## Part II: Narrative Explanation

## II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

## This bill:

Section 2: Amends RCW 28A.150.390 and 2024 c 229 s 1

- (2) Amended excess cost allocation
- (a) Changes the multiplier for eligible students ages three, up to five years old not yet enrolled in kindergarten to 1.32.
- (b) District's annual average enrollment multiplied by either the district's base allocation per full-time equivalent or the state average, whichever is greater.

## Section 3: Amends RCW 28A.150.392 and 224 c 127 s 2

(7) Amended

High-need student eligibility for safety net awards to 1.75 times the average per-pupil expenditure.

## Substitute bill:

Section 2: Amends RCW 28A.150.390 and 2024 c 229 s 1

(2)(b) Eligible students receiving special education multiplier is changed to 1.32 regardless of time spent in general education settings.

Removes language that set a 16% enrollment cap for special education students

## (3) NEW

OSPI may reserve amounts up to .005 of the funding generated under Section 2 and outlined in Section 5.

## Section 3: Amends RCW 28A.150.392 and 224 c 127 s 2

(2)(f) strikes the language that the safety net committee shall consider extraordinary costs associated with communities that draw a larger number of families with children in need services to include consideration of proximity to group homes, military bases, and regional hospitals. Language is also struck that safety net awards under subsection (2)(f) shall be adjusted to reflect amounts awarded under subsection (2)(e).

## (3) Amended

Adjusts language so that OSPI shall adopt rules and procedures as necessary to administer special education funding and the safety net award process without a deadline.

## (6) Amended

Beginning in 2025-26 school year, safety net awards will be distributed to school districts on a quarterly basis if

- (a) The award is provided for a high cost student receiving services from an authorized entity located outside the state of Washington
- (b) The district applied for and received a safety net award for the high-cost student in prior school year and had no placement changes
- (c) The district meets all other award requirements

## Section 7 RCW 28A.150.560 and 2023 c 417 s 6:

(2) Amended to add that the proration and allocation of general apportionment funding to the special education program may not be based on an individual district's LRE percentage and instead use a uniform percentage for proration and allocation.

## Original Bill:

Section 1 NEW

Emphasizes that students receiving special education are entitled to a free and appropriate education per federal law and

state statute. The section also denotes special education as an integral part of the state's statutory program of basic education and the state's paramount constitutional duty.

## Section 2: Amends RCW 28A.150.390 and 2024 c 229 s 1

- (2) Amended
- (a) Changes the multiplier for eligible students ages three, up to five years old not yet enrolled in kindergarten from 1.2 to 1.6381.

## (b) Amended

Removes language references tiered multipliers for 2020-21 and 2023-24 school years.

General education setting for less than 80 percent of the day was 1.12.

General education setting for less than 80 percent of the day was 1.06.

Eligible students receiving special education multiplier is 1.5289 regardless of time spent in general education settings.

- (3) Amended
- (b) Removed the section that explains that special education funding is not dependent on the serving districts reporting but rather the resident district numbers. Also, how students from a nonhigh district or attending through an interdistrict agreement should be treated.
- (c) Removed the section addressing how the enrollment percentage is calculated and that it does not include Age 3-5 or institutional education enrollment.

## Section 3: Amends RCW 28A.150.392 and 224 c 127 s 2

## (6) Amended

Updated the high-need student eligibility for safety net awards 2 times the average per-pupil expenditures, for school districts with fewer than 1,000 full-time equivalent students and 2.2 times the average per-pupil expenditures for school districts with 1,000 or more full-time equivalent students to 1.5 times the average per-pupil expenditure as defined in Title 20 U.S.C. Sec. 7801 starting in the 2025-26 school year.

## Section 4: This act takes effect September 1, 2025

## II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### None

## **II. C - Expenditures**

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### This bill:

Section 2 using multiplier of 1.32 for students ages three through five year olds, for grade K through age 21 and removing enrollment cap for 2025-26 is an estimated increase of \$428,888,000.

Section 3 OSPI is using 2023-24 school year Safety Net awards change to 1.75 times to calculate the estimated increase of \$45,231,000 for the 2025-26 school year.

## Substitute bill:

Section 2 using new multiplier of 1.32 for grade K through age 21 and removing enrollment cap for 2025-26 is an estimated increase of \$481,148,000.

Section 3 will require a change to OSPI rules, OSPI estimates \$21,000 of staff time for the required rule changes in FY26. Additionally, OSPI estimates the change in application process will require an estimated 0.5 staff time, \$67,000 in FY26 and ongoing for approximately \$62,000 per fiscal year.

Section 7 OSPI assumes the proration and allocation of general apportionment funding allocated to the special education program by 30 percent.

## Original Bill:

Section 2 OSPI uses caseload forecast enrollment to estimating an increase of \$884,240,000 with the increased multipliers and enrollment cap removal for 2025-26 school year. See attached table for further school year and fiscal year details.

Section 3 OSPI is using 2023-24 school year Safety Net awards to calculate the estimated increase of \$70,382,000 for the 2025-26 school year. OSPI is unable to reasonably estimate any assumed increase to the number of individual student applications that would potentially occur with a lower threshold nor any potential savings to safety net to the state due to the removal of the enrollment CAP or higher multipliers.
