOL adopt rules, in consultation with the administrative office of the courts (AOC), the state patrol (WSP), the Washington association of sheriffs and police chiefs (WASPC), intelligent speed assistance device companies, and any other organization or entity the department deems appropriate, to implement ISA licensing.
- Allow a person to request an administrative hearing, as provided by DOL rule, if they would like to contest DOL’s decision (may need to either amend existing Hearings Rules to include ISAs or include them under potential new WAC for ISA licensing)

- Require DOL to adopt rules to provide monetary assistance based on greatest need and funds availability for ISA Device Revolving Account.
- Enable DOL to issue rules regarding the application process and eligibility under this section.

DOL will use existing resources for rulemaking.

## Narrative Explanation (Required for Indeterminate Cash Receipts)

Cash receipts impacts are indeterminate. This bill establishes enforcement and compliance criteria for the ISA device and ISA restricted license. In addition, the bill establishes the ISA revolving account and will require a new revenue forecast. Revenue impact is positive, but indeterminate due to the lack of data on traffic violation rec of excessive speeding and racing.

The bill establishes enforcement and compliance criteria for the ISA device and ISA restricted license. The application fee for ISA restricted license is \$100, the monthly fee for the ISA device is \$21, fee is waived for indigent individuals. Those fee should be deposited into the new ISA Revolving Account.
