## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1(1) amends current law and adds a new allowable qualification for the Early Childhood Education and Assistance Program (ECEAP) for a family with income above 36 percent of state median income but below the maximum household income for Working Connections Child Care, adjusted for family size, and is from a household with a parent who is a military member.

Section 2 adds a new section directing the department to adopt rules to allow children of military members to be enrolled in ECEAP within certain criteria.

Section 3 specifies that as space is available, after prioritization of children generally eligible, children allowed under section 2 may be included in ECEAP.

Section 4 specifies section 2 and 3 take effect August 1, 2030.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

NONE

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

Allowing children of military parents as an allowable group to receive for ECEAP will not expand the caseload. DCYF does not anticipate a fiscal impact because its implementation is contingent upon the availability of space and not included in the population for entitlement.
