Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Legislative Contact: Sydney Jeffrey	Phone: 360-786-7303	Date: 02/12/2025
Agency Preparation: Kathy Cody	Phone: (360) 480-7237	Date: 02/17/2025
Agency Approval: Jamie Langford	Phone: 360-902-0422	Date: 02/17/2025
OFM Review: Val Terre	Phone: (360) 280-3073	Date: 02/17/2025

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The changes included in the substitute version did not change OFM's fiscal impact assumptions from the previous version.

SHB 1213:

The bill expands protections for workers in the state's Paid Family and Medical Leave (PFML) Program.

Specifically, the bill:

- Reduces the minimum claim from eight (8) consecutive hours to four (4) consecutive hours.
- Extends employment protection rights in the PFML Program.
- Allows employers to prevent stacking of certain employment protection rights.
- Expands health care coverage protection.
- Changes the eligibility from 12 months to 90 days of employment.

These changes can be incorporated into existing business practices. There is no fiscal impact to OFM.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The substitute bill for SHB 1213 leaves the sections on job protection and weekly claim hours thresholds largely the same. However, the substitute included the following changes:

- Authorizes Employment Security to conduct period audits of employers regarding job protection rather than requiring those audits.

- Modifies the method by which Employment Security calculates the size of an employer for the purposes of premium requirements and grant eligibility.

- Limits the current eligibility and requirements for small business grants to employers with 50 to 150 employees. Provides that those employers may receive up to 10 grants per calendar year (rather than may apply for up to 10 grants per calendar year as provided in current law).

- Establishes two types of grants for employers with fewer than 50 employees and allows employers to receive up to 10 grants per grant type, per calendar year (rather that apply for up to 10 grants per calendar year):

- a. Allows an employer to receive a \$3,000 grant if the employer hires a temporary worker or incurs additional wage related costs and changes the documentation requirements to written statement.

- b. Allows an employer to receive a grant to cover the costs of health care benefits paid by the employer during an employee's leave. This amount can't exceed four times the current monthly employer contribution for a state employees' benefit board program. This grant still requires documentation of expenses paid.

- Establishes requirements for Employment Security to administer the grants programs including allowing third party administrators to apply for grants on behalf of employers, requires Employment Security to remit grant payments within 14 calendar days, and notify employers with fewer than 50 employees when an employee takes leave, and they may be eligible for a grant.

Sec. 1 – Requires the department to conduct regular outreach to employers regarding legal responsibilities under Title 50A RCW. This section also allows the department to include job protection provisions in employer audits.

Sec. 2-Changes the way employers are sized for the purposes of premium assessment and eligibility for small business assistance grants.

Sec. 3 – Reduces the number of consecutive hours of leave necessary from eight to four.

Sec. 4 – Requires the department to publish the required notice employers must provide to employees upon learning they are eligible for PFML benefits. At a minimum, the notice must contain information pertaining to eligibility requirements, possible weekly benefits, application processes, employment protection rights, and nondiscrimination rights, and direct the employee to appropriate contacts and portals for more information.

Sec. 5 - Requires the department to publish the required notice employers must post in a public area in the place of employment. At a minimum, the notice must contain information pertaining to eligibility requirements, possible weekly benefits, application processes, employment protection rights, nondiscrimination rights, and other protections, and information pertaining to the filing of a complaint.

Sec. 6 – Changes job protection requirements for employers with voluntary plans to match those requirements modified in Sec. 10.

Sec. 7 through sec. 9-Changes how employers access small business assistance grants, changes the documentation requirements for grant approval, allows for third party administrators to apply on behalf of small employers, redefines benefit amount for grants, and creates a new grant type for health care continuation.

Sec. 10 – Reduces the eligibility criteria for job protection to 90 calendar days worked for the employer. It also establishes criteria, including a notice to the employee, under which the employer may to reduce job protection associated with Paid Leave commensurate with use of protected leave under the federal Family and Medical Leave Act prior to the employee’s use of Paid Leave.

Sec. 11 – Aligns maintaining health benefits with job protections modifications set in Sec. 10.

