Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

1. The Attorney General’s Office (AGO) Government Compliance & Enforcement Division (GCE) has reviewed this bill and determined it will not increase or decrease the division’s workload. GCE provides legal advice and litigation support for the Office of the Insurance Commissioner (OIC). This bill would amend RCW 48.02.080 to enable the OIC to order the payment of restitution, after a hearing under the Administrative Procedure Act (APA) or with the consent of the person owing the obligation, for violations of the insurance code, OIC regulations, and OIC orders. It would also amend RCW 48.05.185 to allow OIC to levy certain fines on insurers on a per violation basis. OIC assumes that it will not experience any increase in enforcement cases as a result of this bill. Therefore, no costs are included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 authorizes the OIC to order payment of restitution when a person regulated under the insurance code possesses or controls, directly indirectly, such fees, money, funds, or other property that belongs to, is due to, or is owed to another person.

The OIC currently issues revocation and consent orders against individuals and business entities regulated under Chapter 48.17 RCW. A portion of these enforcement actions involve circumstances where individuals and business entities possess or control, directly or indirectly, such fees, money, funds, or other property that belong to, is due to, or is owed to another person.

Because this bill adds restitution authority to the OIC's already-existing enforcement action caseload, section 1 has no fiscal impact.

Section 2 of the bill allows the OIC to assess per-violation fines against insurers, but the OIC does not anticipate an overall change in how it determines the amount of fines levied against insurers, so section 2 will have no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

NONE.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates.
