Gaius Horton

ΦFM Review:

## **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact on the Courts

The substitute bill removes the creation of a new license type and directs the court to order the use of an intelligent speed assistance device for not less than six months if the defendant engaged in excessive spending.

#### II. B - Cash Receipts Impact

None

#### II. C - Expenditures

This bill would have minimal fiscal impact to the Administrative Office of the Courts.

The bill would require 30 hours of forms updates, as well as 15 hours to update the law table. This is estimated to be \$3,500 in FY 2026

## Part III: Expenditure Detail

## **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SHB 1596 creates the intelligent speed assistance device revolving account and allows the account to retain its earnings from investments.

There will be some de-minimis work for OST which can be completed within current practices and resources.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

## **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The proposed legislation has a fiscal impact to the Washington State Patrol (WSP).

The substitute version of the proposed legislation does not alter our assessment of fiscal impact.

This bill sets new requirements and accountability for drivers with suspended licenses.

New Section 2 is added to RCW 46.04 defining excessive speeding as traveling 20 miles per hour or greater than the posted speed limit.

New Section 3 is added to RCW 46.04 RCW defining an intelligent speed assistance device as a technical device designed to be installed in a vehicle to monitor and prevent drivers from exceeding a preset speed limit.

New Section 4 of the substitute version replaces the definition of intelligent speed restricted drivers license provided in the previous version with conditions requiring the use of an intelligent speed assistance device, identifies driver responsibilities when operating a motor vehicle with a device installed, exempts employer owned vehicles unless the vehicle is assigned exclusively to the individual with the requirement, and outlines responsibility for related costs and fees.

New Section 5 defines who would obtain an intelligent speed restricted license as those with multiple moving violations, one of which is excessive speeding, or reckless driving that includes a conviction for racing.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The proposed legislation will require training to be developed and given to our commissioned officers and cadets regarding speeding. We estimate that it will take 40 hours to research, develop, and review new training and policies. We also estimate that it will take five academy staff about 44 total hours to deliver the training to all commissioned officers and cadets. Each person receiving the training will need an estimated 30 minutes to complete it. We also expect it would take 2 hours of administrative time to verify compliance with training requirements and 2 hour of commander time to communicate compliance requirements and provide oversight of completion. We are authorized 1,120 employees who will need the training, bringing the total amount of hours needed to receive the training to about 560 hours. The total estimated cost to research, develop, review, give, and receive the training required from this proposed legislation is \$75,956.

We base estimated salary expenditures on current levels for the positions requested per published salary schedules, plus proposed increases in ratified collective bargaining agreements and any applicable incentive or assignment pay. We compute estimated benefits expenditures based on federal or state mandated rates plus state provided amounts for health insurance and workers' compensation insurance. We assume that any increases in these rates or amounts will be covered by legislation establishing the increase.

We base our estimate for agency indirect costs on the approved federal indirect cost rate of 31.34%. We apply this indirect cost rate percentage to all categories of expenditures with only two exceptions: capital equipment and the portion of each

professional contract in excess of \$25,000. Indirect costs include, but are not limited to, computer and telecommunications support, payroll processing, vendor payments, general accounting, procurement administration, inventory control, and human resource management.

The funding allocation of this proposal uses the results of the Joint Legislative Audit and Review Committee Cost Allocation model approved by both the Transportation and Omnibus Budget Committees in the 2024 Supplemental Budget. The model analyzes costs and relevant activities (hours, transactions, type of enforcement, etc.) of Washington State Patrol (WSP) organizations funded by two or more sources to ensure a consistent and fair use of state resources.