Sec. 12 – Establishes and effective date for the bill of January 1, 2026.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

See Attached

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

The bill will require major rulemaking for the following changes:

- Sec. 1 New New WACs will likely be needed to implement audit requirements.
- Sec. 2 WAC 192-620-005 Amend to account for reduction in consecutive hours to receive benefits.
- Sec. 2 WAC 192-510-040 Changes to employer sizing
- Sec. 4 WAC 192-540-020 Amend to include job protection and other statutory criteria in public area notice
- Sec. 5 WAC 192-700-005 Amend to align with job protection provisions of the bill
- Sec. 5 WAC 192-700-006 Repeal due to job protection eligibility being determined based on calendar days worked rather than hours worked.
- Sec. 5 WAC 192-700-015 Repeal due to job protection eligibility being determined based on calendar days worked rather than employer size.
- Sec. 5 WAC 192-700-020 Amend to align health insurance continuation provisions of the bill
- Sec. 6 WAC 192-700-007 Amend to align predecessor/successor requirements with job protection provisions of the bill

Cash Receipts Narrative

Included in the cash receipts is the revenue generated based on the assumed changes in the premium rates with this bill. An actuarial analysis shows the impact to the premium rate, and consequently, the assumed changes to premium revenue collections. Outlined in RCW 50a.10.030, the premium rate is calculated using the account balance on Sept 30, the expenditures, both operating costs and benefit payments in the prior fiscal year, and total taxable wages.

Therefore, with this bill, premium rates are expected to increase for four reasons:

1. The increase in benefit applications resulting from the expanded eligibility of job protection,
2. The increase additional Small Business Assistance (SBA) grant payments,
3. The slight adjustments to employer sizing, and
4. The additional operational expenses to implement this bill. The projected benefit payments, premium rates, and revenue impacts are shown in the tables below, both for the baseline and adjusted for the assumed changes found in SHB 1213.

SHB 1213 will increase benefit payments by increasing additional claims from expanding job protection eligibility and SBA grant payments from increasing both access to the grants and the number of available grants for small employers. ESD assumes a steady increase from an additional \$10 million in FY27 to \$347 million by FY31.

Fiscal Year	Baseline: Benefit Payments from Claims	Baseline: SBA Grant Payments	Baseline: Total Benefit Payments	SHB 1213: Benefit Payments from Claims	SHB 1213: SBA Grant Payments	SHB 1213: Total Benefit Payments	Delta from SHB 1213 to Baseline
2026	\$2,025	\$0.2	\$2,025	\$2,025	\$0	\$2,025	\$0
2027	\$2,328	\$0.2	\$2,328	\$2,332	\$7	\$2,338	\$10
2028	\$2,631	\$0.2	\$2,631	\$2,674	\$21	\$2,694	\$64
2029	\$2,970	\$0.2	\$2,971	\$3,073	\$38	\$3,111	\$140
2030	\$3,351	\$0.3	\$3,351	\$3,527	\$59	\$3,586	\$235
2031	\$3,724	\$0.3	\$3,724	\$3,986	\$85	\$4,071	\$347

Values depicted in millions.

As a result of increased payments and higher operating costs, premium rates will need to increase to accommodate this growth. The rates will stay the same through rate year 2027 where they reach the premium rate cap in both scenarios. However, SHB 1213 assumes the rate will continue to be at the cap through 2031 whereas the baseline shows slight decreases in 2028 and 2029 before reaching, and sustaining, at the premium rate cap through 2031 as well.

Rate Year	Baseline Rate Projection	SHB 1213 Rate Projection	Delta from SHB 1213 to Baseline
2026	1.15%	1.15%	0.00%
2027	1.20%*	1.20%*	0.00%
2028	1.16%	1.20%*	0.04%
2029	1.19%	1.20%*	0.01%
2030	1.20%*	1.20%*	0.00%
2031	1.20%*	1.20%*	0.00%

There may be cases where the premium rate may not have changed within a given year yet the revenue collection may show an increase or decrease. This is due to the Paid Leave premium rates being set for the calendar year whereas revenue collections are depicted in fiscal years. For example, fiscal year 2028 contains premium revenue collections from Q2-Q4 of rate year 2027 and Q1 of rate year 2028. This is because premiums are remitted to Employment Security one month following the end of the quarter.

As a result of the changes in premium rates the following tables shows the impacts of SBH 1213 will have on premium revenue. A slight adjustment of the assumed 4% increase in premium exemptions for those employers that are assumed to have the size adjusted to qualify are also captured here. However, the biggest driver of changes in revenue come from adjustments in the premium rates.

ESD assumes that the number of employers that are exempt from the employer portion of the premium due having fewer than 50 employees will grow by 4%. This is based on the number of employers during the 2024 sizing that were within five employees of 50. As this new method of capturing employer size is based on headcount at the end of the quarter rather than total employees reported in the quarter, employers are assumed to see slight reductions in their size. The assumed 4% increase in employers qualifying for the employer premium exemption will result in a reduction of premium revenue of about \$2 million in FY27. This is also the reason for the reduction of revenue in FY31.

