Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

An act relating to improving community safety by requiring electronic monitoring of sexually violent predators granted conditional release to a less restrictive alternative (LRA) and amending RCW 71.09.096.

Section 1(4)(a) is amended to add language to RCW 71.09.096 which would include a list of minimum requirements for electronic monitoring systems (EMS), colloquially known as global positioning systems or "GPS." These include real-time tracking, programmable inclusion and exclusion zones, and the ability to provide notifications if the person tampers with the monitoring device or enters an exclusion zone.

Effective date is assumed 90 days after adjournment of the session in which this bill is passed.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Department of Corrections (DOC) assumes this bill will have no fiscal impact. This bill requires courts to impose electronic monitoring on every individual granted a less restrictive alternative. No impact to DOC operations as this can be accomplished using existing funding for electronic home monitoring (EHM).