## Part III: Expenditure Detail

## **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Changes from HB 1596 to SHB 1596

- This substitute version has changed from adding a new type of restricted license and instead adding the ISA requirement to the existing temporary restricted license / occupational restricted license.
- Effective date for sections 1 through 13 updated to January 1, 2028.
- Section 4: Requires certain drivers to have an ISA device based on their license type or court order and outlines costs and responsibilities, including exemptions for employer vehicles.
- Section 5: Details the application process for an ISA device, including requirements for override functions and background checks for those involved in device installation and maintenance.
- Section 6: Makes tampering with or assisting in tampering with an ISA device a gross misdemeanor, with exceptions for safety or repairs.
- Section 7: Allows courts to impose an ISA device requirement for excessive speeding offenses as part of probation.
- Section 8: Establishes ISA Device Revolving Account to manage fees collected from ISA devices, used to support the program and safety initiatives.
- Section 10: Requires an ISA device during the first 120 days of probation for excessive speeding violations and holds drivers accountable for safe operation.
- Section 11: Stipulates that drivers applying for a restricted or occupational license due to excessive speeding must have an ISA device.
- Section 12: Requires an ISA device during a 150-day probation period following excessive speeding suspension and adds penalties for violations.
- Section 15: Adds the ISA device requirements from Sections 4-6 to chapter 46.20 RCW.
- Section 17: Sets the effective date for sections 1 through 13 as January 1, 2028.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Please see attached fiscal note.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Please see attached fiscal note.

IV. D - Capital FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.

NONE

# Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

The following action will be needed to implement this bill:

• DOL adopt rules, in consultation with the administrative office of the courts (AOC), the state patrol (WSP), the Washington association of sheriffs and police chiefs (WASPC), intelligent speed assistance device companies, and any other organization or entity the department deems appropriate, to implement ISA licensing.

- Allow a person to request an administrative hearing, as provided by DOL rule, if they would like to contest DOL's decision (may need to either amend existing Hearings Rules to include ISAs or include them under potential new WAC for ISA licensing)
- Require DOL to adopt rules to provide monetary assistance based on greatest need and funds availability for ISA Device Revolving Account.
- Enable DOL to issue rules regarding the application process and eligibility under this section. DOL will use existing resources for rulemaking.

|-----------|----------|
| Bill #    | 1596 SHB |

#### Part 2 – Explanation

This bill establishes the usage of an Intelligent Speed Assistance (ISA) device in the State of Washington. Some of the provisions of this proposal are as follows:

- Stipulates a person may not drive a motor vehicle, unless it is equipped with an intelligent speed assistance (ISA) device, if the device is required for:
  - Issuance of a temporary restricted driver's license or an occupational driver's license, under the terms of RCW 46.20.391(4);
  - o Under the applicable terms of probation under RCW 46.20.2892(1) or 46.61.500(4); or
  - o Pursuant to court order under section 7 of this act or RCW 10.21.030.
- Establishes the ISA Revolving Account and applicable fees which shall be deposited in the account as well as parameters around expenditures.
- Outlines penalties for violations when an ISA device has been required.

Sections 1 through 13 are effective January 1, 2028.

## Changes from HB 1596 to SHB 1596

- This substitute version has changed from adding a new type of restricted license and instead adding the ISA requirement to the existing temporary restricted license / occupational restricted license.
- Effective date for sections 1 through 13 updated to January 1, 2028.

#### 2.A – Brief Description Of What The Measure Does That Has Fiscal Impact

Section 4: Requires certain drivers to have an ISA device based on their license type or court order and outlines costs and responsibilities, including exemptions for employer vehicles.

Section 5: Details the application process for an ISA device, including requirements for override functions and background checks for those involved in device installation and maintenance.

Section 6: Makes tampering with or assisting in tampering with an ISA device a gross misdemeanor, with exceptions for safety or repairs.

Section 7: Allows courts to impose an ISA device requirement for excessive speeding offenses as part of probation.

Section 8: Establishes ISA Device Revolving Account to manage fees collected from ISA devices, used to support the program and safety initiatives.

Section 10: Requires an ISA device during the first 120 days of probation for excessive speeding violations and holds drivers accountable for safe operation.

Section 11: Stipulates that drivers applying for a restricted or occupational license due to excessive speeding must have an ISA device.

Section 12: Requires an ISA device during a 150-day probation period following excessive speeding suspension and adds penalties for violations.

Section 15: Adds the ISA device requirements from Sections 4-6 to chapter 46.20 RCW.

Section 17: Sets the effective date for sections 1 through 13 as January 1, 2028.

#### 2.B - Cash receipts Impact

Cash receipts impacts are indeterminate. This bill establishes enforcement and compliance criteria for the ISA device and ISA restricted license. In addition, the bill establishes the ISA revolving account and will require a new revenue forecast. Revenue impact is positive, but indeterminate due to the lack of data on traffic violation records of excessive speeding and racing.