Fiscal Year	Baseline Premium Revenue Projection	SHB 1213 Premium Revenue Projection	Delta from SHB 1213 to Baseline
2026	\$2,433	\$2,433	\$0
2027	\$3,055	\$3,053	-\$2
2028	\$3,313	\$3,334	\$21
2029	\$3,448	\$3,532	\$84
2030	\$3,726	\$3,739	\$13
2031	\$3,967	\$3,956	-\$10

Values depicted in millions.

Operating Narrative

Section 2: Employer Sizing

This section of the bill changes the way employers are sized for the purposes of premium assessment and eligibility for small business assistance grants. Should this bill pass, employers' size will be based on the total number of employees the employer employs at the end of each quarter and then averaged across the prior year. Currently employers are sized based on the number of employees that are reported to the department within that quarter during wage reporting. It is not based on current employee counts and could include employees that are no longer employed by the employer. In order to implement the change the ESD would need to add employee counts to the wage reporting and have employers submit this information when filing quarterly wage reports. The following updates to the technical systems would need to be conducted in order to implement this bill:

- Changes to manual reporting and the employer wage reporting process and database to include a new field for the employer to report current employment count as of the last day of each quarter, update employer screens so that their online portals accurately reflect counts based on the new field, and changes to processes for wage report amendments.
- Change the filing process used by third party administrators for quarterly wage reporting and specifications to include employee count for each reporting employer.
- Update employer sizing calculation to utilize the new employee count data for annual employer sizing, build off and update existing systems used to size new employers.

Sizing takes place in the fall and is effective for employers for the following calendar year. This bill's effective date is Jan 1, 2026, therefore the first employer sizing impacted will be in the fall of 2026 and apply to calendar year 2027.

In addition to increased staffing needs for technical implementation relating to employer sizing, ESD expects additional expenses associated with printing and postage costs associated with the communications plan and campaign in the amount of \$184,800, based on a projected additional 240,000 employers that will receive the mailers. This will inform employers about the additional wage reporting requirements to collect employee counts at the end of the quarter. This is based off a similar strategy used when adding date of birth requirements to wage reporting requirements.

Increased mailing costs are based on average letter printing and postage costs of \$0.04 for printing and \$0.69 for metered postage, per letter. Each letter is expected to be two (2) pages.

- Printing cost: \$0.04 per page
- Total additional mailings (number of employers): 240,000
- Metered postage cost: \$0.69 per letter

$(240,000 * 2 \text{ pages} * \$0.04) + (240,000 * \$0.69) = \$184,800$ total one-time mailing costs in FY 26.

Section 3: Consecutive Hours Requirements

This section of the bill adjusts the weekly claims requirements to four 4 consecutive hours, down from

8. There is not a large technical implementation cost, but some resources will be required to adjust online customer accounts, system calculations, and public-facing information on websites and Paid Leave guides to account for this change.

ESD assumes there are benefit expense impacts related to the change from 8 hours minimum consecutive leave to 4, as well as related to the increase in job protection compared to current requirements, and additional administrative expenses that result from these changes.

The benefit expense impact assumption for the decrease from 8 minimum consecutive leave hours to 4 was tested at multiple impact levels and what is included in the projection below is the midpoint of the estimated impacts of the scenarios tested, which was -\$1,818,000 based on FY24. The impact is adjusted proportionally for projection years. Multiple variables were considered to inform this impact:

- The estimated claims that are currently denied and would no longer be denied if they were between 4 and 7 hours.
- The estimated claims currently submitted as "nonpayment" due to not working 8 consecutive hours that would become payable under this change.
- The estimated claims where the hours of leave taken would be reduced if the full 8 consecutive hours was not required.

Section 7-9: Small Business Assistance (SBA) Grants

These sections of the bill make a number of changes regarding how employers access small business assistance grants, the documentation requirements for grant approval, changes the maximum number of grants an employer can receive to be based on approval of grants as opposed to applications, allows for third party administrators ability to apply on behalf of small employers, redefines benefit amount for grants, and creates a newly created grant type for health care continuation. The following updates to the technical systems would need to be conducted in order to implement this bill if it were to pass:

- Section 7 adjusts grants for employers with 50-150 employees.
 - This would require updates to functionality to base the maximum number of grants on 10 approved grants rather than 10 applications.
- Section 8 adds a section to adjust how grants for employers with fewer than 50 employees function.
 - Subsection 2 changes the award amount to a flat \$3,000 and removes documentation requirements. This will require ESD to adapt current grant application functionality, remove document upload and adjust attestation statement, and to crossmatch to employees who take leave to automate grant processing.
 - Subsection 3 adds a new grant type for continuation of health care to employees. This will require the department to create new application screens for employers to access these grants, provide health plan details, and update contribution documentations. This will also require the addition of annual Public Employees Benefits Board (PEBB) contribution rates to the system databases to determine benefit amounts, create a case management system for the department to adjudicate these new grants, and updates to ESD's documentation imaging software to accommodate employer health contributions.
- Section 9 provides updates for all grants, including grant submission deadlines, allowing third party administrators to apply on behalf of employers, and employer notifications.
 - This would require the department to add access to grant application in the employer context using the existing databases, updates to application screens, and changes to

allow for employer notifications.

ESD assumes there to be a substantial increase to the number of small business assistance grants if this bill were to pass. This bill adds a number of provisions that would lead the department to assume application volumes will increase, including the following:

- Allowing third party administrators to apply for grants on behalf of employers eligible for grants. This will increase access to applications for small employers.
- Requires ESD to notify employers with fewer than 50 employees when they may be eligible for a grant based on an employee taking Paid Leave.
- Increases the number of grants a small employer can receive in a calendar year.
- Removes documentation requirements for employers with fewer than 50 employees applying for temporary worker or wage replacement grants.
- Adds another grant type for health care benefit continuation that requires documentation from employers.

Due to the ease of application, amount of benefit received per grant, and improved awareness, ESD assumes an increase in grant applications. However, historically the grant program has been underutilized, with only 88 approved applications in FY24. If this bill were to pass, the high levels of potential impact it will have on the grant benefit and the limited amount of historical data, ESD provides the following assumed growth.

- The growth in grants coming from employers with fewer than 50 employees is assumed to have an initial utilization rate of 10% starting in calendar year 2026. This utilization is estimated to increase to a 50% utilization rate over the next five years. The cost per grant is set at \$3,000 per grant as noted in Sec. 8 of this bill.
- The utilization of grants for fewer than 50 employees for those employers applying for the additional health care continuation grant is assumed to be 25% of all grants coming from employers with fewer than 50 employees, starting in calendar year 2026. This utilization is estimated to increase to 45% over the next five years. This bill sets the maximum grant benefit at four times the current monthly employer contribution for a state employee’s health care coverage through the public employees’ benefit board program. The assumed cost for these grants is \$4,782 for FY26 and set to increase annually by 2.2%.
- The growth in grants coming from employers with 50-150 employees is assumed to have an initial utilization rate of 10% starting in calendar year 2026. This utilization is estimated to increase to a 18% utilization rate over the next five years. This has a lower utilization rate as this bill has fewer modification to employers of this size. The average cost per grant is assumed to be similar to historical experience in the Paid Leave grant program, \$1,909 per grant.

Below is a complete table showing assumed grant applications should this bill pass with SHB 1213.

Fiscal Year	Total Grant Applications	Temp. Worker & Wage Related Grants: Employers Sized < 50	Health Care Grants: Employers Sized < 50	Temp. Worker & Wage Related Grants: Employers Sized 50-150
2026	2,477	1,330	333	814

2027	7,289	4,216	1,198	1,874
2028	12,487	7,578	2,508	2,400
2029	18,833	11,476	4,356	3,001
2030	26,050	15,699	6,725	3,626
2031	30,546	18,287	8,229	4,030

Grants for Employers with Fewer Than 50 Employees

Based on historical experience in the grant program, assumptions include 25% of additional grant applications will need contact for some support as grant adjudication is assumed to be automated for standard grant applications. These grant applications will no longer require documents to be submitted to ESD. However, health care continuation benefits will still require documentation and cannot be automated.

Provided below is the staffing calculation for FY26-FY31 to process grant applications for employers with fewer than 50 employees based on the revisions this bill does for temporary workers and wage replacement grants.

- Annual hours to process applications per FTE: 1,350 hours
- Avg time per contact: 0.25 hours (assumed a lower service time due to no documentation requirements)

The following table shows the staffing necessary to process grant applications for employers with fewer than employees through FY31, based on the methodology outlined above.

Fiscal Year	Application Volume: Temp Worker & Wage Replacement	Staff Hours to Process Grant Applications (0.25 hours per contact * application volume)	Additional FTEs Needed (Ongoing ES Benefit Specialist 2)
2026	1,330	83	0
2027	4,216	264	0
2028	7,578	474	0
2029	11,476	717	0
2030	15,699	981	0
2031	18,287	1143	0

Provided below is the staffing calculation for FY26-FY31 to process the new healthcare continuation grant applications for employers with fewer than 50 employees that this bill establishes.

- Annual hours to process applications per FTE: 1,350 hours
- Avg time per application: 1.0 hours (assumed standard processing time, documentation is still required for this grant)

Fiscal Year	Application Volume: Health Care	Staff Hours to Process Grant Applications (1.0 hours * Application Volume)	Additional FTEs Needed (ES Benefits Specialist 2)
2026	333	333	0
2027	1,198	1,198	1
2028	2,508	2,508	1
2029	4,356	4,356	1
2030	6,725	6,725	0
2031	8,229	8,229	0

- Staffing Needs:
 - 1.0 FTE Ongoing ES Benefits Specialist 2 beginning in FY2027.
 - 1.0 FTE Ongoing ES Benefits Specialist 2 beginning in FY2028.
 - 1.0 FTE Ongoing ES Benefits Specialist 2 beginning in FY2029.

Grants for Employers with 50-150 Employees

This bill doesn't change benefits or documentation requirements as it does for grants from employers with fewer than 50 employees, but it does still allow third party administrators to apply for grants on behalf of employers and changes the maximum grant threshold from 10 grant applications to 10 approved grants, thus increasing the expected number of grants applications employers will submit. Provided below is the staffing calculation to process grant applications for employers with 50-150 employees.

- Annual hours to process applications per FTE: 1,350 hours
- Avg time per application: 1.0 hours (historical service time necessary for processing grants)

The following table shows the staffing necessary to process grant applications for employers with 50-150 employees through FY31, based on the methodology outlined above.

Fiscal Year	Application Volume: Temp Worker & Wage Replacement	Staff Hours to Process Grant Applications (1.0 Hours * Application Volume)	Additional FTEs Needed (ES Benefits Specialist 2)
2026	814	814	0
2027	1,874	1,874	1
2028	2,400	2,400	0
2029	3,001	3,001	1
2030	3,626	3,626	0
2031	4,030	4,030	0

- Staffing Needs:
 - 1.0 FTE Ongoing ES Benefits Specialist 2 beginning in FY2027.
 - 1.0 FTE Ongoing ES Benefits Specialist 2 beginning in FY2029.

The increase in staff will also necessitate technical training and an operation process coordinator to implement these changes, requiring the following resources:

- One-time 0.9 FTE in FY26 and 0.1 FTE in FY27 of a Management Analyst 3.
- One-time 0.9 FTE in FY26 and 0.1 FTE in FY27 of a Technical Training Consultant.

In addition to increased staffing needs, ESD expects additional expenses associated with increased print documentation and postage of \$2,260 in FY26, growing to \$27,873 by FY31 across all grant types.

Increased mailing costs are based on average letter printing and postage costs of \$0.04 for printing and \$0.69 for metered postage, per letter, for a total mailing cost of \$0.73 per letter. Decision letters will be sent for each additional grant application and an assumption of 25% of all additional applications will require fact-finding letters. Provided below is the calculation for FY26-FY31 grant application mailing costs for all additional SBA applications.

Fiscal Year	Total Grant Application Volume	Total Decision Letters (1 letter per application)	Total Fact-Finding Letters (25% of applications)	Total Letters (Decision + Fact Finding)	Mailing Costs for Additional Grant Applications (Total Letters * \$0.73 per letter)
2026	2,477	2,477	619	3,096	\$2,260
2027	7,289	7,289	1,822	9,111	\$6,651
2028	12,487	12,487	3,122	15,609	\$11,394
2029	18,833	18,833	4,708	23,541	\$17,185
2030	26,050	26,050	6,513	32,563	-
2031	30,546	30,546	7,637	38,183	-

Sec. 6, 10, and 11: Job Protection and Health Benefit Continuation

To implement these sections of the bill, updates to language referring to job protection across our content products (e.g. benefit guides, employer toolkit, voluntary plan guide, factfinding letters, secure messages, etc.) will need to be made. This will also necessitate updates to content that require language translations.

ESD will require a communication plan to inform employers and workers about the expansion of job protection. SHB 1213 removes the job protection sizing exemption for employers and now more employers will need to understand the complexity of the job protection provisions. Roughly 95%, or 230,000, active small employers in the program that have been exempt from providing job protections due to having less than 50 employees will now be required to provide job protection to their employees who take Paid Leave.