#### 2.C - Expenditures

This bill is expected to have a fiscal impact on operations. DOL estimates an additional .6 FTE at the Licensing Service Representative 1 to process anticipated number of applications. In addition, a .2 FTE at the Licensing Service Representative 3 level to review a percentage of the applications for quality control. The conclusion on the additional FTE needed is based on the computations below:

- Computation for 2 Licensing Services Representatives 1 FTEs:
  - Restricted License (RESL) applications:
    - Touch time 7 minutes
    - 3,042 applications per year
    - 7 x 3,042 = 21,294 minutes per year
    - 21,294/88,320 (minutes per year for 1.0 FTE) = .24 FTE LSR1
  - Financial assistance applications:
    - Touch time 7 minutes
    - 4,537 applications per year
    - 7 x 4,537 = 31,759 minutes per year
    - 31,759/88,320 (minutes per year for 1.0 FTE) = 0.36 FTE LSR1
- Computation for the .2 Licensing Services Representatives 3 FTE:
  - For quality assurance/quality control of applications. This calculation is based on similar bills previously proposed that would require LSR1's to process similar applications.

Other assumed operational impacts include but are not limited to:

- Establish the new ISA RESL process.
- Establish process for verification of eligibility requirements when processing applications.
- Application updates for RESL and financial assistance.
- Updates to forms, letters and webpages.
- Establish a new restricted license credential.
- Updates to abstract driving records (ADR) to reflect the new ISA restricted license as a status and restriction.
- Training for business partners such as courts and law enforcement.
- Establish a new form allowing vendors to submit ISA data manually.
- Establish a waiver process similar to the ignition interlock device.

In addition, since this bill establishes a new revolving account, an additional .2 FTE at the Tax Policy Specialist 2 level was included for DOL's Forecasting office for monitoring, forecasting and allotment of revenue associated with ISA.

#### **Information Services:**

The agency will use appropriated funds to hire contract programmers to accomplish this work or to support current staff implementing this legislation within the required timeline. Appropriated funds may also be used to hire agency temporary staff to support permanent staff assigned to this legislative effort.

Any change requires a process to ensure changes are correctly applied to the system. This involves Project Managers that manage the team that completes the update, business analyst that documents and reviews the system changes, architect services that analyzes how the update could have an effect on other systems or DOL processes, developers who create the change, and testers and quality assurance teams that ensure the update is working correctly.

| Cost Category                      | Description  | Rat  | te     | 2026      | 2027  | 2028  | 2029  | 2030  | 2031  | Total Cost |

These figures are calculated and rounded to 100th value

#### What DOL will implement:

- Control: New logic and validations for intelligent speed assistance device program that includes:
  - New user interface to view device installation details.
  - o Require probation of the driver following the suspension.
    - Add an additional suspension for violation during the probation period.
  - When requirement ends, the restriction must be ceased following the rules currently used for ceasing restrictions.
- Issuance: Issuance of restricted driver's licenses with the intelligent speed assistance device in DRIVES including work items.

- New case for customer requesting issuance of a license with the new intelligent speed assistance device restriction, including:
  - New logic to identify customer eligibility and meeting requirements based on driver record, including a work item when needed, approval, or denial (hard stop).
  - Identify when a speeding, racing, and reckless violation code are used to determine eligibility.
  - Not allow issuance for commercial driving offenses.
  - New batch process to issue a license with the new restriction once a case is reviewed and approved.
  - New case type for administrative hearing.
  - o Ability to waive the requirements under certain conditions for out of state residents.