The responsibility for determining job protection at the time leave is taken is currently and would remain with the employer. In the event of a complaint, ESD staff would need to be familiar with the new job protections criteria during an illegal acts investigation in order to issue a determination. The number of individuals eligible for job protections would increase as a result of SHB 1213, which would lead to a corresponding increase to the number of complaints related to job protection the department would receive. ESD may have to set employer requirements for sharing FMLA-related information during an audit of illegal acts. However, the department has no jurisdiction over FMLA or employers' interaction with it. ESD assumes an increase in the number of applications the program will receive due to more workers being covered by the expanded job protection benefit. According to the legislative report, WA Paid Family and Medical Leave & Job Protection conducted at the Evans School of Public Policy & Governance at University of Washington, job protection is associated with a substantial increase in leave take-up. Roughly 1.8% of those who were estimated to be job protected with take utilize leave compared to 1.1% of those who are not job protected.

Following the statistical association found in the report, ESD assumes that as more individuals have access to job protected leave under Paid Leave, their utilization rate will increase to match those who previously had job protection. This will lead to additional applications, approved claims, and benefit payments. The tables below show the increase in application volumes associated with this policy change. As a result, ESD expects the expansion of job protection will have some measurable impact on the Paid Leave account and rate setting.

The tables below show in the increase in application volumes associated with this policy change. As a result, additional staff will be required to accommodate this growth.

Fiscal Year	Baseline Projections	SHB 1213 Projections	Difference	% Change	Additional Appeals from SHB 1213
FY26	344,080	345,263	1,183	0%	12
FY27	366,432	373,889	7,457	2%	75
FY28	390,257	405,227	14,970	4%	150
FY29	415,410	438,828	23,418	6%	234
FY30	435,676	468,053	32,377	7%	324
FY31	450,083	491,636	41,553	9%	416

The projected benefit applications are expected to increase annually by 1,183 in FY26 to 7,457 annually in FY27. The following calculations show the staffing need based on this expectation.

- Annual hours to process applications per FTE: 1,350 hours
- Avg time per application: 1.2 hours
- Avg. Number of applications processed per FTE: 1,125
- 1,183 additional applications annually in FY26
- 1,183 * 1.2 avg hours per application = 1,420 hours of staff time in FY26 ~ 1.0 FTE ES Benefits Specialist 2 beginning in FY26 and ongoing.
- By FY27 Employment Security estimates an additional 7,457 applications annually, resulting in

a need of 8,948 staff hours ~ 6.0 FTE ES Benefits Specialist 2 beginning in FY27 and ongoing.

The projected increases in benefit application volume are expected to also result in an increase in small business employer inquiries. ESD expects that to take 1,389 (FY26) and 1,479 (FY27) hours of work to support customer service needs.

- Avg. Employer phone call = 17min, or 0.2833hr
- 344,080 applications projected in FY26
- 344,080 * 19% (assumption of applications associated with small employer) * 7.5% (share of small employer assumed to need assistance) * 0.2833hrs = 1,389 hours of staff time in FY26 ~ 1.0 FTE ES Benefits Technician beginning in FY26 and ongoing.

Estimates for FY27 application volume are 366,432, requiring 1,479 staff hours, which could be absorbed by the one additional FTE from FY26.

Additional printing and mailing costs are required to accommodate growth in benefit claims resulting from the expansion of job protection. Each application requires two employer letters and one benefit letter.

- Total decision letters pages per application: 12 (2 Employer, 4 Benefits)
- Printing cost: \$0.04 per page
- Metered postage cost: \$0.69 per letter
- Letter costs:
 - Employer Notification (1 page): \$0.73
 - Employer Decision (1 page): \$0.73
 - Benefit Decision (4 pages): \$0.85

Total mailing costs: FY 26: \$2,732, FY27 and ongoing: \$17,225

Information Technology

The technical work should this bill pass would require 48 weeks of development work with production deployment to follow. This work is assumed to begin 7/2/25, which results in production deployment on around 6/11/26.

Due to the type and amount of work needed to implement with the current effective date of Jan 1, 2026, the technical work will need to be supplemented with contracted staff so that simultaneous work can be carried out on the various components. The following table provides a high-level timeline and staff breakdown based on those components.

	July – Sept 2025	Oct – Dec 2025	Jan – Mar 2026	April – June 2026
Existing Tech Resources	Consecutive hours update to weekly claims	Notification updates for job protection		

New Contracted Tech Resources	Updates to small business assistance grants for employers	Small business grants for TPAs	Updates to employer sizing
-------------------------------	---	--------------------------------	----------------------------

The following contracted resources will be required to implement the changes from this bill as a one-time cost of \$3,358,860 in FY26:

Position	Hours	Rate	Total (Rate * Hours)
Developer Team	2016	\$115	\$231,840
Developer Team Lead/Delivery Architect	2016	\$175	\$352,800
Senior Application Developer	2016	\$160	\$322,560
Application Developer	4032	\$135	\$544,320
Integrated Test Engineer	2016	\$135	\$272,160
QA Tester	4032	\$95	\$383,040
Senior Engineer	1008	\$125	\$126,000
Engineer	3024	\$110	\$332,640
Performance Test Team Lead	336	\$175	\$58,800
Senior Performance Tester	336	\$160	\$53,760
Performance Tester	1008	\$120	\$120,960
Senior Security Tester	168	\$200	\$33,600
Security Tester	168	\$170	\$28,560
Principal Architect	336	\$185	\$62,160
Cloud Architect	168	\$185	\$31,080
DevOps Architect	168	\$185	\$31,080
Data Architect	420	\$215	\$90,300
Sr Application Developer	480	\$160	\$76,800
Application Developer	480	\$135	\$64,800
Senior QA	480	\$135	\$64,800
Senior Data Engineer	480	\$160	\$76,800
		Total	\$3,358,860

Product Planning and Performance

Staffing estimates are based on past projects with similar sized scope and impact, such as adding date of birth to the Paid Leave and WA Cares wage reporting system.

For projects that require technical development work, the Product Team design and plan the new customer-facing screens, workflows, and database modifications needed to implement the system and code changes needed if this bill were to pass. The Product team needs approximately 6-8 weeks lead time ahead of the development teams.

This will require the following one-time resources in FY26:

- 0.30 FTE IT Policy and Planning Senior/Specialist
- 0.31 FTE IT Project Management Senior/Specialist
- 0.30 FTE Management Analyst 4
- FTE IT Business Analyst – Journey

Communications

The communications team will create and implement a communications plan to track edits and outreach needed to communicate the changes. This will include updates to existing materials that mention FMLA/job protection and requirements around missing 8 hours of work. The scope of work includes web content, guides and toolkits for customers and employers, and public-facing program materials used throughout the agency for outreach to customers, employers and HR departments.

Communications will use GovDelivery newsletters to contact employers (small and large), customers and other key audiences to inform about the changes and new resources. The communications team will work with the project team to review and approve FAQs, talking points or other materials used by the agency for outreach, so that messaging to the public is aligned and consistent.

This one-time work will require 0.38 FTE of a Communications Consultant 4 in FY26.

Translation

There will also be a one-time cost in FY26 for translation services for updated guides, letters, and factfinding documents costing approximately \$1,000.

Rulemaking

This bill will require major rulemaking for a one-time cost in FY26 of \$90,000.

Office of the Attorney General (AGO)

ESD anticipates that the enactment of this bill will result in an increase in the number of individuals applying for paid family and medical leave, which will also increase the number of appeals of program determinations. The increased number of job protected individuals will also likely result in an increase in unlawful act complaints and appeals of those determinations. ESD anticipates that approximately 0.05% of appeals will be referred to the AGO for legal representation at hearings before the Office of Administrative Hearings.

ESD estimates the increased number of appeals related to the bill as follows, along with the associated AGO costs by fiscal year:

Fiscal Year	Additional Applications from SHB 1213	Additional Appeals Referred to AGO	AGO Staff Hours	Anticipated Amount Billed to ESD by AGO
2026	1,183	1	70	\$11,000
2027	7,457	4	130	\$20,000

2028	14,970	7	210	\$35,000
2029	23,418	11	330	\$53,000
2030	32,377	15	450	\$73,000
2031	41,553	20	600	\$98,000

Office of Administrative Hearings (OAH)

The following table show the increase to OAH appeals from SHB 1213, along with associated costs by fiscal year:

Fiscal Year	Additional Applications from SHB 1213	Additional Appeals Referred to OAH	Anticipated amount billed to ESD by OAH
FY26	1,183	9	\$16,000
FY27	7,457	56	\$95,000
FY28	14,970	112	\$186,000
FY29	23,418	176	\$294,000
FY30	32,377	243	\$408,000
FY31	41,553	312	\$521,000

LOCAL GOVERNMENT FISCAL NOTE

Department of Commerce

Bill Number: 1213 S HB

Title: Paid family & medical leave

Part I: Jurisdiction-Location, type or status of political subdivision defines range of fiscal impacts.