#### Vendors:

- New service for vendors who install intelligent speed assistance devices, including status.
- New billing option for vendors to submit funds to the department.
- Manual process to allow entry of intelligent speed assistance device installation outside of the webservice.
- New jobs, cases, and letters for application and renewal, and report for approving and maintaining vendors eligible to install intelligent speed assistance devices.
- Interface testing and modifications to accept new values and restrictions:
  - Central Issuance System.
  - Washington State Patrol.
  - Administrator of the Courts.
  - o Data brokers.
- Add speed details to applicable RCWs, including stream and control changes.
- Modify/new indigency case for customers requesting financial assistance for intelligent speed assistance device installation.
- New and updated letters.
  - Indigency case approval/denial.
  - Restricted license application.
  - Abstract Driving Record updated to reflect restricted license status and new restrictions.
- New/updated report.
- New logic to waive the intelligent speed assistance restriction, if it is not available in another state (75-mile radius of the driver's residence for out-of-state only).
- Update to restricted license application in License Express and website.
  - Update relevant information to the restricted license for check status.
- ONGOING MAINTENACE
- Ongoing monthly maintenance for new service.
- SECURITY ASSESSMENT
- Security assessment of new service.

#### **Support Services:**

Agency Administrative Overhead is included at a rate of 24.8 percent of the direct program costs. This funding received covers agency-wide functions such as vendor payments, contract administration,

financial management, mail processing, equipment management, help desk support, and technical assistance to DOL employees. These indirect costs are shown under object E.

### Part 3 – Expenditure Detail

#### 3.A - Operating Budget Expenditures

| Operating Expenditures | Fund           | FY 26     | FY 27   | 25-27 Total | 27-29 Total | 29-31 Total |
|------------------------|----------------|-----------|---------|-------------|-------------|-------------|
| ISA Revolving Account  | NW1            | 1,557,000 | 132,000 | 1,689,000   | 264,000     | 264,000     |
|                        | Account Totals | 1,557,000 | 132,000 | 1,689,000   | 264,000     | 264,000     |

### 3.B – Expenditures by Object or Purpose

| FTE Staff Years      | 1.0       | 1.0     | 1.0       | 1.0     | 1.0     |
|----------------------|-----------|---------|-----------|---------|---------|
| Salaries and Wages   | 67,000    | 67,000  | 134,000   | 134,000 | 134,000 |
| Employee Benefits    | 26,000    | 26,000  | 52,000    | 52,000  | 52,000  |
| Goods and Services   | 1,464,000 | 39,000  | 1,503,000 | 78,000  | 78,000  |
| Total By Object Type | 1,557,000 | 132,000 | 1,689,000 | 264,000 | 264,000 |

## 3.C – FTE Detail

| Staffing                            | Salary    | FY 26 | FY 27 | 25-27 Total | 27-29 Total | 29-31 Total |

| Tax Policy Specialist 2             | 91,068    | 0.2   | 0.2   | 0.2         | 0.2         | 0.2         |
|                                     | Total FTE | 1.0   | 1.0   | 1.0         | 1.0         | 1.0         |

#### Part 4 – Capital Budget Impact

None.

#### Part 5 – New Rule Making Required

The following action will be needed to implement this bill:

- DOL adopt rules, in consultation with the administrative office of the courts (AOC), the state
  patrol (WSP), the Washington association of sheriffs and police chiefs (WASPC), intelligent speed
  assistance device companies, and any other organization or entity the department deems
  appropriate, to implement ISA licensing.
- Allow a person to request an administrative hearing, as provided by DOL rule, if they would like
  to contest DOL's decision (may need to either amend existing Hearings Rules to include ISAs or
  include them under potential new WAC for ISA licensing)
- Require DOL to adopt rules to provide monetary assistance based on greatest need and funds availability for ISA Device Revolving Account.
- Enable DOL to issue rules regarding the application process and eligibility under this section.

DOL will use existing resources for rulemaking.

# **Multiple Agency Ten-Year Analysis Summary**

#### **Biennial Totals**

## Narrative Explanation (Required for Indeterminate Cash Receipts)

The changes could potentially result in some amount of fine revenue. However, there is no judicial data available to estimate the total amount of fines that would be collected.

#### **Biennial Totals**

## Narrative Explanation (Required for Indeterminate Cash Receipts)

Total

Acct

Code

Cash receipts impacts are indeterminate. This bill establishes enforcement and compliance criteria for the ISA device and ISA restricted license. In addition, the bill establishes the ISA revolving account and will require a new revenue forecast. Revenue impact is positive, but indeterminate due to the lack of data on traffic violation rec of excessive speeding and racing.