Legislation Impacts:

Cities: Potentially significant increases in administrative and staffing costs for all cities.

Counties: All counties. Same as above.

Special Districts: All special districts. Same as above.

Specific jurisdictions only:

Variance occurs due to:

Part II: Estimates

No fiscal impacts.

Expenditures represent one-time costs:

Legislation provides local option:

Key variables cannot be estimated with certainty at this time: The number of new PFML claims. Staff time needed for implementation and to maintain current operations. Training costs.

Estimated revenue impacts to:

None

Estimated expenditure impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Part III: Preparation and Approval

Fiscal Note Analyst: Kristine Williams	Phone: (564) 250-5931	Date: 02/17/2025
Leg. Committee Contact: Sydney Jeffrey	Phone: 360-786-7303	Date: 02/12/2025
Agency Approval: Alice Zillah	Phone: 360-725-5035	Date: 02/17/2025
OFM Review: Anna Minor	Phone: (360) 790-2951	Date: 02/18/2025

Part IV: Analysis

A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

This note is on 1213 S HB and compares it to 1213 HB.

CHANGES BETWEEN THIS VERSION AND THE PRIOR VERSION OF THE BILL:

This version of the bill expands access to grants for small business employers to offset the costs of employees' use of leave in the Paid Family Medical Leave (PFML) Program. The Employment Security Department (ESD) is authorized to conduct periodic audits of employer files and records. This version of the bill also modifies the method by which the ESD calculates the size of an employer for purposes of premium requirements and grant eligibility by providing that ESD must average the number of employees reported by an employer on the last day of each quarter over the last four completed calendar quarters.

These changes do not change the fiscal impacts discussed below.

SUMMARY OF CURRENT BILL:

This legislation reduces the minimum claim for benefits paid under the Washington Paid Family and Medical Leave (PFML) Program from 8 consecutive hours to 4 consecutive hours and extends employment protection rights to any employee who began employment with their current employer at least 90 calendar days before taking leave, regardless of the size of the employer. The legislation allows employers to prevent stacking of certain employment protection rights if the employer provides certain notices to employees. The legislation also expands certain health care coverage protections for employees and expands access to grants for small businesses.

This legislation would take effect on January 1, 2026.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

This legislation would have an indeterminate, but potentially significant, impact on local governments.

Responsibility for determining job protection at the time leave is taken rests with the employer. All local governments will need to dedicate staff time for training and may need to hire additional staff. Local governments, especially those with smaller human resource departments, may experience increased administrative burdens due to a higher volume of claims. This legislation expands the requirement for employers to maintain health care coverage to cover the additional PFML period, which may result in an increase in premiums paid by these employers. Local governments may see an increase in overtime or contracted labor costs to ensure work is completed while employees are on leave.

The Association of Washington Cities (AWC) reports that over half of Washington cities have fewer than 50 employees. These cities will need to create a compliance system which may include hiring and training new staff. Also, this legislation expands job protection in a manner that may interfere with probationary periods and job certifications for certain positions. For example, new police officers that are hired contingent on completing the Basic Law Enforcement Academy within a certain period would need to attend the next Academy if they went on PFML leave and could not complete the training.

The Chelan County Public Utility District, which has approximately 900 employees, reports that the district has approximately 100,000 hours of work that is performed by seasonal and temporary employees. Under the existing 1,250-hour eligibility threshold, the district would lose approximately 800 hours to PFML usage, equating to \$25,000 in lost productivity. The district estimates, based on prior trends observed when PFML was introduced for full-time employees, the rate of usage will quadruple over a short period of time, resulting in approximately 14,000 productive hours, equivalent to \$415,000 in lost productivity. To compensate for this loss, the district would need to increase seasonal hiring by

approximately 13%.

The Washington State Association of Counties reports that the current recruiting environment for all professional staff is very challenging. In the case of corrections staff, the number of corrections officers for all county facilities is approximately 2,289 when fully staffed. Data released in December 2024 by the Washington State Institute for Public Policy states that the average vacancy rate for jail corrections officers as of 3/31/23 to be 18.9 percent. The percentage of jails experiencing severe (30 percent vacancy rate) problems with corrections officer staffing in 2023 was 16.1 percent. Also, the percentage of jails that are relying on voluntary overtime to fill staffing gaps every week was 88.6%. The additional staffing costs necessary to maintain current operating levels cannot be predicted at this time. These costs are indeterminate.

The total cost to implement this legislation will vary depending on the jurisdiction and cannot be predicted in advance. The fiscal impact on local governments is indeterminate.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

This bill would not impact local government revenues.
